We are not sufficiently familiar with the country which it is proposed to supply with this new mode of transport, to express any opinion as to the feasibility of the project. A gentleman who has made the subject one of special study, and who, it is only just to add, is interested in the scheme, hands us the following memoranda concerning it:

There are vast regions of our country, especially among our newly acquired possessions, where the peculiarities of the camel give it the advantage over all other animals. Patient, docile and strong—its great strength enabling it to carry burdens varying from five to fifteen hundred pounds, at the rate of from 25 to 40 miles a day, and for many successive days—it finds food and sustenance in the stunted vegetation from which the horse, the mule, and the ox turn with repugnance. It has the power of abstaining from water for nve, six and seven days at a time, and the own line alone, in the Standard where for the continuous strength of the Standard water for the standard in the Standard water for the standard and this quality alone, in the Southwest, where frequently nothing but the salines or salt pools are to be met with over a distance of from 50 to 60 miles, and which no animal but the Camel will drink, seems to mark it as the animal destined by nature for just suc regions. It braves all weathers, and is equally serviceable in all climes. It is long lived, not easily susceptible to disease, and spends its last breath in the service of its master. Some varieties are so fleet that they will perform journeys of from 100 to 200 miles a day, and by the use of these the outrages of our border Indians would speedily and effectually be stopped. The reports of the different exploring particles at first and afformatic force. ties throughout the regions lying between the Mississippi and the Pacific Ocean, demonstrate the need of some other means of transportation than those now in use, and the peculiar fitness of the camel for that Mr Bartlett the late Commissioner for running the

boundary line between Texas and New Mexico, and the adjoining States of the Mexican Territory, strongly urges the introduction of the Camel.

The results of the British armies in India, and of

the French in Algiers, establish its value for all military purposes, while the experience of all past ages, from the Patriarchal era down, reveals the important from the Patriarchal era down, reveals the important part performed by this most useful of animals in the extension of commerce throughout the vast portions of the older continent. The route across Texas from the Gulf of Mexico to the Pacific corresponds precisely in climate and soil with portions of Africa, where the camel is the universal beast of burden and of

In view of these advantages and of others which might easily be added, it seems altogether desirable therefore, that the project of introducing them into this country may meet with favor, and we can hardly doubt that if liberally and inielligently undertaken, the enterprise will confer both fame and fortune upon its projectors and friends.

## Awful Situation.

A Paris correspondent of the New York Times. writing from Paris under date of the 1st inst., relates the following terrific incident :

A terrific drama is at this moment in progress the vicinity of Lyons. Without exaggerating, I may say that the country is absorbed in the contemplation of one of the most terrible instances of human suffering in the long annals of accident. Two men engaged in boring a well were overwhelmed by the caving in of earth and stones. One was killed, and the other was tightly shut up unharmed, with the corpse. This was ut the depth of fifty feet. Two days passed before a knowledge of his situation was ned. It was then seen that it was impossible to rescue the survivor by the removal of the earth above him. The slightest derangement would destroy the equilibrium into which chance had thrown the super-incumbent mass, and how forms the supernumbert mass, and bury forever the autortunate such liquids as physicians, summoned from Lyons, would allow him to take, The work of deliverance then commenced, and has been going forward the far in vain, for fourteen days and four shatts have been sunk, starting at a distance and arriving under the spot where he is imprisoned. These were to have been completed day before yesterday evening, and the rescue is then to be effected .-Strange to say, the prisoner, though he cannot move sleeps at night. The corpse of his fellow labore presses upon him and decomposition is far advanced and yet he does not complain of the borrible neigh-borhood. His mind would seem to be somewhat shaken by his long confinement, for he will only speak to one person—the captain of the corps of engineers working at his release. The road which passes the the calamity, has been closed to all vehicles as it is feared that the rumble of heavy wheels migh bring down upon him the trail laced interstructure of rocks above him. The Empress has directed the chamberlain of the palace to keep her informed from day to day of the progress of the rescue, and has or-

MARGARET FULLER somewhere gives expression to the following happy and beautiful thought:

"It is a marvel whence this beautiful flower (the white water lily) derives its loveliness and perfo springing as it does from the black mud over which the river sleeps, and where lurks the slimy eel and speckled frog, and the mud turtle, whom continual washing cannot cleanse. It is the very same black mud, out of which the vellow lily sucks its obscene life and noisome odor. Thus we see, too, in the world, that some persons assimilate only what is ugly and evil from the same moral circumstances which same moral circum supply good and beautiful results—the fragrance of celestial flowers—to the daily life of others."

