with Liverpool dates to the 5th. The news gencontinued its sittings at Paris, considering the miner details of the treaty. It had one or two informal meetings to settle up delays, and was not expected to get through its labors for a month or two. Peace had been proclaimed at St.

Petersburgh, and was favorably received.

A vessel which left St. Johns, N. B., on the 14th of February, had arrived at Liverpool, and re-ports that, in coming off the New Foundland coast she fell in with ice 200 miles distant from land, and saw the lights of a steamer in the ice.

France.—Paris had been illuminated in honor f peace, and it was more general than the first onstration. The Orleanists and Legitimists participated in it.

MACHINERY .- We are glad to see our Chicago merchants, making the acquaintance of our merchants, mechanics and farmers in the West. It shows a disposition of doing what is fair, and of offering as reasonable terms as either St. Louis or New York. To-day our readers will notice the eard of Fulton, Perkins & Co, Machinists and Millwrights, Chicago, announcing their great variety of machinery and mill, &c., and also informing the public that they are the only authorized firm in Chicago to manufacture Page's Portable Circular Saw Mills. I commanded him to surrender, whereupon he set upon me heaped me with insult and contumely, calling me a regamussin, an ass, and a precious dolt, and a scarcerow-all of which I certify to be true.

GEN. HOUSTON'S RANCHE. - A correspondent of the Urbana Citizen, traveling in Texas, says: "This afternoon we passed the farm and residence of General Sam. Houston. His house is rather a primitive affair, being a one story double-hewed, low cabin, with an entry between, a rough stone chimney at each end, a porch in front surrounded by live oaks, negro cabins and sheds, and the whole enclosed by a crooked rail fence, showing a lack of order in the original proprietor. His farm is partly in the town of Independence, a little delapidated, one-horse place, with some of its houses tumbling down and the rest looking as if they had always been

A boy was then lowered by a rope, and biddy was rescued from imprisonment in her dungeon, where for so long a time she had been without food and water.

DESTRUCTIVE FIRE AT NASHVILLE, TENN.-LOSS \$200,000—Gallatin, April 13.—On this (Saturday) morning the most destructive fire that ever happened in Nashville occurred. The Court House, Nashville Inn, H. & B. Douglass', Secviil's, and Strickland & Ellis' houses were total-ly destroyed, besides several other buildings being greatly injured. The loss is estimated at two hundred thou and dollars, upon which there is an insurance of one hundred thou-

PATRIOTISM IN THE DARK .-- The Savannah News of the 17th inst. says that at Parodi's farewell cone rt in Augusta, a few nights before, while Parodi and M'me Strakosh were singing "The Star Spangled Banner," the gas went out, leaving the company in darkness. Enchanted with the music, the audience remained still to the end, when the song was rapturously encored, and 'the ladies repeated the last two stanzas by the light of a candle held from the side of the scenes.

Great men never swell. It is only threecent individuals who are salaried at the rate of two hundred a year and live on potatoes and dried herring, who put on airs and flashy waist-coats, swell, puff and blow-and endeavor to give themselves a cansequential appearance. No dis-criminating person need mistake the spurious for the genuine article. The difference between the two is as great as that between a barrel of vinegar and a bottle of pure juice of the grape.

A man with a moderate appetite dined at hotel, and after eating the whole of a pig, was asked if he would have some pudding. He said he didn't care much about pudding; but if they had another little hog he'd thank them for it.

A wag reading the recent accounts of sea serpents, said they reminded him of a captain of a ship who stoutly asserted that a mermaid came on board his vessel one Sunday morning when off the coast of _____, and politely asked him to re-move the anchor which had been dropped against his cabin door, and thereby preventing his wife and family from going to church.

SUDDEN RECOVERY OF HEALTH .- Some of the Sunday papers say that Graham (the St. Nicholas homicide) was carried from the State Prison on a litter, and all have represented him as being in very poor health. A gentleman of Brooklyn saw him leave the prison on Saturday, accompanied by two ladies, and was apparently in excellent health and spirits.-N. Y. Times.

