

### Killed by Poisons

All scientists agree that poisonous poisons in the blood are eliminated by the kidneys and liver. These organs act as a kind of filter for these poisons. When the kidneys are changed or degenerated, by disease or old age, then these poisons are retained in the body. If we wish to prevent old age coming on too soon, or if we wish to increase our chances for a long life, Dr. Pierce's "The Invaluable" Hotel, Buffalo, N. Y., says that you should drink plenty of water daily between meals, taking the kidneys. Then procure at your local drug store Anuric. This Anuric drives the uric acid out. Scientific men have learned that in food, also, the uric acid, poisons uric acid crystals are deposited in or about the joints, in the muscles—where inflammation is set up.

If we wish to keep our kidneys in the best condition a diet of milk and vegetables, with only little meat once a day, is the most suitable. Drink plenty of pure water, take Anuric three times a day for a month. Anuric is many times more potent than lithia and dissolves uric acid as hot water does sugar.

Send 10 cents to Dr. Pierce, if you wish to obtain a trial package of Anuric.

CLIFTON, TEX.—"I wish to say that I suffered from backache and kidney trouble for some time. I could hardly do any kind of work. I heard of Dr. Pierce's Anuric Tablets so I tried them, and they cured my backache. I hope people who are troubled with backache will give Dr. Pierce's Anuric Tablets a good trial. They do all that is required of them—they will not fail to benefit."

MISS ERMINE RUTH MOSER, R. F. D. 2.

MILTON, N. C.—"I suffered very much with my back and limbs. Had some derangement of the kidneys, but after using Anuric I obtained relief and have had no trouble since. I cheerfully recommend the Anuric Tablets to all who suffer from too much uric acid in the system."

CAPT. W. C. GRAVES.

**DROPSY TREATMENT.** Give quick relief. Swollen feet, ankles, legs and short breath. Never heard of its equal for dropsy. Try it. It is the best remedy for dropsy by mail.

Write to **DR. THOMAS E. GREEN**, South Side, Box 20, CHATSWORTH, GA.

No Dead Line for This Minister.

Who said there was such a thing as a dead line in the ministry? Rev. S. Swann, an English clergyman, has just beaten the athletic record of Lieutenant Miller, a Dane. He did six successive half miles, cycling, walking, running, paddling, sculling, and swimming, in 26 minutes, 30 2-5 seconds, exceeding the Dane's record by three minutes, lacking one second. The winner is fifty-five years old! If he can preach as well—and as quickly—as he can go through these successive locomotion stunts, he is some preacher!

**"Cold in the Head"**

is an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head" will find that the use of **HALL'S CATARRH MEDICINE** will build up the system, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh.

**HALL'S CATARRH MEDICINE** is taken internally and acts through the blood on the mucous surfaces of the system. All Druggists 75c. Testimonials free. \$10.00 for the case of Catarrh that **HALL'S CATARRH MEDICINE** will not cure.

F. J. Cheney & Co., Toledo, Ohio.

The Softest.

"Why is it," queried the fair widow, "that they always say a man 'pines' for a woman?"

"I suppose," growled the fussy bachelor, "it's because pine is about the softest wood there is."

A HINT TO WISE WOMEN.

Don't suffer torture when all female troubles will vanish in thin air after using "Femecina." Price 50c and \$1.00—Adv.

Some folks learn from an experiment; others never recover from it.

Woe to the politician whose nerves become affected.

For Swelling—Just Eye Comfort—Write for Free Brochure. **BUSCH'S MARINE EYE REMEDY CO., CHICAGO**

### WHY MANY SOILS ARE ALWAYS COLD

It is claimed that five times as much heat is required to evaporate water from the surface of a soil as would be needed to raise the temperature of the same amount of water from the freezing to the boiling point. This explains why, even in warm climates, the soil is so much colder than the surface of water. Then the heat of the sun is able to make a headway in warming the soil. But if the soil is constantly saturated with water the constant evaporation keeps the temperature down in spite of the sun's warmth.

### RIGHT USES FOR SKIM MILK

None Should Be Wasted as It Furnishes Maximum Amount of Food to Human Beings.

