

DOINGS OF THE VAN LOONS—Father Might Yet Wish That He Wasn't An Heir

Laurium Department

LINE OF MARCH IS DETERMINED

Laurium's big Fourth of July parade will traverse the C. & H. location. ALSO.

Laurium's big Fourth of July parade will traverse the streets of the C. & H. location as well as the streets of Laurium. This was decided at a meeting of the committees held last evening, and the line of march was definitely announced. The parade will be assembled in three divisions at 9 o'clock, the first division on Pewabic street, south of Third; the second division on Iroquois street, north of Third and the third division on Third street, east of Iroquois. The parade will start at 9:30 o'clock sharp, any feature that has not appeared by that time being omitted. The second and third divisions will proceed west on Third street to Dequette, where they will be joined by the first division and the pageant will then go north on Pewabic to First; west on First and School streets to Calumet avenue; south on Calumet avenue to Depot; east on Depot and Third streets to Cassola; south on Cassola to Fourth; east on Fourth to Hecla; south on Hecla to Lake Linden avenue; east on Lake Linden avenue to Pewabic; north on Pewabic to Fourth; west on Fourth to Hecla; north on Hecla to Third and east to the Palestra where the parade will disperse.

SHOWS ARE PRAISED.

The wagon fronts of the various shows are attractive. They are decorated with harmonizing colors, with the numerous incandescent lights and the grounds present a scene of brilliancy. The feature attraction is the Patterson trained wild animal show. This is an unusual feature to be carried with an carnival company, and it compares favorably with the managers of the smaller circuses of the country. Signor Saccazzini and his herd of baby elephants made a hit with the crowds that attended this performance and judging from the interest shown in the entertainment this attraction will be well patronized all week. Another feature of the circus is Princess Dixie and her lions.

POSTAL SAVINGS BANK.

Branch to be Established in Laurium on Saturday. Saturday is the date set for the opening of the Laurium branch of postal savings bank. The Laurium office has received a full equipment for the transaction of business and Postmaster Vairo has received his instructions in the operation of the department. Dominick Valro, son of Postmaster Valro, will have direct charge of the postal savings business. No advices have been received so far as to the establishment of the free delivery system in Laurium, but as the inspector seemed to be favorably impressed on his recent visit here, there is little doubt that the petition by Laurium business men will be granted. It is hoped that the free delivery system may be established by August 1.

CONSTIPATION

MAY BE PERMANENTLY OVERCOME BY PROPER PERSONAL EFFORTS WITH THE ASSISTANCE OF THE ONE TRULY BENEFICIAL LAXATIVE—SYRUP OF FIGS AND ELIXIR OF SENNA, WHICH ENABLES ONE TO FORM REGULAR HABITS DAILY, SO THAT ASSISTANCE TO NATURE MAY BE GRADUALLY DISPENSED WITH WHEN NO LONGER NEEDED, AS THE BEST OF REMEDIES, WHEN REQUIRED, ARE TO ASSIST NATURE AND NOT TO SUPPLANT THE NATURAL FUNCTIONS, WHICH MUST DEPEND ULTIMATELY UPON PROPER NOURISHMENT, PROPER EFFORTS AND RIGHT LIVING GENERALLY. TO GET ITS BENEFICIAL EFFECTS, ALWAYS BUY THE GENUINE SYRUP OF FIGS AND ELIXIR OF SENNA MANUFACTURED BY THE CALIFORNIA FIG SYRUP CO. FOR SALE BY ALL LEADING DRUGGISTS ONE SIZE ONLY. PRICE 50¢ A BOTTLE

CIGAR FACTORY AFIRE.

The Laurium fire department was called upon late yesterday afternoon to extinguish a fire at the cigar factory conducted by Chris Kahn on Iroquois street. The origin of the blaze is a mystery, but it was put out before any great loss resulted. The building was uninsured.

HE SAW BANKER WALSH.

Deputy U. S. Marshal Wills at Fort Leavenworth. Among the duties of Deputy United States Marshal Joseph Wills of Laurium is that of taking prisoners who have been sentenced to the various federal prisons, where they are to serve out their time. Last week, Mr. Wills visited the prison at Fort Leavenworth, Kansas, where he accompanied a man sentenced to three years' imprisonment on "white slave" charges. Mr. Wills was privileged to see Banker Walsh, whose trial and conviction was the subject of considerable interest a short time ago. Mr. Wills states that the convicted banker appears to be little different from any of the other prisoners.

