A Piano of Perfect Tone

Is the Only Kind to Buy

TONAL Quality. It's a thing upon which you cannot compromise. Purity of tone must be there.

A piano that measures up to the highest musical standards can be sold only on a quality basis.

The A. B. Chase Piano

is such an instrument. Its exquisite tone is faultlessly perfect — because only genuine materials of the highest quality are used. In fact, there is no equal. The instrument is manufactured under the strictest conditions.

The materials that compose it are the finest that can be obtained. The wood which forms it are serrated in the finest woods of the world.

That's why the A. B. Chase Piano is an instrument of such musical quality. That's why it exerts such a commanding influence in the musical world. That's why it is the only piano you should buy — with which you will be thoroughly satisfied.
