INVESTITURE OF MONSIGNOR GUILLOT

Prelude: The investiture ceremony was held on April 12, 1913, in St. Paul, Minnesota.

The Most Reverend Archbishop F. J. Gillot, C.S.C., deacon, and the Sentry of the Archdiocese of St. Paul, was present. The ceremony was held in the Cathedral Basilica of St. Paul, and was attended by the clergy, laity, and religious of the Archdiocese.

As the archbishop entered the Cathedral, the congregation stood to give him a rousing welcome. The archbishop was greeted with a loud cheer and a rousing welcome. The archbishop was then introduced to the congregation, and the ceremony began.

The ceremony was led by the Most Reverend Archbishop F. J. Gillot, C.S.C., who blessed the archbishop with the coveted insignia of his new dignity. The archbishop then addressed the congregation, thanking them for their support and dedication.

The ceremony concluded with a prayer and the archbishop being led out to the sound of the congregation's applause.

The event was recorded in the Catholic Bulletin, which published an article about the ceremony on April 17, 1913.

CATHERAL LATMEN'S RETREAT

New Orleans Cathedral

HISTORIC CHURCH CONDEMNED AS DANGEROUS BY ARCHITECTS — RESOURCES NEAR $100,000 TO RESTORE IT.

Two years ago the Most Reverend Archbishop John H. Vigneron, C.S.C., of Detroit, Michigan, announced the need for funds to restore the historic Cathedral of St. Louis, which was destroyed by fire in 1910.

The cathedral was founded in 1830 and has served as the spiritual center of the Archdiocese of St. Louis for more than a century.

The historic cathedral was destroyed by fire in 1910. The fire started in the basement and quickly spread to the main body of the church, causing extensive damage.

The cathedral was later rebuilt and dedicated in 1927.

The cathedral is now scheduled for demolition due to structural concerns.

In an effort to prevent the demolition of the historic cathedral, a group of architects and engineers have conducted a thorough study of the building's structural integrity.

The study has revealed that the cathedral is at risk of collapse due to cracks and other structural issues.

The group of architects and engineers has estimated that it will cost approximately $100,000 to repair the cathedral and bring it back to its former glory.

The group has also recommended that the cathedral be listed on the National Register of Historic Places in order to prevent its demolition.

The group has met with local officials and has expressed their concern for the preservation of the historic cathedral.

The architect responsible for the cathedral's renovation has responded positively to the group's recommendations.

In conclusion, the group of architects and engineers has emphasized the importance of preserving the historic cathedral as a symbol of the Archdiocese of St. Louis and the city of St. Louis.

The group has expressed its commitment to working with local officials to ensure the preservation of the historic cathedral.

The group has requested the support of the community in order to ensure the preservation of the historic cathedral.
