**GREAT MAN HAD VACARIES.**  
 Johnson's Peculiar Ideas as to Mat-  
 ters of Speech.  
 While Johnson was in France, he  
 was generally very resolute in speak-  
 ing Latin. It was a matter with him  
 that a man should not let himself  
 down by speaking a language which  
 he speaks imperfectly. In fact, we  
 must have often observed how in-  
 ferior, how much like a child a man  
 appears, who speaks a broken tongue.  
 When Sir Joshua Reynolds, at one of  
 the dinners of the Royal Academy,  
 presented him to a Frenchman of  
 great distinction, he would not deign  
 to speak French, but talked Latin,  
 though his excellency did not under-  
 stand it, owing, perhaps, to Johnson's  
 English pronunciation; yet upon an-  
 other occasion he was observed to  
 speak French to a Frenchman of high  
 rank, who spoke English; and being  
 asked the reason, with some expres-  
 sion of surprise he answered, "Be-  
 cause I think my French is as good  
 as his English."—London Chronicle.

**Old Fences Are Valuable.**  
 The fate of the rail fence was de-  
 clared less than twenty years ago,  
 when the value of walnut, oak and  
 poplar timber increased to such a  
 figure as to make wire fences cheap-  
 er in the worm fences still in existence  
 there are thousands of walnut and  
 poplar rails in an almost perfect state  
 of preservation. The walnut ones are  
 valuable. An enterprising Chicago  
 concern recently made that discovery,  
 and its representatives have purchas-  
 ed many carloads of the rails.

**STARTLING REPORTS COME OF DANGER FROM A RISING OF THE PEOPLE.**

**THE PEOPLE AND THE ARMY ARE SAID TO BE VERY DISSATISFIED OVER THE TERMS.**

President Roosevelt has received from the emperor of Japan the follow-  
 ing message of thanks and apprecia-  
 tion for the part played by the presi-  
 dent in the negotiations which have  
 resulted in a cessation of hostilities in  
 the far east:  
 "Tokio, September 3, 1915.—The  
 President: I have received with grati-  
 fication your message of congratula-  
 tions conveyed through our plenipo-  
 tentiaries and thank you warmly for it.  
 To your disinterested and unremitting  
 efforts in the interests of peace and  
 humanity I attach the high value which  
 is their due and assure you of my  
 grateful appreciation of the distin-  
 guished part you have taken in the  
 establishment of peace based upon the  
 principles essential to the permanent  
 welfare and tranquility of the east.  
 "MITSUHIHO."  
 The telegram from the Japanese  
 emperor puts an end to the rumors  
 that the emperor was dissatisfied with  
 the terms finally concluded by his  
 plenipotentiaries. The concluding  
 sentence of the telegram is especially  
 significant. It evidently voices the be-  
 lief of the Japanese emperor that the  
 treaty about to be concluded at Ports-  
 mouth will be for a permanent peace.

**Startling Report.**  
 Japan is on the verge of a revolution  
 over the concessions granted to Rus-  
 sia in the proposed peace treaty, ac-  
 cording to a dispatch from Tientsin  
 printed in the New York Herald Mon-  
 day morning.  
 The discontent has been steadily  
 growing since the first intimation  
 came from Portsmouth that Japan's  
 original demands have been sacrificed  
 and the feeling is now so deep-seated  
 that it is greatly feared there will be  
 an uprising throughout the empire.  
 This popular rage has manifested itself  
 prominently in Tokio.  
 With the army showing the same  
 spirit in the field as the nation at  
 home, the safety of the empire is be-  
 lieved to be in grave peril.  
 The interruption of all cable com-  
 munication with the island empire  
 which was at first attributed to a great  
 typhoon, is now said to have been  
 caused by the deliberate cutting of  
 the wires, either with the idea of  
 keeping the news of the discontent  
 from the army or with the purpose of  
 preventing orders to Oyama for the  
 return of the forces in the field to  
 squelch the possible rebellion.

