THIS Company has now established itself on such a firm basis, that it can offer to those desiring an investment on their lives, that greatest of all desideratums in life insurance, viz: full and perfect security. Its his tory is almost, if not quite, without a parallel. Commencing 1st February, 1943, (10 years ago.) without a least of Capital promits according for premiums, it has now an actual cash capital which is "invested in such and Mortgages on Real Estate principal state of the second state of and Mortgages on Real Estate, principally in the cities of New York and Brooklyn, worth double the amount loaned thereon, of over \$2,000,000. Its receipts for premiums during the past five years have been nearly \$2,200,000, and for interest on investment over \$350,000, and has paid on policies terminated by death during the same time, nearly \$800,000. Its dividends (after reserving a fund sufficient to re-insure all out-standing policies) were 52 percent the first five years, and 33 1-3 per cent. the last five, on the amount of premiums paid, being an average of over 42 1-2 per cent per annum for ten years. These dividends are added to the policy at their reversionary value, payable at death with the amount insured, or can be applied to the reduction of future premiums, at the option of the insured.
