HUGHES DOING SOME MORE RAMMING

St. Louis, Sept. 2.—After receiving, last night at Kansas City, what was probably the most enthusiastic reception yet accorded him, the republican nominee for the presidency, Chas. E. Hughes, came to St. Louis reinvigorated and ready to ram home further assaults on the democratic administration.—Minneapolis Journal.

The Hinckley Enterprise was 25 years old last week and is now entering upon its 26th year of labor. It is a newsy sheet and is entitled to the patronage it receives. Brother Warren, the present editor, has been at the helm of the Enterprise ship the past 13 years.

If you are interested in securing more loading track on the railroad here in Askov be sure to attend the meeting at the hotel Monday which is called by the Railroad and Warehouse Commissioners. We all well know that more track is needed and that we are not asking for anything unreasonable, but let us show up and give evidence, that is what the Railroad and Warehouse Commissioners want. After they are gone it will be too late to complain. If you recently moved to Askov and had any trouble in getting to your car to unload same let us hear from you or if you ever wanted to ship a carload and were inconvenienced with delay on account of lack of space let us hear from you at the meeting Monday. Let us make it an enthusiastic meeting and get what we are after and rightfully deserve.

"AMERICA FIRST AND AMERICA EFFICIENT."

We come to state in a plain and direct manner our faith, our purpose and our pledge. This representative gathering is a happy augury. It means the strength of reunion. It means that the party of Lincoln is restored, alert, effective. It means the unity of a common perception of paramount national needs. It means that we are neither deceived nor numbed by abnormal conditions. We know that we are in a critical period, perhaps more critical than any period since the Civil War. We need a dominant sense of national unity; the exercise of our best constructive powers; the vigor and resourcefulness of a quickened America. We desire that the Republican Party as a great liberty party shall be the agency of national achievement, the organ of the effective expression of dominant Americanism. What do I mean by that? I mean America conscious of power, awake to obligation, erect in self-respect, prepared for every emergency, devoted to the ideals of peace, in-tinct with the spirit of human brotherhood, safeguarding both individual opportunity and the public interest, maintaining a well-ordered constitutional system adapted to local self-government without the sacrifice of essential national authority, appraising the necessity of stability, expert knowledge and thorough organization as the indispensable conditions of security and progress; a country loved by its citizens with a patriotic fervor permitting no division in their allegiance and no rivals in their affection—I mean America first and America efficient. It is in this spirit that I respond to your summons.—From Mr. Hughes' speech of acceptance.

SEASONABLE VEGETABLES.

CREAMED NEW POTATOES WITH PARSLEY.—Drop the potatoes into boiling water and cook until they can be pierced with a fine skewer. Do not use the tines of a fork, which would burst them. Neither should you expect them to be mealy, for in new potatoes the starch cells are not yet developed. Drain and arrange in a hot vegetable dish. To make the sauce, put two level tablespoonfuls of butter in a saucepan with one of flour. When melted and bubbly add a cupful of thin cream and stir constantly until it boils and thickens. Then add a level teaspoonful of salt, a dash of white or black pepper and a tablespoonful of chopped parsley.

Green Peas With Cream.—Shell two quarts of young peas and cook until done in a little slightly salted boiling water. When the water is nearly absorbed turn in one-half pint cream or rich milk, add a lump of butter and a dash of paprika and let simmer a minute or two; cut as many pieces of bread as will be required two and a half inches wide by four inches long and about one inch thick; scoop out the crumbs until the sides and bottom are only half an inch thick; brush all over inside and out with soft butter, brown delicately in the oven and fill with the hot creamed peas.

Stuffed Peppers.—Cut the tops from eight red or green peppers, remove seeds, cover with boiling water, leave standing five minutes. Fill with the following mixture, cover with buttered breadcrumbs, arrange in baking dish and bake one-half hour. Filling: Cook one cupful of rice or macaroni in chicken stock until tender, add one-fourth cupful onion finely chopped, two tablespoonfuls of red pepper finely chopped, two tablespoonfuls melted butter. Season with salt and pepper. In filling add more stock or hot water if necessary.

Stewed Mushrooms.—Peel and rinse the mushrooms and cut off the ends of the stalks. Stew them gently in water, stock or milk quite tender, adding pepper and salt to taste. Then thicken the gravy with a little flour and let it cook well, stirring carefully, adding cream.

Creamed Cauliflower.—Remove the leaves, cut off stalk, soak thirty minutes head down in cold water to cover. Cook (head up) twenty minutes, or until soft, in boiling salted water. Drain, separate flowerets and reheat in one and one-half cupfuls white sauce. White Sauce: Two tablespoonfuls butter, two tablespoonfuls flour, cupful milk, one-fourth teaspoonful salt, few grains pepper; cream butter and flour, stir into hot milk, thicken.

