You can save money, because we are selling thirty per cent cheaper than any other house in the city.
You can save time, because in one assortment is to be for nd every article necessary to the gentleman's wardrobe, and you may be sure of being suited, without running round to the small clothing stores in town, who have not half the amount of goods to be found in this house.
Labor can be saved, because our goods are all made equal to the best costume work, and warranted.
Listen not to the idle tales of small shopkcepers who calumniate to induce you to buy of them. Read our list of prices:

NO LESS THAN 5000 GARMENTS
On hand for examination, and for beauty of material and unsurpassed workmanship, not to be excelled in any city in the Union.

Large sales and small profits, and we study to please—shall at all times be our motto, and to study the interest of our friends together with our own shall be our utmost endeavor. Country storekeepers would do well to examine our stock before going below, as we are satisfied that they can save both time and money.

Strangers visiting our city would do well to examine our spring and summer stock, as we have all the latest styles, having been in the East during the whole winter, having it manufactured under my own superintendence, and every

having been in the East during the whole winter, having it manufactured under my own superintendence, and every garment manufactured equal to the best custom work. Our system of selling for cash at New York prices, has thus far worked admirably, and our patrons have all acknowledged their satisfaction. Having been engaged in the trade for ten years it is to be presumed we understand our business, and being connected with an eastern house, we are enabled to get our goods for much less than those who buy but small quantities and have little or no capital. Great Bargains in Town Lots in Lower Saint Paul. er Saint Paul.

400 Lotts one mile below the present Lower landing, have just been laid out, and are offered for sale at one hundred dollars each. Such an opportunity to invest on speculation, has rarely offered. These lots are nearly opposite Pig's Eye Bar, which has for the last two seasons obstructed, in some degree, navigation to the present landing. And it is not too much to say, that it is the point, where the main slipping business of this growing city of the West, must ultimately be done. It only needs the erection of a few warchouses for a beginning, and at once, the presperity of the city will point in that direction. And it is to give it that beginning, that this inducement is held ou to capitalism.
