A Superior Planting Potato.

PLANTERS who are not inseparably wedded to one idea, are advised to make a trial—for seed purposes—of the JACKSON WHITE. This Potato, in its purity, is the produce of the East, is as large a producer as the Pink Eye, but unlike the latter, is a choice Table Variety and its superior in keeping qualities. I can give well known names as evidence of my assertions.
☞ Those disposed to quit the old beaten "Pink Eye" track, are advised to give me a call.

YOU SLOW PLANTER!

A SLOW PLANTER is noted for small crops and many debts. As the time for putting in the first Irish Potato Crop is at hand, the Slow Planter is recommended to purchase cheap Western Potatoes for *his* seed. The first cost is much less than choice Eastern varieties—the product small enough to save time in digging. No Western Seed Potatoes are sold by
jan23 JOSHUA BEAL

UP TO SNUFF!

PLANTERS and GARDENERS who are posted *will not* plant Western Seed Potatoes, but *will* invariably use those grown far North or East. The difference in favor of the latter is a purer Seed Potato and an earlier and finer product. A good supply of the best Northern and Eastern varieties will be kept during the planting season, by