After the 1st of July it will not be lawful to erect an area, and with a separate well built cesspool.

A town meeting in Wareham recently took action upon the dog question, and according to the town records, it was voted, "That all persons within the town, owning dogs, shall be muzzled !"

The ship W. H. Harbeck, Capt. Marshall, bound to Mobile, while at anchor at the S. W. Spit, took fire in the forward part of the hold yesterday morning about 8 o'clock, and is a total loss. She had on board 700 bales of hay.

TO CORRESPONDENTS .- Anonymous com will receive no attention. All articles professing to state facts, must be accompanied by the Author's name, not for publication, but as a guarantee of the truth of the statements made. Voluntary Correspondence, containing important news, or statistics of the condition and growth of towns and settlements throughout the Northwest, is solicited.

### NOTICE TO BUSINESS MEN.

ALL persons having accounts against THE PIONEER OFFICE, dating since the First of May, 1853, are requested to present them at our Counting-Room FORTHWITH.

### News Items.

In Norristown, Pa., a woman named Maria Daley killed her infant child by cutting its head off. The head was severed nearly at the base of the carnium and at the top of the vertebaic column, and in order to perform the deed, she stole the victim from people who had taken it for a charitable purpose.

The Shelwyagan Journal recommends Hon. WM. MARCY as the next democratic candidate for

JOHN DRAKE, a boy of 16 years, in the employ of a mail contractor between Elkhorn and Geneva, Walworth Co., Wis., was arrested on Tuesday, at the instigation of the Postmaster at Elkhorn, charged with robbing the mail of letters and money. He was taken to Milwaukee by Down, sensual Catman and lodged in jail. Yesterday he was brought before Commissioner Smith, and admitted the truth of the complaint. Mr. OATMAN produced in court various letters and way bills, which had been abstracted from from one of which he says he took \$15. He was remanded to jail by the commissioner, and we learn that the bail is fixed at \$2000. He was unable to bail to the amount, and was thereupon remanded to prison to await trial on the charge.

In Charleston, S. C., the Courier reports Mr. FILLMORE as saying "I believe in the expansive growth of our republic, and am thoroughly persuaded that she is destined to cover the whole American continent with her starry banner and her free institu-

## The Crow Wing Agency.

The recent destruction of the Chippewa Agency at Crow Wing, by fire, is to be made the subject of prompt and thorough investigation. The agent, Major MURPHY, being detained below by illness, Governor GORMAN intends proceeding at once to the locality, for the purpose of directing the inquiries necessary to fasten the outrage upon its perpetrators.-We understand that Hole-in-the-Day, the Chippewa Chief, has been arrested, and that officers are in pursuit of an Indian who, it is alleged, set the agency on fire at his instigation. It is time some prompt action was taken in the premises, and we are glad the Governor is to give the subject his personal attention. This agency has been destroyed three times within the past two years, and the government has suffered a loss, in consequence, of not less than

### Matrimony,

Man was undoubtedly created to be married -St. Paul to the contrary notwithstanding. It is true that responsibilities increase under this species of conjugation—that new expenses are incurred, and that "family jars" are at once fearfully unpleasant; but, after all, these objections are overbalanced by sympathy, companionship and love. The law of nature requires the "increase," and everything pluralizes from an elephant down. It is pleasant to sit at your "festive board," and see it gradually becoming a "multiplication table." And whom you are cutted upon to start off in the "last train" of earth, is it not better to have the adieux of an affectionate family, than to see nobody, when the last "whistle" is blown. point of the Northwest,—and says: save a grim old doctor, or some toothless hag in the capacity of "nurse." at the rate of a dollar a day and found?