All skim milk should be used—none wasted. It should furnish the maximum of food to human beings and does this better when used direct, as cottage cheese, prepared buttermilk, or other by-products, than when fed to animals and converted into meat. Surplus skim milk, of course, may be used economically to feed hogs, yet 100 pounds of it, which will produce 15 pounds of cheese, produce only 4.8 pounds of dressed pork if fed with corn. Skim milk, if made into cottage cheese, furnishes nearly seven times as much protein and nearly as much energy as the dressed pork it would produce. Of course the most nourishment is obtained when skim milk is used direct, either for drinking or cooking. As far as possible, therefore, skim milk should be used for human food and only the excess fed to live stock.

### MORE MEMBERS IN PIG CLUBS

Big Increases Seen in Many States With Consequent Influences on Meat Production.

(Prepared by the United States Department of Agriculture.)

Despite the fact that the pig club membership for the year ending June 30 brought but a slight increase in the number of pig clubs, the membership in the clubs has increased to an extent that has caused a consequent increase in the amount of pig production. According to the annual report of the Bureau of Animal Industry, United States Department of Agriculture:

Thirteen states in all, many states, reported the work of 23,400 members, a membership increase of 96 per cent. This work was carried on in Alabama, Arkansas, California, Georgia, Indiana, Kentucky, Louisiana, Massachusetts, Nebraska, North Carolina, Oklahoma, Oregon and Texas. The number of members reported showed an increase of 148 per cent and now is nearly 39,000.

Financial aid by banks helped largely to make the clubs successful. As an instance, members in Arkansas last year furnished purchased pigs to

Pig Club Boy Preparing His Prize Winner for Show Ring.

1,800 of the 2,100 pig club members on 6 per cent interest-bearing notes. As the notes run from 12 to 15 months the pigs themselves will pay for their cost.

That the pig clubs are influencing meat production is indicated by plans in several states to have clubs send carloads of fat hogs for competition at fairs or stock shows, after which they are to be marketed co-operatively.

### ORGANIC MATTER AIDS SOIL

Humus Formed When It Decays Helps Hold Available Food Till the Plant Can Use It.

Organic matter serves many purposes in the soil. In decaying it helps make plantfood in the soil available as well as that in the organic matter. The humus formed when it decays helps hold the available plantfood till the plant can use it. The organic matter makes the soil more friable and less likely to puddle and cake into hard lumps. It also reduced erosion. The organic matter plays a most important part in the soil and as it decays it needs to be added quite often. The best form in which to add it is as manure, and the land should every few years be put into some crops as grasses or legumes which also add organic matter.

### REJECTION OF POOR HORSES

List of Vices That Should Cause Animals to Be Cast Aside as Unfit for Work.

For any purpose the following vices should cause the horse to be rejected: Balking, backing, rearing, kicking, striking with the forefoot or running away. Less important vices are: Throwing the head up or down, shying, searing, breaking loose when tied, resting one foot upon the other, grasping the bit between the teeth, rolling with the harness on, or switching the tail over the lines. Occasionally the last-named vice causes the horse to kick, in which case it becomes dangerous.

### NECESSARY FEED FOR FOWLS

Many Poultrymen Give Regular Supply of Sour Milk or Beef Scrap—Grit Is Essential.

Many poultrymen can give the fowls a regular supply of sour milk; if not, a hopper of beef scrap should be placed where the fowls can get at it. Hoppers of grit and oyster shell are also necessary. Don't forget the green feed. Mangels are one of the best and most convenient forms that can be used.

### TOOLS FOR SAVING OF LABOR

Exceedingly Important That Commercial Grower Should Have Right Hoe, Cultivator, Etc.

Are you certain you have the most efficient tools for the saving of labor? This is an exceedingly important question to every commercial grower. An enormous amount of time may be lost by not having the right hoe, cultivator, drill, etc.

### ATTENTION TO WORK HORSES

Animals Should Be Permitted to Get Poor From Lack of Care During Cold Weather Season.

Work animals should not be allowed to get poor from lack of care during the winter, but there are probably more animals injured at this time by over-feeding than under-feeding.

### MONEY TO WIN WAR

How Americans Can Defeat Blood-Crazed Kaiser.

Small Contributions From All Who Love Liberty and Appreciate Its Blessings Will Save World From Grave Danger.

Many are familiar with the fable that appeared in the old days of fables about the king who offered a fortune and the hand of his daughter to the man who could tell him a story that would last forever in the telling, with the stipulation, however, that in case the story came to an end, the person who failed to complete it was to lose his head by the sword.