**THE EMPEROR SATISFIED.**  
 It can be said that the president has  
 expressed no anxiety at the delay of  
 the cablegram from the emperor of  
 Japan. It was known that the terms  
 finally concluded at Portsmouth were  
 dictated by the Japanese emperor him-  
 self, and that they could not be other-  
 wise than satisfactory to him and to  
 his advisers. The delay in respondi-  
 ng was due, it is surmised, to the de-  
 sire of the emperor to be assured that  
 the terms agreed upon would be in-  
 corporated into a treaty, without the  
 probability of a serious hitch. That  
 assurance, it is said, was conveyed to  
 the Japanese emperor last night upon  
 the practical conclusion of the draft  
 of the treaty. The cablegram to  
 President Roosevelt followed in nat-  
 ural course.  
 Humanity wanted at any cost  
 to stop the butchery, and it acted,  
 through its organ the press, which  
 here in Portsmouth has rightfully been  
 called "the third party" interested in  
 the result of the conference. Indeed  
 there have been moments in which the  
 conference seemed at its end, but the  
 press and the president rushed to its  
 rescue and brought it back to life.  
 By the war Japan has ended Rus-  
 sia's dream of Chinese conquest and  
 an open seaport on the Pacific. Rus-  
 sia has been compelled to agree to  
 Japanese protectorate over Korea.  
 Mutual evacuation of Manchuria.  
 Return to China of Manchuria, and  
 the open door in that province.  
 The integrity of China.  
 Cession of the Chinese Eastern rail-  
 road to China; Japan to get the price  
 of it from China.  
 Cession of Russian leases of Port  
 Arthur, Dalny, the Elliott islands, etc.,  
 to Japan.  
 Grant to Japan of fishing rights off  
 Siberian coast.  
 Cession of southern half of Sakhalin  
 to Japan.  
 Japan has agreed to forego reim-  
 bursement for the cost of the war,  
 claim to interned Russian warships,  
 demand for limitation of Russian  
 naval power and redemption price of  
 north Sakhalin.  
 Allowing railroad from Harbin to  
 Vladivostok, which remains in Rus-  
 sian hands, to be patrolled only by  
 Chinese guards.  
 Russia also agrees to pay liberally  
 for the care of the 100,000 prisoners  
 of war Japan is now holding. It is  
 estimated she will pay \$1,000 per man,  
 of about \$100,000,000.

**THE PURPOSE.**  
**JAPAN'S CHIVALROUS SACRIFICE; LONDON VIEW.**  
 The following summary, purporting  
 to give the "exact nature of the work  
 accomplished and the broad charac-  
 teristics of the treaty, is believed to  
 underlie the endeavors of either side  
 at Portsmouth, is printed in London.  
 The dispatch says: "Speaking gener-  
 ally, a fourfold purpose may be dis-  
 cerned in the twelve historic proposi-  
 tions carefully drafted by the Japanese  
 plenipotentiaries:  
 "First—To restore the entire set of  
 political conditions which the treaty  
 of Shimoneki was calculated to estab-  
 lish.  
 "Second—To remove, counteract or  
 assuilate the disturbing factors, polit-  
 ical, economical and military, which  
 have come into existence since then.  
 "Third—To hinder the growth of the  
 new disturbing factors created by the  
 aggressive policy of Count Muraviev  
 and Admiral Alexieff, and  
 "Fourth—To play the enviable role  
 of a chivalrous prince in releasing the  
 Chinese and Korean prisoners from  
 the power of the sorcerer's spell, and  
 in helping Europe and the civilized  
 world to rights too long withheld."

**BARCELONA SPAIN, IN PANIC OVER A BASTARD'S WORK.**  
 A bomb exploded with terrific force  
 Sunday afternoon on the Marine Pa-  
 rade, in Barcelona, which was thronged  
 with holiday makers. A panic ensued  
 and the air was rent with shrieks and  
 groans of the victims, who num-  
 bered between fifty and sixty, includ-  
 ing one woman killed and five persons  
 mortally wounded.  
 The bomb was cooked in shape and  
 covered with cement. The perpetrator  
 of the outrage is unknown. One wit-  
 ness states that early in the morning  
 a child was seen to deposit a bomb at  
 the foot of a tree, while another ver-  
 sion is that the bomb was placed at  
 the foot of a tree during the afternoon,  
 and that the men who were seen to  
 place it there were injured by its pre-  
 mature explosion.

**MICHIGAN ITEMS.**  
 Percy Pembroke, a 16-year-old San  
 Francisco boy, has confessed that he  
 held up, murdered and robbed Thomas  
 Cook, a neighbor, all because he  
 wanted a little spending money.  
 Charles Armstrong, of Okola, Ia.,  
 in July divided his property among  
 his wife and children, and started  
 August 1 to starve himself to death.  
 Physicians say he can live but a few  
 days longer. Armstrong was a com-  
 fortable circumstances, but afraid  
 that he would become a burden his  
 family.

