There are a multitude of uses for flour sacks, but these are much pleaser for any purposes when the lettering has been removed.

CHOOSING A TEAPOT.

The real secret in choosing a teapot, be it made of silver, crown derby, or even the humble but useful brown "mug."

ABOUT VEILS.

An effective way of securing an ordinary face veil is to loosen the barrette, which is worn in the back of the hair, and catch the pin or fastener through the veil, and then the hair and veil through the veil, thus preventing the sagging of the veil under the chin which looks so ugly and yet is such a common sight.

TOURNEY TO BE A "HUM-DINGER"

THAT'S WHAT BESSEMER SAYS OF U. P. FIREMEN'S MEET. AIRSHIP AND CARNIVAL SHOWS.

The firemen of Bessemer, who are to entertain the Upper Peninsula Firemen's association the latter part of July, intend to make this year's tournament "the best ever."

"The seventeenth annual tournament of the Upper Peninsula Firemen's association is to be held this year at Bessemer. We're going to make this 1911 tournament a "hum-dinger," but we need you in our plans, hence this letter.

HE WANTS A WIFE.

California Man Asks Governor Osborn to Aid Him in Quest. Lansing, Mich., June 29.—Among the multitudinous matters which come to Governor Osborn for his attention none of them has presented the absurd angle which is conveyed in a letter just received from a California man, who seems to consider the executive office a matrimonial agency.

Lansing, Mich., June 29.—Due to the fact that the police officers about the state are not generally observing the state law in arresting offenders of the state automobile law which requires that each machine be equipped with a license tag, Secretary of State Frederick Martindale will send a man from the department over the state, who will instruct the police relative to the law.

Rep. Young is Not Worried by Committee Fight Delay. Washington, June 29.—Delays are certain before action will be taken by the house foreign relations committee on the Burton resolution, just passed by the senate, to continue the status quo as to the use of Niagara Falls for power.

Rep. H. Olin Young, of Michigan, member of the rivers and harbors committee, declares that it will be impossible for any one to run away with the falls, even though the present restrictions should lapse. Phillips' Saw. David Graham Phillips, who was murdered by a lunatic Socialist, used to say that ninety-nine out of a hundred persons always thought a pretty clear description of a man was to say that he was either tall, medium sized or short. Tip knows a wise old countryman who will study the sky thoughtfully if you ask him what the temperature indications are for tomorrow, and say: "It will be either a little warmer or a little colder or about the same."

No Explanation There. Many a man is living within himself merely because he requires little room.

The Indian officials point out the fact that the lands which they propose to dispose of are not practically worthless, but in many instances are located directly on and in close proximity to railroads, and it is expected will bring good prices.—Washington Star.

THE HOUSEHOLD

SOME DELICIOUS CHERRY RECIPES.

Roly Poly. Cherry roly poly is made with a good dumpling dough. Roll the dough long and about a quarter of an inch thick, and spread the surface with pitted cherries with a sifting of sugar.

Cherry Cream. Cherry cream needs but to be sampled to be appreciated. Make a syrup of two cups of sugar and one of water. After the sugar has dissolved let the syrup come to a boil and drop in the pitted cherries—one cupful. Simmer for fifteen minutes, dip out the cherries and add a cupful of rich cream to the syrup, pour into the freezer when cold and partly freeze. Remove the dasher then, and add the cherries, stirring them in well. Cover the cream closely and let stand for two hours.

Fritters. Cherry fritters are a fine luncheon dish. Make a batter of a cupful of flour sifted with a teaspoonful of baking powder, a little salt, half a cupful of milk, a trifle more if necessary, after adding one beaten egg. Whip up the batter light and smooth and not too soft. It should hold together well when dropped in the hot fat. After cutting out the dough in small rounds, add a few pitted cherries in the center and fold over pinching the edge together. Serve with a sauce made as for dumplings.

Dumplings. Cherry dumplings are made with the same kind of dough, with a trifle more shortening in it and a little stiffer. Cut the dough in round or square shape and place a few pitted cherries with a sprinkle of sugar and flecks of butter in the center. Bring the crust together evenly and bake in a moderately hot oven. A delicious sauce is made for the dumplings, or roly poly, by crushing the pitted cherries to a pulp with sugar. Strain to remove the skins and cook with a bit of butter. Serve hot.

A Drink. A delicious cherry beverage is made simply and quickly enough to merit its being called an "emergency drink." All that is required is to have on hand the cherries and some blood oranges. Make a syrup of two cups of sugar and one cupful of water, and boil fifteen minutes. Remove from the fire and add two cups of the expressed juice of fine, ripe cherries and one cupful of the orange juice. These two liquids of red give a lovely color. Place the beverage on ice to chill and serve with a cherry or two with its stem floating on top of the glass.

Short Cake. For cherry shortcake make a soft dough by mixing together two cupfuls of flour sifted with a heaping teaspoonful of salt and half a cupful of shortening, which may be half each of butter and lard. Add two tablespoonfuls of sugar and mix with a well-beaten egg and enough milk to make the dough of the right consistency. Roll out in two layers and make in the same plan with flecks of butter between. When baked the two layers will separate nicely.

Candied Cherries. If cherries are plentiful candy some as they are handy to have for garnishing purposes in the winter time. Any kind of cherries that are perfect and ripe may be used. To pit a quantity expeditiously insert the round end of a new hairpin in the cherry and draw it out, when the pit will come with it, also any lurking worms. To each pound of the fruit allow an equal quantity of sugar. Add water to the sugar in the proportion of half a cupful to the pound. Stir until the sugar is dissolved, when the cherries may be added. Let the syrup come to a boil, then simmer gently until the cherries are transparent. Pour off the syrup and spread the cherries on flat dishes. Cover with glass and set in the sun to dry. It will take several