COUNCIL WILL MEET.

The regular monthly meeting of the Laurium council will be held on Friday evening, at which time the payroll will be squared up so that the employees of the village may celebrate the Fourth properly. No special business will be considered at this time, but it is likely that a special meeting will be held about the middle of July to receive the statement of the village finances, which is being prepared by C. W. McWane.

FIRST TIME IN 25 YEARS.

Joseph Huddleston of Rutte, Mont., is visiting in Calumet. Mr. Huddleston is a native of Calumet, this being his first visit here for 25 years. He is favorably impressed with the growth of Calumet since that time.

Laurium Briefs.

Samuel Maurice of Laurium has returned from Pittsburg. Mr. and Mrs. Richard Mitchell of Houghton were in Laurium yesterday. Fred Sagomiller has returned to Calumet from Minnesota, where he has been located. Meals will be served at the Laurium M. E. church both at noon and supper time all next week. Capt. Thomas Houston and Johnson Vivian have returned from a business trip to Chicago and Indianapolis. Richard Harvey of Chicago is spending a short time in Laurium, called here by the illness of his father. Dave Levesque of the First National bank of Laurium is superintending the harvesting of the crop of strawberries from the Levesque farm.

NEW INVENTIONS.

A contrivance for supporting limbs of trees that are either broken or sagging with their own weight or a heavy burden of fruit has been designed by a California man. Two iron hooks have slots at both ends and a hole at one end. One of the hooks is thrown over a sound upper limb, near the crotch, and the other is adjusted on the limb below that requires support. A piece of strong wire is then fastened to both hooks by means of the slots and perforations and pulled up till the sagging branch is in proper position. The wire is then twisted last and there is no danger of its yielding or breaking, as rope has been known to do.

Sea Drives Motor.

A new form of wave motor has been invented by a California man. Like practically all of these apparatuses it is designed to be operated by the movement of the tide. Two supports are erected near shore and near the top of each support a shaft is journaled with sprocket wheels at either end. Endless cables, with a deep sag to the lower portion, run over these wheels and a series of blades are spaced between the cables, like the blades of a paddle wheel or mill wheel. The movement of the tide drives the blades in whichever direction the tide is going and sets the wheels revolving, thereby generating power. The shaft on which the cables hang can be moved up or down on the supports, according to the height of the water, as the purpose of the apparatus would be defeated if both the upper and lower strands of the cables were acted on by the waves.

LEAGUE LEADERS TO MEET CALUMET TEAM SATURDAY

GOOD BASEBALL GAMES SCHEDULED IN COPPER COUNTRY. C. & H. Cricketers to Clash With Mohawk Team on Saturday.

There will be no scarcity of baseball games in the copper country during the next few days. On Saturday the Mohawk team, leaders of the Copper Country league will come to Calumet to meet the locals and on Monday Calumet will meet the Oak Leafs team of Chicago at the Athletic park. Two games have been scheduled for Tuesday, July 4th, when the locals will start up against the Mohawks and Hurontowns, the former in the morning and the latter in the afternoon. Only one game is scheduled for Sunday between Hancock and Hubbard and it is likely that this will be postponed as the Hancock and Oak Leafs will play on Sunday and on the Fourth. It is possible that an exhibition game will be arranged for Sunday.

PLAYER BUMPED AGAIN.

National Baseball Commission Rules Against Jack Pfeister. Once more the national commission of baseball leaders has set upon a case which voiced an appeal of a player for his rights, and once more the lowly player got it in the neck. The latest case to be decided against player and in favor of magnate was the Jack Pfeister claim for \$65 against the Chicago National league club management. Pfeister, who is now with the Louisville team, begged the commission to grant his claim for expenses paid by himself on a trip from the Chicago club's training camp to the Windy city. According to Pfeister, he made the trip to see a specialist, on the order of Manager Frank Chance, believing that his expenses were to be paid by the club. When he handed in his expense account, he met with a cold turnaround and then taking that "song in a thousand" chance, Pfeister Jack appealed to the national commission. True to its past reputation, the commission composed of big league managers met, had some wine and ruled against the player and undoubtedly they all had a good laugh over their verdict.

