

THE CENTRAL RECORD.

TWENTY EIGHTH YEAR

LANCASTER, KY., THURSDAY AFTERNOON, MARCH 21, 1918.

NUMBER 51.

PLOWING TIME

Get your plows and plow gear together.

There are lots of things you will need.

Don't wait until you are ready to hitch up.

We have what you need. Come and see.

Conn Brothers.
LIVE AND LET LIVE FOLKS.

Oats for seed and feed and number one timothy hay at Garrard Milling Co.

What doth it profit a man to plant a garden and lose it via his neighbor's chickens?

Cotton seed meal for sale. Hudson, Hughes & Farnau.

The water wagon is fast becoming an even more popular vehicle than the automobile.

Austria is beginning to inquire what she is fighting for. Nobody knows but the Kaiser and he won't tell.

See us for tested seed corn before it is too late. Hudson, Hughes & Farnau.

Just at this season of the year the threat of an ice famine holds as little terror as the reality of a coal famine.

Germany's plea that she is fighting for her existence, although hypocritically made, is coming to be the sober truth.

In justice to Mr. Root it should be remembered that he said Russia would be all right if — Only the "if" don't materialize.

The fellow who says a woman can't keep a secret should try to get his wife to tell the real secret of how she landed him.

Flowers the season affords, for Easter. Your order appreciated and delivered promptly. Billy Miller.

Since the hen received her reprieve, she has demonstrated what the female of the species can accomplish in a war on old H. C. L.

Mayor Hylan, of New York says, William R. Hurst is loyal and patriotic. But sometimes a man needs to pray for deliverance from his friends.

One congressman complains that there is not enough to do in Congress to keep him busy. We suggest that he resign his office and help Hoover.

Those German soldiers hunting for the American sector in France doubtless had the success of the boy hunting for a hornet's nest. They found it.

The Colonel has been discharged from the hospital, pronounced cured. His enemies are wondering if the cure includes certain opinions and inclinations.

Many a man who loudly proclaims himself in favor of measures that will work the greatest good to the greatest number, is also firmly convinced that No. 1 is the greatest.

The American Indian is the greatest real estate promoter among us. Every tract of land the Government assigns to him is at once so enhanced in value that everybody wants it.

The profiteers who attempted to rob the Government and the officers of the army in the price of uniforms should be given a chance to wear a uniform, only it should be different from the product of their factories.

Uncle Henry Watterson of the Louisville Courier-Journal will doubtless assert that the recent display of the Northern Lights was providentially sent to light the "Hohenzollerns and Hapsburgs" further on their way to hell.

Lime, sand, cement, brick, salt. Hudson Hughes & Farnau.

Criticism comes of the American soldier in France that they are too anxious to fight. What else could one expect when they were raised on a diet composed of three-fourths Jesse James and one-fourth Bob Fitzsimmons? And there'll come a time before long when not even their officers can hold them back.

The American people are perfectly willing to live on "substitutes," if only those substitutes are made available. As corn, however, as a substitute is suggested, the price of that article emulates the airship. When fixing a price on wheat the government might give great relief by also fixing prices on the substitutes.

For many years now we have laid great stress on the rights and privileges of the American citizen, forgetting or ignoring the fact that with every right or privilege there is also a duty. The time has come when we must put our full attention to these duties, and we should be as conscientious in their discharge as we have been insistent in demanding our rights and privileges.

JUST A FEW OF THE FARMS I HAVE FOR SALE.

132 acres.
Fertile land 2 miles of small village, located on good road. Good improvements and priced worth the money.

171 acres.
On pike 4 miles from Lancaster, in a high state of cultivation, good improvements and plenty of hemp and tobacco land.

33 acres.
On pike, 5 miles from Lancaster, splendid dwelling, tobacco barn, well fenced and well watered. A dandy little home right at school and churches.

