PRES. MCKINLEY FAILING FAST.

The President early yesterday morning takes a bad turn for the worse.

His heart action is very weak and his life is in the balance.

The condition of the pulse, it being Thursday night was not satisfactory.

Dr. Wasdin came out at 10:30 a.m. and gave directions to automobile drivers to take him to Dr. Mann's house. Dr. Stockton would say.

Although doctors were very reticent and very critical condition and grave alarm was due. Other sources also have expressed views that the President is in a critical condition.

This was the last bulletin received up to 10:30 a.m.

DOCTORS BULLETIN.

BUFFALO, N. Y., Sept. 13, 1901—Shortly before 2 p.m., Dr. Hadsell visited the President and spent an hour with him. When they came out, Dr. Hadsell announced that the President was holding his own and that he was no weaker.

Dr. Wasdin said that the condition was grave, and Dr. Holmes said that it was a critical one.

A STUPOR.

BUFFALO, N. Y., Sept. 13, 10:30 a.m.—President in a stupor from which stimulants fail to arouse.

HAS A FIGHTING CHANCE.

BUFFALO, N. Y., Sept. 13, 12:30 p.m.—The President is in a stupor from which stimulants fail to arouse.

IMPROVEMENT AT NOON.

The President is in a stupor from which stimulants fail to arouse.

The President is in a stupor from which stimulants fail to arouse.

HURLED CONSULTATION.

No one is more anxious than Dr. Stadman to have the President recover. He has been present at all the consultations and is in constant attendance.

OFFICIALS SENT FOR.

Missionary, 10:30 a.m.—The President is in a stupor from which stimulants fail to arouse.

HE HAD REACHED CRISIS.

The condition of the President on Thursday night was not satisfactory. The President had been taken to the hospital, but the condition of the pulse, it being Thursday night was not satisfactory.

Two thirty yesterday morning, the Doctor's nurses were summoned to the house with all speed.

It had been found that the President was not responding to even the most powerful heart stimulants, and it was feared that the condition was grave.

The following bulletin was received by Edwards, Woods & Co.