THE CAKE BOX.

MAHOGANY CAKE.—The yolks of two eggs, half a cupful of milk, two tablespoonfuls of cocoa. Mix together and cook in double boiler, stirring until thickened, and when cooled add a cupful of sugar, half a cupful of milk with a scant teaspoonful of soda, two tablespoonfuls of melted butter, a cupful and a half of flour, a teaspoonful of vanilla and bake.

Frosting For Mahogany Cake.—Beat till stiff the whites of two eggs. Boil a cupful and a half of sugar in half a cupful of water till it stiffens in cold water. Add to egg whites, flavor with vanilla and beat till cool enough to spread.

Layer Chocolate Cake.—Put a lump of butter the size of an egg in the dish and two tablespoonfuls of cocoa and fill in with the butter. Mix them together, stirring until it is all smooth. Add a cupful of sugar, a cupful of sweet milk, in which you have put a teaspoonful of soda, an egg yolk, a cupful and a half of flour, a level teaspoonful of cream of tartar sifted with the flour, a teaspoonful of vanilla and a little salt. To put it together, boil seven tablespoonfuls of sugar and four of water, and when it "hairs" beat the whites of the eggs and stir the strup in slowly. Let it cool and spread on cake.

Fairy Gingercake.—A cupful of molasses, half a cupful of sugar, a heaping tablespoonful of lard, an egg, a cupful of sour milk with a teaspoonful of soda stirred in until it begins to foam over the top of cup, a teaspoonful of ginger. About a pint of sifted flour, making a rather thin, light dough. It will be light like a sponge if not mixed too stiff.

PLATFORM

I BELIEVE:

That our constitution means just what it says, and that it was written "in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity," and that these principles are all inclusive and should be made effective.

In the fundamental principles of the Republican party.

In a liberal interpretation of the constitution in behalf of the protection and welfare of the people.

In a strong and centralized National Government that more of our laws should be national, as a means to secure adequate justice to all classes.

In the making of necessary internal improvements, and that these should not be accomplished by our present "pork barrel" methods which deserve severe condemnation.

In the conservation and development of our Natural Resources, and this for the benefit of the people and not for the monopolistic interests.

That we must protect, foster and encourage agricultural interests as the basis of our national prosperity.

In encouraging and fully protecting by national legislation the increasing dairy interests of our country.

In securing a national soil survey, which would expedite the settlement and culture of vacant lands and increase the productivity of lands now under cultivation.

In legislation for good roads, aiding farmers in getting products cheaply and quickly to market, and for the convenience of all people.

In extending and perfecting our Rural Free Delivery Mail service to the fullest convenience of agricultural people.

In increasing the efficiency of our parcel post service for the benefit of the producer and the consumer.

In a Rural Credit System, securing to the farmer and the city home builder a low rate of interest on long time loans.

In securing and insuring social and economic justice to all classes, emphasizing the dignity of labor, and securing the adequate remuneration.

That child labor is a social injustice and an economic evil and should be prohibited by National Legislation.

In fostering a Merchant Marine by adequate navigation laws, that by increasing and controlling ocean freight, our foreign trade would be increased, and freight rates, especially upon export farm products, would be reduced, all to the special advantage of agricultural interests.

In strengthening and more rigidly enforcing our anti-trust laws, that all classes and lines of business may receive the fullest protection.

In a protective tariff, to protect American labor against the cheap and underpaid labor of European and Asiatic countries. That the amount of duty should be largely determined upon the difference in the cost of labor or production at home and abroad. That there should be the smallest possible duty on necessities, if any at all, and a high duty upon all luxuries. That the best and most equitable results can only be obtained by a permanent non-partisan tariff commission.

In the protection of American citizenship the world over, for in this way only can we redeem and maintain our self respect and the respect of other nations.

In real preparedness as a guarantee of the peace of justice which means industrial as well as military preparedness.

That our standing army should be increased commensurably with our need of national defense, but not for aggressive militarism.

In the increased efficiency of our navy. As far as I have knowledge, I judge our navy inadequate in ships and in men for defense.

That preparation for defense can best be determined and accomplished by a non-partisan expert National Defense Council to consider all questions, social, industrial and economic, in shaping our military preparedness for defense and the preservation of peace.

In real, undiluted Americanism. That our country must be a "melting pot" of American Citizenship. That love of country and self-sacrificing patriotism are the safe guards of our national existence, and that all nationalities, creeds and social differences must become one in our Americanism.
