They are All Right.

What? The farming lands offered at Munising. The following editorial appeared in the Evening News of Monday, March 30. It is republished here for the benefit of those who did not take time to read it carefully:

There have been so many land schemers up in this district within the past few years that we were somewhat timid in allowing the use of our columns for advertising the sale of any lands without our people having an opportunity of inspecting them before they bought.

As we understand it, two corporations own 200,000 acres of hardwood lands a short distance back from Munising Bay, in the neighborhood of the Pictured Rocks, and in addition to the lands belonging to the two corporations, there are lands owned by private parties, making a total of about 400,000 acres.

These lands are sold to actual settlers at from \$4 to \$7.50 per acre, according to quality, timber, etc. We do not sell until you go and see for yourself. For further particulars enquire of GEO. H. MILES, Walls' Block, Near Depot, Calumet, Mich.