240 acres.
Absolutely the most fertile farm in three counties. "Ready for the Knife". More hemp and tobacco land on this farm than any one farm of its size you can find in a month's ride, located right on pike, 6 miles from three county seats. Splendid neighborhood. Nearly all in grass. Possession of this farm can be given at once. This farm can be divided, will sell part of it.

35 acres.
On pike 4 miles from Lancaster, all in grass, no improvements but beautiful building site right on pike. Possession of this one can be given at once. A bargain if sold in the next thirty days.

I have a number of other farms which I can sell worth the money as I know values and will not list a farm unless it is priced right. If you want to buy or want to sell land, see me.

SWINEBROAD, The Real Estate Man,
Lancaster, Kentucky.

GENEROUS.

In the absence of Dr. J. M. Acton, who has enlisted in the Medical Department of Army, Dr. J. B. Kinnaird has volunteered to serve as County Health Officer, the emoluments of the office to be turned over to Mrs. Acton.

GOOD SALE.

Capt. A. M. Bourne, who cried the sale of Mr. Fin Ballard near Preacher'sville yesterday reported that stock of every description so well. Corn in crib, \$8 a barrel; shoats 25 cents a pound; sows \$30 to \$51; milk cows \$75; implements sold well and a good crowd on hand.

DR. KINNAIRD SELLS HOME.

The beautiful home of Dr. J. B. Kinnaird, on Hill Court, was purchased this week by Mr. J. E. Dickerson, the price paid, being about \$11,000. It is understood that Dr. Kinnaird will build another home in the near future and in connection with same a modern hospital.

PUBLIC SALE.

The public sale of all live stock and farming implements, belonging to J. J. and W. D. Walker are to be sold next Thursday, March 28th. The recent sale of their farm necessitates the sale of their personalty, the advertisement of which appears on another page of this issue.

SECURES GOOD HORSE.

Mr. Robert Fox informs us that he has just secured American Chief, one of the best four-year old combination stallions that he has ever owned and will make the season at his home near Marksbury this year. He has also purchased a very fine mule Jack, full description and pedigrees of both will appear in this paper later.

NO "CAMOUFLAGE"

"Camouflage" is a French slang word for deception. The word became popular in the army. When a company hid beneath quantities of bushes or brush to confuse the enemy—that was "camouflage".

The Byrne Optical Service is no "Camouflage"—it has been tried and tested by thousands of the leading citizens of Garrard and adjoining counties. J. J. Byrne, at Kensington Hotel, Lancaster, all this week.

A "KIDNAPING" SHEEP.

Mr. John Sutton has the distinction of owning a sheep that has developed some peculiar characteristics that few animals possess. For two years in succession she has kidnaped a lamb from another ewe, nourished it for several weeks and then giving birth to two of her own and raising all three to maturity. The motherly instinct of this sheep is commendable and so long as she doesn't trespass upon her neighbors' flock, we see no reason to censure her for it.

CIRCUIT COURT NEWS.

Circuit court which convened here on March 11th is still in session and will probably go on through the next week.

The grand jury has only been in session three days and has turned in only three indictments. The following commonwealth cases have been disposed of: Lewis Faulkner, charged with striking Bill Arnold, was fined \$50 and costs; Squire Williams charged with assault, was given a fine of \$60 and costs; same against same charged with gambling, fined \$20 and the trimmings; Jim Wyley for Breach of the Peace, drew a fine of \$20 and costs; Elmer Bird, carrying concealed a deadly weapon, \$35 and costs; Early Burnside, for malicious shooting, \$150 and costs; Charley Miller charged with same offense, drew a fine of \$50 and costs and for the unlawful sale of liquor, Charlie caught it again to the tune of \$50 and costs.

Three divorces were granted this week:

Mabel Overstreet granted a divorce from Denny Overstreet; Mrs. Emma Daniels was granted a divorce from J. S. Daniels; W. D. Wade from Mary B. Wade, the latter being restored to her maiden name, Mary B. Snyder.

