A young lady at Alton, Illinois, gives the following as her sentiments on kissing:

Having seen a great deal about kissing in the Telegraph and Courier, I deem that seemingly important subject of as much consequence to us as to the opposite sex. Now, in my humble opinion, I think you have said quite enough and it is high time for some body else to talk. You don't like this way nor the other way.—Suppose you give it up

entirely, Speaking of proposed kisses, they are not liked at all. I have made it my buisness to have had been at all. inquire among my numerous friends, and they agree with me that a stolen kiss is the most agreeable to them-that is, considering who steals it; for they certainly are not all the most delightful. If you had a mirrror to reflect your own image during the operation, I think you would never find fault again.

when such disgusting bipeds approach, it is \$17 50@\$18 P bbl. Hams, 11c. P lb. Lard, 121/c. Flour Talk of shyness and struggling; no wonder! miraculous that ladies do not fall into conperience, but from what I have heard others & dozen. say. I myself have not been kissed more than two or three times; but as I am quite young, I expect to receive many more. One of these was administered in first rate style-a kiss to perfection.

A clean mouth and hansome teeth are indispensable, and they are seldom to be found. There is but one gentleman in Alton, to my knowledge, that possesses these valuables.-Now let your curiosity ransack your memory Vinegar, 25c. & gallon. Tallow, 13c. & 1b. Tobacco, to discover who the favored one is. Most of 10c. @50c. Hides (green) 31/2c.; dry, 9c. 7 lb. you would contaminate the cheek or brow of the lady (her lips you have nothing to do with) with the odious incense of champagne, tobacco, or seeds, which are worse than all, even though they conceal the perfume of the first two mentioned; for that is cirtaninly what they are eaten for. I suppose gentlemen think we are entirely innocent of their use. but we all know very well.

The very idea of one who professes to be an elegant gentleman, to appear in the presence of ladies with his pocket well stored Lard, ? brl, 9@91/2. with these abominable seeds, and at every sly opportunity abundantly supplying the mouth, is absurd .-- For the future, if you wish to kiss a lady without her blushing and struggling, dispense with these disagreeable articles, and I'll guarantee you will have no unnecessary trouble.

Monument of Siias Wright.

Thne editor of the Syra use Standard writes for his paper from Middlebury, Ver- \$1 60@\$1 75. mont, as follows:

Three miles from here, in Weybridge, stands the monument of Silas Wright. It is \$8 00@\$9 00. situated in the centre of a little hamlet, at at the forks of the public highway. monument is a plain square shaft of Vermont marble, thirty feet in height, standing on a granite base. At a proper height is a likeness of Mr. Wright, in base relief, cut out of pure white marble. Under this are the words "Silas Wright," cut in heavy block

The shaft is elevated upon a mound sixty \$1 99@\$2 00; white, pure, 7 keg, \$2 75@00; No. 1, or eighty feet in diameter, which is enclosed by a plain, substantial iron railing. The gate is left open for the free egress of the public. It will be remembered that Mr. Wright was brought to Weybridge when a child. It was here that he spent his youth, and gave promise of that distinguished and honorable future which lay before him. The farm on which his father settled, lies about one mile from the monument, on the Midlebury road. The house is now a ruin—there being nothing left of it except a portion of lecting. the timbers, which are rapidly going to decay; soon there will be nothing to mark the spot but a clump of apple trees standing able in New York or elsewhere as instructed. by the road side.

EAGLE CITY.

EAGLE CITY.

OTS in this valuable town are now ready for sale, at prices which cannot fail to be profitable, either for investment or permanent location.

The proprietors of the above have expended both time and money in exploring the whole of the country in the immediate line of the St. Paul and Lake Superior Road, and such and such pure water, and rich soil, are well satisfied it capute be surpassed by any other portion of the Ferritory. It is in the heart of a country well watered, and abounds with innumerable groves of heavy timber, principally of the hard-wood kind. Evidence now exist of several large sugar camps, which have until very recently been worked; natural grasses abound in very direction, and Tamara sufficient for farming nurposes, that will supply the demand for years to come. In addition to the above natural advantages for agricultural purposes, that must be admitted that 4 town about that distance (16 miles) from St. Paui, must inevitably spring up as a necessary adjunct to the proposed Rairead; and here is the spot, necessary and capable of supplying the wants of all that may be required, either in a commercial or agricultural point of view. Wood and water, a most necessary concomittant to a locamotive engine, are there in abundance, and being only a few miles distant from Sillwater, the great lumber mart, contributes greatly to facilitate the operation of building which the davantages of this location is evidently bound to call for. The proprietors wish not to be mislenably such significant phrases: that they are not induced by mercenary motives in locating this town," it is to make money that they have embarked in this enterprise, but this they do say, they will sell on such reconsable terms as will make it a matter of interest and profit to those who may wish to join in the Jaudable object of helping to build up this promising town. The original proprietors have a fact that they have embarked in this enterprise, but this they do say, they will sell on such reconsable terms as will make it

BY THE ROCK ISLAND AND CHICAGO RAILROAD.

THIS connection affects the only continuous route by steam to the Atlantic from St. Paul. By this route passengers will escape the unpleasant stage travet from Galena to Warren.

Arrangements have been made to ticket passengers to Chicago and the east by the Galena and Minnesota Packet company, and the St. Louis & Galena Packet to Rock Island, forming a connection with the cars.

Two daily express trains between Rock Island and Chicago, connecting at Chicago with cars for the east and south.

READING BOOKS!

SANLERS' NEW SERIES. AVE you seen them? They are admirable books.— All the teachers who have examined and used them attest warmly their singular fitness for the purposes of the school roop.

school room.

They are, in fact, the carefully considered results of the most ample experience in teaching, and are accordingly adapted admirably in every way to the wants and powers. of the learner.

Here in the onset are no "dull arguments long draw mere in the onset are no "dull arguments long drawn out," to prove that "the picture of a cat is not a cat," that "the picture of a horse is not a horse," that "the picture of a cow is not a cow," and other information equally valuable and appropriate, in a school book for a child.

On the contrary, the child is assumed to have con on the contrary, the chira is assumed to have common cases, and to need instructions in what is useful and suit ed to his years. He is not therefore puzzled on the star with long words acid abstract definitions, and wearied out with reading, or attempting to read, what is without benefit, because above his capacity, and without interest, because above his capacity, and without interest, be

ent, because above his capacity, and without interest, because insufferably dull.

In Sanders' New Reading Books, every step in the process till the very last, is plainly preparatory to the next. The pupil is pleasantly and profitably conducted through lessons consisting of one, two, three, or more syllables; in regular succession, all containing matter full of interest, moral and instructive, yet highly entertaining; and besides so arranged as while merely teaching him to real to imbue his mind with the most wholesome thought, and develope and strengthen his mental powers.

Teachers, examine them, and judge for yourselves.

The teachers throughout the Territory can have a set of the above books for examination, by calling on W. S. Combs, near the American House, who is the only authorized agent for Minnesota.
