SOME PROBLEM

A San Joaquin Valley editor, who was asked by his son to help him with some of the problems assigned as night work, says he can't see how his boy is going to learn anything when his teacher sends him home with problems like the following: "If it takes a four-months-old woodpecker with a rubber bill nine months and thirteen days to peck a hole through a cypress log that is big enough to make 117 shingles, and it takes 165 shingles to make a bundle worth 93 cents, how long will it take a cross-eyed grasshopper with a cork leg to kick all the seeds out of a dill pickle?"—Los Angeles Express.
