

PAN-HANDLERS GET THE GATE; COURT HALL GETS CLEARED

Grand Jury and Commissioners Are To Be Complimented

The recent Grand Jury is to be complimented for recommending that the Court House hall be cleared of pan-handlers, and the County Commissioners are to be praised for instructing the Sheriff's office to enforce the recommendation.

For many years the practice has been a disgrace to the county. Both Republican and Democratic Administrations have hesitated to clean up the Court House hall, probably thinking that to enforce an order of this kind would mean the loss of a few votes at election time. The citizens will no doubt be pleased to know that in the future they will be able to walk into the Court House and transact business without slipping on a quid of tobacco or being stopped with a request of "brother, can you spare a dime."

Not all of those who congregate in the halls, are, by any means, pan-handlers, but the continual gathering of large groups of men there causes much annoyance to the citizens, especially women, who go there on business missions. For a stranger to step inside the Court House and hear a group of men swearing is certainly not a desirable advertisement for Hagerstown and Washington County.

Let us hope that the County Commissioners' orders will be carried out to the letter and not forgotten as time goes on.

WHAT'S GONNA HAPPEN NOW!

We're wondering what is going to happen now when politicians look over the calendar and find no more birthdays as an excuse to make speeches.

NEW ENTERPRISE FOR HAGERSTOWN

I am contemplating organizing a company for the purpose of starting a cat ranch, the cats to be killed for their furs. The ranch will be located near this city.

To start with, we will collect 1,000,000 cats. Each cat will average 12 kittens per year. The skins sell for from 10 cents each for the white ones to 75 cents for the pure black. This will give us 12,000,000 skins per year, which, at an average of 30 cents each, will make our revenue about \$10,000 per day, gross.

A man can skin 50 cats a day for \$2. It will take about 100 men to operate the ranch, and, therefore, the net profit will be about \$9,800 per day. We will feed the cats on rats and will start a rat ranch next door. The rats will multiply four times as fast as the cats; therefore, if we start with 1,000,000 rats we will have four rats per day for each cat which is plenty.

Then we will feed the rats on the carcasses of the cats from which the skins have been taken, giving each rat a quarter of a cat. It will therefore be seen that the ranch will be self-sustaining. The cats will eat the rats and the rats will eat the cats, and we will get the skins.

If you are interested in the above enterprise, you will call the next time you are in need of fishing tackle, baskets, tobacco, cigars, canary birds, parrots, and all supplies, dog remedies, harness, collars, whips, foods, etc., at Spangler's Pet Store, 19 West Franklin Street.