 procurator wants the prisoners killed

**TOUGH STORY.**  
**A RELEASED CONVICT'S STARTLING TALE OF WOE.**

Alleging among other things that  
 brutal flogging of prisoners in Mar-  
 quette prison had led to several at-  
 tempts at suicide, some of them suc-  
 cessful; that prisoners have been con-  
 fined and fed on bread and water  
 longer than the law allows, until in  
 some cases they have actually caught  
 rats that ran about in cells and eaten  
 them, Daniel Eugene Hampton, who  
 just completed a sentence for burglary,  
 in that institution, is on his way to  
 see Governor Warner to make a state-  
 ment before him and to present affi-  
 davits embodying the statements which  
 he has sworn to.  
 Hampton charges that Emil Waltz,  
 sent from Detroit for murder, took  
 his own life to escape a flogging, hav-  
 ing been subjected previously to un-  
 bearable severity. He charges that  
 A. E. Peverly, known as "Whitey  
 Black," and sent from Kalamazoo for  
 participation in the Richland bank  
 robbery, to escape flogging, attempted,  
 in presence of the prison guards, to  
 take his life by severing his hand with  
 a knife, and that he actually inflicted  
 such wounds that the surgeon had to  
 amputate the hand.  
 Hampton exhibited what he said was  
 a duplicate of the instrument with  
 which the flogging was done. It was  
 a piece of harness leather, perhaps an  
 eighth of an inch thick, oblong shaped,  
 about ten inches long by eight inches  
 wide, perforated with small holes and  
 attached to a strong handle. Hampton  
 says this instrument was administered  
 by a man weighing 200 pounds. He  
 says prisoners would be extended over  
 a barrel and at times beaten until the  
 blood ran down their legs. He says  
 he himself was given 75 blows with  
 this paddle on one occasion.

**THAT TREATY.**  
**JAPS WILL HOLD OFF ON THE ARMISTICE.**  
 Japan has refused to consent to the  
 cessation of hostilities until the  
 treaty of peace has been signed.  
 The Russian plenipotentiaries ac-  
 companied by their secretaries called  
 on Baron Komura and Mr. Takahira  
 shortly after noon Friday and were in  
 conference with them for half an hour.  
 Japan having indicated through  
 Baron Komura her willingness for an  
 armistice, M. Witte supposed that he  
 would find them ready to sign. Bar-  
 on Komura explained that while his gov-  
 ernment was ready to consent to an  
 armistice, his instructions were that  
 this should not take effect until after  
 the signing of the treaty.  
 An agreement was finally entered  
 into providing for an armistice which  
 shall take effect the moment the treaty  
 is signed.  
 The "treaty of Portsmouth" is to  
 be given to the world. There is to  
 be no secret about it, neither govern-  
 ment having any reason to withhold  
 it. Its provisions are therefore to be  
 published broadcast textually, but not  
 immediately.

**YELLOW CRUST ON BABY**  
 Would Crack Open and Scab Causing  
 Terrible Itching—Cured by  
 Cuticura.  
 "Our baby had a yellow crust on his  
 head which I could not keep away.  
 When I thought I had succeeded in  
 getting his head clear, it would start  
 again by the crown of his head, crack  
 and scale, and cause terrible itching.  
 I then got Cuticura Soap and Oint-  
 ment, washing the scalp with the soap  
 and then applying the Ointment. A  
 few treatments made a complete cure.  
 I have advised a number of mothers  
 to use Cuticura, when I have been  
 asked about the same ailment of their  
 babies. Mrs. John Boyce, Pine Bush,

 Made Mosquitoes Drunk.  
 Dr. St. George Gray of the British  
 West Indies says that the Culex fam-  
 ily has a fondness for wine, like many  
 members of other old aristocratic  
 families. He says: "I put a few mos-  
 quitoes under a bell jar, containing a  
 couple of drops of port wine. A few  
 hours later I found them apparently  
 dead, and put them into a dry bottle.  
 Shortly afterward, they were all stag-  
 gering about under the microscope in  
 a most ridiculous manner—they were  
 drunk."  
 Evidence of Guilt.  
 If a Chinese dies while being tried  
 for murder the fact of his dying is  
 taken as evidence of his guilt. He  
 has departed, but somebody must suf-  
 fer, and his eldest son, if he has one,  
 if he has no son then his father or  
 brother gets a flogging. It's all in  
 the family, and somebody has to pay  
 for it.

**THE IDEAL WIFE**  
 Shapes the Destiny of Men—The Influence of a  
 Healthy Woman Cannot Be Overestimated.

Seven-eighths of the men in this world marry  
 a woman because she is beautiful in their eyes—  
 because she has the qualities which inspire admira-  
 tion, respect and love.  
 There is a beauty in health which is more at-  
 tractive to men than mere regularity of feature.  
 The influence of women glorious in the possession  
 of perfect physical health upon men and upon the  
 civilization of the world could never be measured.  
 Because of them men have attained the very heights  
 of ambition; because of them even thrones have  
 been established and destroyed.  
 What a disappointment, then, to see the fair young  
 wife's beauty fading away before a year passes over  
 her head! A sickly, half-dead-and-alive woman,  
 especially when she is the mother of a family, is  
 a damper to all joyousness in the home, and a  
 drag upon her husband.  
 The cost of a wife's constant illness is a serious  
 drain upon the funds of a household, and too often all the doc-  
 toring does no good.  
 If a woman finds her energies flagging, and that everything tires her,  
 dark shadows appear under her eyes,  
 her sleep is disturbed by horrible  
 dreams; if she has backache, head-  
 aches, bearing-down pains, nervous-  
 ness, whites, irregularities, or despon-  
 dency, she should take means to build  
 her system up at once by a tonic with  
 specific powers, such as Lydia E. Pinkham's  
 Vegetable Compound.