Hubert Broadus, three year old son of Mr. and Mrs. Boy Broadus, through his next of kin, brought suit against the City of Lancaster claiming damages as the result of an accident last September, when he was thrown from an automobile, which overturned by running into a hole on the Buckeye road, just inside the city limits. The trial consumed two days and proved to have been the most interesting one that has come up this court. The jury returned a verdict, awarding the child \$2,000 and the court ordered that the city council of the City of Lancaster call for a special levy to satisfy the claim and costs in the action. Attorneys J. I. Hamilton and L. L. Walker represented the plaintiff and Hon. R. H. Tomlinson the city.

DAYLIGHT

President Wilson Fixes Signature To Daylight Saving Bill.

President Wilson has signed the daylight saving bill. It puts all clocks forward an hour the last Sunday in March, and turns them back again the last Sunday in October. People will rise, transact days business, retire an hour earlier but with the clock an hour fast won't know the difference, yet will gain an hour daylight in the afternoon. Twelve European countries effectly demonstrated plans practicable, and advocated to save illuminants, coal increase for manufacturing production, and as result improved working conditions and benefit to national health through devotion of additional hour of daylight for recreation.

SWINEBROAD,

THE REAL ESTATE MAN, MAKES TWO BIG LAND SALES.

He sells for Robert E. Hughes of Louisville, Kentucky, to James I. Hamilton a splendid farm near Lancaster, known as a part of the "Beazley farm" containing 178 acres for \$35,000.00.

And he sells to W. J. and G. O. Broadus, of this County 493 acres, near Bryantsville in this county, for the sum of \$61,732.50. This sale was made for Mr. Hamilton and is what is known as the C. C. Glass Farm.

Swinebroad also recently sold for Mrs. Bettie Scott of Vernon Texas, to Henry Arnold a small farm of 50 acres, adjoining Mr. Arnold, near the Richmond pike, for \$3650.00.

It looks like that when any one wants to sell a farm that all they have to do is to put it in Swinebroad's hands, and he will get it "Over the Plate."

EVERY SCHOOL

In The County Has Boys' Agricultural Club

County Agent, W. H. Rogers is the happiest man in the county over the encouragement he is receiving from the teachers of the various schools in the county in the organization of Boys and Girls Agricultural club. He is having the support of the teachers, parents and the children, and Miss Higgins, the County Superintendent, informs us that every school in the county desires to be represented and predicts one of the largest agricultural fairs ever held in this section of the state, will be held here this fall.

Mr. Rogers is doing a splendid work along this line and we are truly glad that he is receiving the support that he deserves from the people generally over the county. Let the good work keep up and everybody be a booster for the education of the boy and girl along these practical lines.

"MAPLES"

Beautiful Country Home Destroyed By Fire

Last Saturday morning about eleven o'clock the beautiful country home of Mr. George D. Robinson was destroyed by fire, together with its contents, only a small portion of the latter being saved.

No one except the servant, Jennie Withers, was at the house at the time, Mr. Robinson being out on his farm some distance away. Mrs. Robinson and children being in Danville. The screams of the servant brought in some of the near neighbors and those passing on the road, put the fire had gained such a headway, little progress could be made toward saving any of the contents, which consisted of very elaborate and expensive furniture. Mr. Robinson had spent quite a great deal of money on the place since he purchased it about two years ago, the hard wood floors alone costing him about \$1,000.

He had only \$2,500 insurance on the house and contents and his loss is estimated at three times that amount. He has made no definite plans, but it is thought that he will rebuild at once. The fire is supposed to have started from a grate or a defective flue in an upper room.

Safety First. There's no better protection against fire, than a policy with Gaines, the Insurance man.

Give her flowers for Easter. I will appreciate your order. Billy Miller. The highest grades of Cut

GIFTS TO RED CROSS.

The Young Girls Patriotic Society gave \$2.00 to help pay express on boxes. Coal is donated by Hudson, Hughes and Farnau.

Bucket and dipper by Mr. Raymond Haselden.

Three boxes were sent last Friday containing 55 Hospital Bed Shirts, 10 pairs of socks, 300 gauze Compresses.