News Want Ads bring results.

History does not tell us whether the Pennsylvania woman who invented the window chair was a paragon of art or not. It is certain, however, that she had good nerves and supreme confidence in the stability of the device. The seat of the chair, which rests on the window sill, is kept from slipping out by cross pieces on the inside corners. The back has bars extending down, which rest against the wall below and support the whole affair, throwing the bulk of an angle which makes the chair of a reclining type. One practical use of this seat is by a person engaged in cleaning the windows, but it is understood that it should be used by other persons in apartments where there was not even a stoop on which one might sit to satisfy a longing to be out of doors. The seat is not recommended to children or heavyweights.

ID WOLGAST AND MORAN ARE BOTH WORKING HARD

MOST IMPORTANT RING BATTLE OF YEAR ON THE FOURTH. San Francisco Fans Looking Forward to Brilliant Contest.

San Francisco, Cal., June 29.—With only a few more days in which to prepare for their July Fourth battle, Ad Wolgast and Owen Moran have settled down to the hardest kind of work. Each boy realizes that he is about to engage in the most important ring engagement of his career and nothing is being left undone to insure the most perfect physical condition. Mysterious Billy Smith, has taken active charge of the Britisher's ring work, and will be one of his chief handlers when he enters the ring. Incidentally, Smith will endeavor to condition himself to take on some of the four-rounders in his class around San Francisco. Another shining light in the Moran camp is Anton Lagrave, Wolgast's opponent of several months ago. At the conclusion of yesterday's work Moran tipped the beam at 150 pounds, three pounds below the lightweight limit. Wolgast put in a hard day's work at the Seal Rock gymnasium. Wolgast announced his weight as 132 pounds. No betting market has yet been announced, but it is expected Wolgast will rule favorite at odds of 10 to 3 when the betting commences.

SWIMMING TANK POPULAR.

Calumet Boys Are Developing Proficiency at the Y. M. C. A. "Last one in knows what he is." Ker-plunk! Ker-plunk! "Aw—quit your shovin'—I'm doin' this here divin' now—" "I ain't shovin'—I'm ad dive if you're gon' to." And the season is on at the Y. M. C. A. The instructions which were given last week by Prof. Callis are being continued by Physical Director Sherwood and others this week and the sport is increasing in popularity. "Hey—you guy, look here—can you do this?" The questioner stood on his hands in the 2-foot water, and waved his feet a couple of seconds. Up he came spluttering and gasping. "Can you?" he asked. "Aw—that's nothin'—looky here." The second boy tried to swim under the water. Three strokes were enough for him, and he came up half strangled, but happy as if he had swum across the Calumet dam. "Looky—dere it is," one of them was saying trying to swim on his back. "That guy swims like an ice wagon. Here Jim be—see?" and another tried to swim on his back. Hundreds of boys visit the pool each week and its popularity promises to continue throughout the summer season.

CHANGING COACHING SYSTEM.

Professional Coaching May Be Done Away With. New Haven, Conn., June 29.—A change in coaching methods for the Yale baseball team is expected to be put in operation next spring. The losing of the last four games of the season, when Yale was looked upon as having one of the best teams in several years, made a disastrous ending that may possibly do away with professional coaching. The election of Third Baseman Richard Merritt was expected, and as there is good material coming from this year's freshman class, together with several players who were not put forward because they were underclassmen, a first class team can be shipped into shape for the 1912 season. Boston Red Sox have revived the story about a new park for next year.

CYCLISTS PLAN TOUR.

Ten of Best Riders in Game Would Go 'Round World. Newark, N. J., June 29.—Ten of the leading professional bicyclists in all the summer championship races here announced recently that they would unite in making a tour of the world at the conclusion of the six-day race in New York in December. The cyclists plan to represent the United States in the principal events abroad, including the six-day race in Berlin and similar races in Sydney and Melbourne, Australia, the first to be held on that continent. The party will include Floyd MacFarland, Jackie Clark, Iver Lawson, Joe Fogler, Eddie Root, Albert Goslett, Paddy Hehir, Elmer Collins, Jimmie Moran and Willie Penn. Cobb, Gainer, Crawford, Mullin, Delahanty, Drake, Willet and Covington of the Tigers are in the league's 300 list.