Loss BY FIRE IN MARCH.-During the month of March the Boston Fire Department was called out nineteen times, besides which nine fires were extinguished without any general alarm. The loss during the month including the fire in Commerce street, will probably reach \$75,000.

all-Im] Receiving and Shipping Agent for St. Paulwhen following a rich sheet of mineral, broke into a new cave, on new ground, and entirely un-connected with the old diggings; the sides and top of the cave were ornamented with solid cogs of mineral, but it contained even a greater curiosity, a lock of hair, some two or long of a greyish color, perhaps made so by ex-posure and tapered off at each end. The hair was a little frizzled and might have belonged to a human being or might have been a portion of the fur of some animal; but how it got into an insolated cave, in the solid rock, some seventy or eighty feet below the surface of the ground is

the mystery .- Shullsburg Mirror. The Fayetteville, (N. C.) Observer reports the conclusion of an interesting trial in that county. It was an action for libel and conspiracy, in which the plaintiff, Enoch Cobb, a baptist minister, claimed \$75,000 damages from 96 of the most respectable citizens of Wayne, Duplin and Lenoir counties, for an alleged combination to drive Cobb out of Doplin—they alleging as a reason that he had incited slaves to houseburning, causing very serious and alarming destruction of property. After some deliberation the jury returned a verdict against ten of the defendents for \$100, that is \$10 each. There was no evidence to convict the defendents on the count for conspiracy.

BOYS SHOULD LEARN A TRADE .- St. Paul was D. COOPER. a mechanic-a maker of tents. He was not only a thorough workman but a thorough scholar, a master not only of his native Hebrew, but of other languages. It was the custom among the Jews to have their sons taught some trade, a cus-tom not confined to the poorer classes, but also practised by the wealthy. The custom was a wise one, and it were well if the fathers of the present day would train all their children to some useful emplyment, by which, in case their means of support from other sources should fail they may get a comfortable livelihood.

The Tribune says that in New York March came in like a lion, and went out like two lions and a small tiger."

A WORD OF ADVICE.—There are few people in the country who do not find it necessary, occasionally, to stimulate haute by the use of pills or some kind of purgative. And as it is impossible to tell the exact amount of stimulant the bowels require, and the exact force of the dose taken, an over-dose i almost always the result. As soon as the required effect is produced, the system should be brought back to its natural condition, and if you have in your house a bottle of Gallup's Syru of Brier Root, you have in your house a bottle of Gallup's Syru of Brier Root, you have the best medicine in the world for the purpose; besides having a cordial and specific for derangement of the bowels, that is unrivalled. No family should be without it.

Messes. Downs & Co.: Gents.—In reply to your inquiries respecting the Bengole Gas Machire, which we purchased of you, I am happy to say, that it has not only mily not, but very much excee ed, my expectations. The Weaving Room, where it is placed, has heretofore been lighted with 230 Oil Lamp, prequiring the attention of one man most of the time, to keep them; in proper order. By using this Machine, we have had a more brilliant and beautiful light, and entirely free from sincke.

Of course I cannot have helphly pleased with the Machine, and with the change, and while I congratuate you on your instrumentality in the introduction of this arrangement, which is estimed to contribute in my judement so much to the comfort and convenience of all classes; I would particularly commend it to all Manufacturers every where, as being not only the best but the cheapest and most economical method of supplying their establishments with light.

C. W. COOK.

Superintendent of Waterloo Woolen Milk.

Messrs, Downs & Co.: Gents—Having learned that you are engaged in the manufacture of the Benzole Gas Machires, I write to apprise you of my experience. In my store for nearly a year, and in my dwelling since the first of January last, I have been using two or these Machines, to the great confort and convenience of my family, and to my to the great confort and convenience of my family, and to my entire satisfaction.

We are indeed most agreeably disappointed, as our expectations have been exceeded by the gratification from the use of it and while the cost, to my surprise, ha been less than that of Oil or Camphene; the attention in its management has been much less also than was required in the use of these Lamps.

We could not be induced to go back to these again, and we regard the time us at hand when their use will be supplainted by the cheaner and more be untrul light transit.
