**Indirect Lighting, or the Eye-Comfort System, is the place of all other methods of theatre lighting. This system consists of bowls, which, while completely hiding the globes, reflect the light to the ceiling, and then downwards. This method permits the theatre to be brightly illuminated while pictures are being shown.**

From the annual report submitted by Sheriff J. S. Meehan to the City Council, it appears that the city's law enforcement efforts have been effective. The report states that over 400 prisoners were housed in the city jail during the year, and that the city's constabulary has been effective in maintaining law and order.

**New Ulm's Ghost Will Not Down.**

For the third time within two years, the New Ulm Ghost has been reported, but this time it is by one who has seen it personally. Last week Rev. J. F. O'Connell and H. W. Muehl, who were in town on business, saw the ghost in all its fullness. It was in the form of a little old man, dressed in black, and carrying a bundle of sticks. It was said to be the spirit of an old man who had lived in New Ulm and had died some years ago.