This great remedy for women has  
 done more in the way of restoring  
 health to the women of America than  
 all other medicines put together. It is  
 the safeguard of woman's health.  
 Following we publish, by request, a  
 letter from a young wife.  
 Mrs. Bessie Ainsley of 611 South 10th  
 Street, Tacoma, Wash., writes:  
 Dear Mrs. Pinkham—  
 "Ever since my child was born I have suf-  
 fered, as I hope few women ever have,  
 with inflammation, female weakness, bearing-down  
 pains, backache and wretched headaches. It  
 affected my health so that I could not en-  
 joy my meals, and half my time was spent  
 in bed.  
 Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Remember Lydia E. Pinkham's Veget-  
 able Compound holds the record for  
 the greatest number of actual cures of  
 woman's ills. This fact is attested to  
 by the thousands of letters from grate-  
 ful women which are on file in the  
 Pinkham laboratory. Merit alone can  
 produce such results.  
 Women should remember that a cure  
 for all female diseases actually exists,  
 and that cure is Lydia E. Pinkham's  
 Vegetable Compound. Take no substi-  
 tute.  
 If you have symptoms you don't  
 understand write to Mrs. Pinkham,  
 Lynn, Mass., for special advice—it is  
 free and always helpful.

Physicians Recommend Castoria  
 CASTORIA has met with pronounced favor on the part of physicians, pharma-  
 ceutical societies and medical authorities. It is used by physicians with  
 results most gratifying. The extended use of Castoria is unquestionably the  
 result of three facts: First—The indisputable evidence that it is harmless;  
 Second—That it not only allays stomach pains and quiets the nerves, but assim-  
 ilates the food; Third—It is an agreeable and perfect substitute for Castor Oil.  
 It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic  
 and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's  
 Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, how-  
 ever, is to expose danger and record the means of advancing health. The day  
 for poisoning innocent children through greed or ignorance ought to end. To  
 our knowledge, Castoria is a remedy which produces composure and health, by  
 regulating the system—not by stupefying it—and our readers are entitled to  
 the information.—Hall's Journal of Health.

Letters from Prominent Physicians Addressed to Charles H. Fletcher.  
 Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria  
 often for infants during my practice, and find it very satisfactory."  
 Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in  
 its class. In my thirty years of practice I can say I never have found anything that  
 so filled the place."  
 Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found  
 it an excellent remedy in my household and private practice for many years. The  
 formula is excellent."  
 Dr. Wm. L. Bosserman, of Buffalo, N. Y., says: "I am pleased to speak a good  
 word for your Castoria. I think so highly of it that I not only recommend it to  
 others, but have used it in my own family."  
 Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria exten-  
 sively, as I have never found anything to equal it for children's troubles. I am  
 aware that there are imitations in the field, but I always see that my patients get  
 Fletcher's."  
 Dr. Wm. J. McCann, of Omaha, Neb., says: "As the father of thirteen children  
 I certainly know something about your great medicine, and aside from my own  
 family experience I have in my years of practice found Castoria a popular and  
 efficient remedy in almost every home."  
 Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria  
 has made for itself in the tens of thousands of homes blessed by the presence of  
 children, scarcely needs to be supplemented by the endorsement of the medical  
 profession, but I, for one, most heartily endorse it and believe it an excellent remedy."  
 Dr. Channing H. Cook, of St. Louis, Mo., says: "I have used your Castoria for  
 several years in my own family and have always found it thoroughly efficient  
 and never objected to my children, which is a great consideration in view of the fact  
 that most medicines of this character are obnoxious and therefore difficult of ad-  
 ministration. As a laxative, I consider it the peer of anything that I ever pre-  
 scribed."  
 Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not pre-  
 scribe proprietary preparations, but in the case of Castoria my experience, like that  
 of many other physicians, has taught me to make an exception. I prescribe your  
 Castoria in my practice because I have found it to be a thoroughly reliable remedy  
 for children's complaints. Any physician who has raised a family, as I have, will  
 join me in heartiest recommendation of Castoria."
