A REMARKABLE OLD MAN. A correspondent who writes from Milo, Oct. 21st, gives the following account of Mr. Benjamin Walton, who was one of Gen. Washington's soldier's in the war of the Revolution, and who is now ninety one years of age, and a resident of that town. "Last summer he felled four acres of trees, and burned and cleared the ground in the best manner, besides assisting in hoeing, mowing & raking. He retains his mental faculties almost beyond conception, his eyes wearing the brilliancy of youth, & at the mention of his noble Commander, they flash with the fire of Seventy-six. He often relates the reminiscences of his early life, and refers, with gratitude, to the noble acts of the Father of his Country. He has traveled through the greater part of the United States, and he has never fought a duel, nor drank any intoxicating liquor nor tea, nor has he used tobacco; he has never employed a physician or a lawyer, nor has he ever made use of spectacles, and he now walks with elasticity."

The example of industry and temperance which is here furnished, is worthy of general imitation. Maine Farmer.

PERPETUAL MOTION. Mr. Sewall B. Walton, of Livermore Falls exhibited his ingenious invention to several mechanics and scientific men in this town one day this week; and all were unanimous in according to him the honor of having succeeded in making a machine that possesses self starting power, and a self acting motion, notwithstanding it has heretofore been considered an impossibility. Mr. Walton has spent years of labor in accomplishing this great work, & has been much ridiculed by the faithless; but still he has persevered, and now has demonstrated to the world the practicability of a self acting power. The model has now been runing constantly for about two years, and any one examining it will see at once that it will go as long as the material of which it is composed shall last. Mr. W. is now exhibitig it, for the purpose of raising funds, to enable him to make farther experiments in increasing the power of the machine, which, at present, is only sufficient for the purpose of clock work. It is a matter of doubt if the power can be increased to make it a valuable propelling power for machinery; but if the article can be manufactured and applied to clockwork alone, it will be of great utility. We have before spoken of this invention, and now say again that it is no humbug, but a veritable substantiated fact. We hope the model will be publicly exhibited in this town, that all may see and believe for themselves.—Hallowell Gazette.

Old "Tecumseh" is Dead!

Louisville, Nov. 19.—Col. R. M. Johnson, renowned for killing the Indian Chief Tecumseh, died at his residence at 9 o'clock this morning.

A Dutch farmer on the Mohawk had just built a new barn, and while the operation of shingling was going on, he one day mounted to the roof to overlook operations, and he soon discovered what he very sagely considered a very great piece of extravagance in the workmen, and this was, that while they drove but one nail in the small shingles, they invariably put two in the wide ones. Mynheer said nothing; but while the boss and hands were in at dinner, he went out to the barn, hatchet in hand, and *split all the wide shingles*.

An Irishman who was very *near sighted*, about to fight a duel, insisted that he should stand six paces nearer his antagonist than the other did to him, and that they were both to fire at the same time. This beats Sheridan's telling a fat man who was going to fight a thin one, that the latter's slim figure ought to be chalked on the other's portly person, if the bullet hit him out side the chalk mark, it was to go for nothing.

A HAPPY MAN.—The editor of the Pittsburg Chronicle says—"Talk about the enjoyment of wealth—it never can be enjoyed! An abundance is a heap of misery. A man who owns a house, a small farm, a small wife, a big dog, a cow, two or three fat pigs, and a dozen children, ought to be satisfied. If he ain't he never can be.
