Mass Meeting Friday Night Draws Big Crowd

PROSPECTS ARE SPLENDID FOR A NEW INDUSTRY FOR YALE.—COMMITTEE IS APPOINTED TO INVESTIGATE

The mass meeting held at the council chamber Friday evening, Aug. 18, for the purpose of taking action regarding the proposition of the Ex-Cell-O Tool and Mfg. Co., of Detroit, to locate in Yale, was largely attended by our business men and citizens. The seating capacity of the room was taxed and many had to stand up.

Mr. Parker, president of the company, and inventor of the tool exhibited, gave a splendid talk on how he came to invent the machine, and spoke of its many uses in detail. Mr. Woodworth demonstrated its workings.

C. Howard Smith explained the proposition whereby Yale might get the plant to locate in our city.

Yale people are very enthusiastic in the hopes of getting this new industry.

Mayor Jacobs presided at the meeting and called on several present to express their views regarding the proposition. Each one stated that he would do his part.

A committee of three, F. W. Andrae, Ed Eilber and W. F. Ruh, were selected to go to Detroit and make an investigation of the company's plant and report later on their findings.

We should all put our shoulders to the wheel and help get this new industry for Yale.

It is unnecessary to go abroad to find beauty in the old countries. Our own country has them beaten in every way.

G. W. Dickinson, secretary and manager of the Michigan State Fair, recently spoke from Station WCX at Detroit. So interested did Mr. Dickinson become in radio telephony that one of his artist friends drew this cartoon for him.

COME ON, BOYS

Guess by the looks of things around the city we will have a chance to chronicle a donation to the city strong box each week.

On Thursday last, Laverne Carroll, one of the deck hands at the Woolen Mills behaved in a rather ungentlemanly manner. His auto got the habit, too, and zig-zagged up the street in an unbecoming way.

Saturday he was picked up by Marshal Henry and the two visited Judge Merrill. Laverne admitted having imbibed too freely of the "juice of the still," and upon the judge's recommendation he donated \$20.00 and costs, (the entire amount footing up \$25.00.)

With a long, cold winter staring the city officials in the face, these contributions look mighty good. And its about the only way to tame these lovers of "moonshine."

There are a few more towns who will probably be assessed soon unless they change their ways, and we invite our readers to watch these columns for further developments.

PATRICK H. KELLEY

On Friday, Aug. 18, Hon. Patrick H. Kelley, candidate for the Republican nomination for U. S. Senator from Michigan, gave an open air talk on the political issues of the present campaign.

His introductory remarks were regarding the gravel road between Capac and Yale. He said it was the finest stretch of good roads he has travelled this year. He dwelt at length on the high taxation, comparing the increase in taxes since the war and before, stating that it was a terrible burden on the farmer.

The Newberry scandal was gone over thoroughly denouncing those who had anything to do with it. About seventy-five townspeople listened attentively to his talk.

A PLEASANT BIRTHDAY

The occasion was a very enjoyable one.

The Weight of Your Voice

Don't be backward about speaking a good word for this town. It costs you nothing, and its value is beyond measure.

You may imagine that the weight of your individual voice is little avail. But you are in error.

Every good word counts—as does every bad one.

Your individual opinion has great weight with some, and reasonable weight with others. There is no one upon whom it does not leave its impress.

When you point out the beauties and advantages of this community and the sterling qualities of its citizens, you stamp the facts upon the minds of those with whom you converse and they in turn transmit them to others.

In this way the work becomes an endless chain, always traveling, always boosting, always beckoning to the stranger to come where good words and good deeds abound, and where ill ones are seldom heard or seen.

Every voice has its weight, and yours is not the least of all.