A number of adventurous spirits lost their heads in the attempt to keep a serial going forever to amuse the eccentric monarch, but one young man finally won the fortune and the daughter by wearing out the very soul of the king with the story about the locusts carrying off the corn. "And then another locust came and carried off another grain of corn," etc., etc., until the king decided he had had enough of the story.

America—in fact, the whole world, is dealing with an "eccentric" monarch today. This monarch wants the impossible, and everyone who refuses to give it to him must lose his head. There is one way to deliver the peoples of the world from this menace.

Kaiser Wilhelm can be worn out, if he cannot be crushed by one tremendous blow. And the government at Washington has pointed out the way.

Money will defeat the Kaiser. Small savings, like the locusts, coming added from 100,000,000 American citizens, will wear out the soul of the war-mad monarch. American money can wear out any army in the world, because here is a great deal of American money and there are many Americans who have it. Just a mere matter of a quarter a day from every wage earner in the United States would mean billions of dollars every year to buy guns and food for soldiers, and ships to carry them across the Atlantic to defeat the sinister purposes of the Kaiser and his crew.

A quarter, like the grain of corn, is not much in itself, but millions of quarters every day mean victory for righteousness and humanity.

### Going Away Off.

Sloanie Williams, son of Thomas A. Williams, who recently removed to Montgomery, Ala., from Franklin, and the son of Capt. E. B. Chenoweth, former coroner of Johnson county, who enlisted in the medical corps at Ft. Harrison, and was sent to Honolulu, Hawaiian islands, for base hospital training, were playing.

Sloanie started an argument by saying "My papa and mamma and I are going away off."

Young Chenoweth replied: "So are my papa and mamma and me."

Sloanie took the matter in hand and announced: "Well, I bet we are going the farthest."

Chenoweth immediately objected, and the argument waged furiously. Finally young Chenoweth asked young Williams: "Well, where are you going, anyhow?"

Williams was unable to answer, and the physician's son quick to show his superior knowledge, answered: "Well, wherever it is, I bet it isn't as far as Hallelujah, that's where we're going to move to."—Indianapolis News.

### Soap for Wounds.

Common yellow soap, the kind used by housewives in washing clothes and dishes, has been found to be a wonderful cure for wounds in French hospitals and its use has spread to the British medical stations. A solution is made from a cake and injected into soldiers' wounds, even in the latest instances into the deepest bullet holes, where it has proved itself to be a superior antiseptic to hydrogen peroxide and most other germ killers, and in addition a strangely effective healer of torn tissues.

Wounds treated with soap need fewer dressings and lessen pain far more than do wounds treated with other antiseptics. These facts greatly expedite the work of the surgeons, who can handle more men than when using other solutions.

### What the Girl Said.

Being in charge of the complaint department at the local postoffice, I had a rather amusing incident occur a few days ago. The blank used in filing a complaint required answers to about a dozen questions, as, for example, date of mailing, contents, nature of complaint, as loss, damage or rifling. A young lady came to the window and explained that she was to receive a parcel containing medicine from an out-of-town doctor, and same was long overdue, according to advices regarding shipment received from the doctor. So I proceeded to have her answer the several questions on the blank mentioned. When I read the questions, nature of complaint, she replied, "Stomach trouble."—Chicago Herald.

### Perfect Explanation.

Little Bobby—What does "know no bounds" mean, daddy? Explain it to me.

Dad (buried in newspaper)—Kangaroo with rheumatism.

### More Careful.

"The German submarines have taken again to sinking neutral ships." "Yes, they know the neutrals haven't any guns."

### Nervous Headaches Four Bottles of Peruna Made Me Well

Mrs. Edith Hill, Lancaster, Ohio, writes as follows:

"I cannot tell how much I suffered in the past twelve years. I have been treated by physicians and no relief only for a short time. I was in such a condition from nervous headaches, and a heavy feeling as if my brain was pressing down, and so nervous I could not get my rest at night. Would have anything for my brain, but then so weak that I could not do my work. I began to take Peruna. Have taken four bottles of Peruna and have gained in strength and flesh, and can say I am a well woman. I cannot thank you enough for my recovery."

These who object to liquid medicines can secure Peruna Tablets.

### LUCKY STRIKE CIGARETTE

YOU'LL enjoy this real Burley cigarette. It's full of flavor—just as good as a pipe.

IT'S TOASTED

The Burley tobacco is toasted; makes the taste delicious. You know how toasting improves the flavor of bread. And it's the same with tobacco exactly.