Lansing, Iowa.

The Lansing Intelligencer, of the 24th May, states that a census of that flourishing village has just been taken, with the following result: whole population, 440; of which 241 are makes and 100 females. The states are large and 100 females are large and 100 females. The states are large and 100 females are large and 100 females. The states are large and 100 females are large and 100 females. The states are large and 100 females are large and 100 females are large and 100 females. The states are large and 100 females are large and 100 females are large and 100 females. The states are large and 100 females are large and 1 whole population, 440; of which 241 are males, and 199 females. The voters number males, and 199 females. The voters number grazing lands and fertile soil. Judge of my surprise upon reaching the substantial and capacious edifice intended for a market, to find that no market really Lansing has been marvelously rapid. At the taking of the last census, in 1850, there was no Lansing beyond a log cabin. Indeed, until the summer of 1851, it remained so, and only Idual named Wm. Vondenbell, about daylight yes- then were the substantial improvements commenced which now show the stranger where fronting on Levee street, in the Second District, he Lansing is. The Intelligencer very properly indulges in exultations over the results of the late census, exhibiting, as it does, so marked covered to be no easy matter, for the maniac had ta- an improvement, both in business and popula-

## Nonsense.

THOMAS HART BENTON and the newly appointed Postmaster at St. Louis, are running crowned with a "fool's cap." As the matter ly, from pure exhaustion, he desisted, and the officers now stands, it is hard to decide which of the succeeded in capturing and lowering him from his two is ahead. An enemy of Benton was appointed Postmaster against his protest. Thereupon Benton determines not to use the Post Office at St. Louis as a medium for reto employ Adams & Co's Express. Mr. Postmaster gets his spunk up in turn, and issues of Liberty. Creeping up the sides and along the aisles, the fires even now crackle and we hear the receive in, or send from the Post Office any of the bills of the Bank of the State of Missouri which have engraven on the face of them the likeness of Thomas H. Benton. To this exceedingly puerile controversy, we can apply no terms so appropriate, as those used by Mr. the 5th inst., for the murder of his wife, made no BENTON himself on a late occasion in the House, with reference to another subject : "It should be received everywhere as nonsense, as the essence of nonsense, as the quintessence of nonsence, as the five-times distilled essence of enough to man the bars of Justice-let it be brought to political nonsentiality."

# Death of Thomas Richie.

By a telegraphic despatch to Galena, we earn of the death of Thomas Richie,-at the time of his death the oldest editor of prominence in the Union. His editorial service must have extended over near a half century-something more than forty years in connection with 21st, says that orders have been sent by the the Richmond Inquirer, and later, with the Secretary of the Navy, to delay all vessels of Washington Union, which he projected. A politician of great boldness and tact, a writer readiness for immediate service. This precauof rare fluency, dignity, and strength, he united tion had been taken in view of our present with these an energy so indomitable, that his writings when a septuagenarian, were penetrated with all the fire and vigor of an earlier morning, they awoke and found the place had been manhood. Without ever holding office, he acrobbed while they slept. Some suppose the robbers quired a political reputation which, in respect of fairness and consequence, will survive that connected with the names of some who have a dozen or more enterprising capitalits propose to occupied the highest official positions under the

# An Apt Quotation.

GRAY, of the Cleveland Plain Dealer, frequently says a good thing-never a bad one .-The aptness of the quotation following will more than compensate for the immodesty of its captors informed the people that he was insane, insertion in our paper:

which seemed not unlikely from his manner .-"A DAILY AT ST. PAUL .- EARLE S. GOOD-A habeas corpus had been applied for. RICH & Co., have come out with a spicy new Daily, at St. Paul, the Capitol of Minnesota. (State that is soon to be.) It is entitled the Daily Pioneer, and is alive with news. Good luck to you EARLE-'By St. Paul the work goes bravely on."

We received yesterday some of the first numpers of a daily journal just commenced at Buffalo. We can hardly judge of its politics from the numbers received, but assume it to be whig, independent of the Seward and Fillmore divisions. It is conducted with ability, and we notice among its editors the name of George W. HASKINS, an old friend, and a writer who would
