AN AWFUL

disease, which really has its origin in a disordered stomach, and cannot make headway if the digestive organs are in full operation, often becomes a fearful epidemic; and hence, there is played on the world's stage, with Condition Powders and Medical preparations acting an important part, a

TRAGEDY!

indeed awful, carrying away in its bloodhound rapacity the most valuable horses and cattle, and sweeping in a single stroke the well-to-do farmer, dairymen and horse owner into financial embarrassment.

A MAN

cannot catch cold if his system is in good shape, and so likewise horses and cattle will be free from disease if their food-dissolving apparatus is in the best

OF

condition. "An ounce of prevention is worth a pound of cure," hence a bag of Stock Food is worth sixteen packages of medicine. A small quantity of the

ROYAL

Stock Food, costing only a few cents a pound, fed daily, will so keep your horses and cattle that there will be bright eyes and slick coats, energy and activity among your horses, and plenty of good milk and good calves from your cows. There will also be good

BLOOD

in your hogs, hence the meat will be sweet and juicy, cholera being unknown among them. A wise man always

GIVES

that which has a good reputation and costs almost nothing a trial, if by the success of such articles good results will be obtained. On the other side with but

THE STROKE

or so of the pen we will tell how the Famous Royal Stock Food is used and what for.
