Care of Cows.

A correspondent of the Country Gentleman, writing on the care of cows, says: It is very important that cows are well provided for in every way to afford them the greatest comfort—the most essential point to be considered by the dairyman.

To Remove Mildew.

Wet the spot in lemon juice, then spread over it soft soap and chalk mixed together, and spread where the hottest rays of the sun will beat upon it for half an hour.

NEURALGIA REMEDY.—Prepare horse-radish, by grating and mixing in vinegar the same, as for table use, and apply to the temple where the face or head is affected, or wrist when the pain is in the arm or shoulder.

Don't preach charity and leave somebody else to practice it.

He gave her a hearty smack. "Don't kiss like that," she said. "I want a sweet, tender pressure when I'm kissed. I don't want any fireworks." He left out the explosion in the next act.—Worcester Press.

TO THE EDITORS OF THE STATE OF LOUISIANA. The Louisiana Bureau of Immigration is receiving many letters of inquiry from various sources calling for information for farmers, mechanics, laborers, business men, and capitalists, who desire to settle in this State, or invest capital here.

We will record all such descriptions of lands and propositions in our books, which will always be open to strangers and persons wishing to purchase, and these descriptions will furnish the bureau with an additional fund of valuable information for future circulars, and to be used in our letters in reply to inquiries.

As our board has no funds and no income except the small amount furnished by merchants and others in New Orleans who subscribe to assist us in our labors, we respectfully beg the editors of the State to publish this notice, for a few weeks or months, without charge to the board, for the benefit of immigration and the State.
