Olson's Naming of Causes Wide Resentment

A veritable storm of disapproval was voiced by colored Minnesotans Tuesday following the appearance of a new sign in the Minneapolis Star which told of the appointment by Governor Pastime P. O. Olsen of Daniel L. H. West to "represent the Negro race of Min-

nesota" at the Pacific Exposition at San Diego, California.

In view of a known record published in the Star and other papers, colored citizens felt that Governor Olsen had the entire group in Minnesota up to nation-

wide ridicule when he picked West to represent this state.

The appointment is a purely honorary one, carrying no salary or traveling expenses.

In a letter reproduced in the editorial section the publisher of this paper caustically took Gov-

ernor Olson to task for West's appointment.

Other citizens from all walks of life are loud in their denunciation of Governor Olson's action.
