## RED LAKE INDIANS TO RECEIVE PAYMENT SOON

Some \$51,000 Will Be Distributed Among the Members of Band, Numbering 1375.

The members of the Red Lake band of Indians will receive, in a few days, a payment of money from the Indian department, the sum total of which will be over \$51,000.

As there are 1375 persons who draw annuities as members of the Red band, the payment per capita will be about \$37 for every man, woman and child.

W. H. Bishop, who is the agent in charge of the Red Lake agency, was a visitor in Bemidji yesterday, and he stated that the money for paying the Indians would be deposited in the First National Bank at St. Paul, most any day now, and checks would be drawn on the bank in favor of each annuitant and sent him for distribution to the Indians.

These payments mean much to the Indians, as it gives them the wherewithal to replenish their supplies for the early spring, before the fishing season begins; and the merchants of Redby and Red Lake agency will undoubtedly

## READY FOR ANYTHING

The man who has a Presto Collar on his coat need never feel improperly dressed.

If it's a formal affair, the Presto collar turned down makes, looks and actually is like any ordinary collar. If it's rain or snow or a cold ride, the Presto furnishes ample protection.

Whether up or down the Presto looks right. Some adjustable collars look wrong either way you wear them.

realize handsomely as a result of the payment, through the trade received from the Indians.

## CAN FRANK A. DAY BE FOUR-FLUSHING?

(Continued from First Page)

bad a shape to make a trial against Senator Clapp, and Mr. Kellogg does not propose to attempt it."

Dr. J. A. Gates, of Kenyon, who is anxious to be Gov. A. O. Eberhart's running mate, has been haunting the Twin Cities the past week consulting with the local leaders and looking over the situation here. Gates thinks he has more than a chance to land the lieutenant governorship and says offers of support have been made him in the last few days that are of a substantial character.

### Kaiser's Nomination Deemed certain.

The nomination of Al Kaiser, of Bagley, for state treasurer, which is looked upon as practically a sure thing down here, Dr. Gates believes will help his cause. He thinks Kaiser's nomination will eliminate Dr. Cole, of Fergus Falls, who is his most formidable opponent. Another candidate for the state office whose chances are said to be looking up is Irving Caswell, of Anoka, who wants to be returned as clerk of the supreme court. Caswell's one chief rival was George Dix, a St. Paul politician, but the action of the state republican central committee in placing the judiciary and the nomination of a United States senator at the head of the convention call has practically eliminated Mr. Dix. This means that the present members of the supreme court will be renominated and Moses E. Clapp endorsed. Senator Clapp is a Ramsey county man and so is Justice E. A. Jaggard, of the supreme court, which means that the Capitol City will not be permitted to load the ticket with a third man.

### Purchased Old Northern National Bank Building.

M. O. Madson of Mentor and C. E. Odegaard of Aberdeen, S. D., have purchased the building adjoining the O'Leary-Bowser block, known as the "old Northern National Bank building," and will use the same as a mercantile establishment. Messrs. Madson & Odegaard have let a contract to Thomas Johnson of this city to remodel the entire building and put the same into firstclass condition as a business house. The old vaults will be taken from the interior of the building, the pillars removed and the entire front remodeled, making it one of the most substantial blocks in the city.

Madson & Odegaard will begin business just as soon as the repairs are made on the building and it is in condition to take goods. Mr. Madson has been in business at Mentor for some time and is well known through northwestern Minnesota. Mr. Odegaard comes from Aberdeen with splendid recommendations as a substantial citizen.

P. McLaughlin of Northome, whom Dan Rose says is a veterinarian, was a visitor in Bemidji yesterday and last night.

### Kirk Writes Letter.

Chairman of the council George Kirk explains in the following letter why he was absent from the council meeting last Monday night and also gives some data as to why the city has not taken steps with the street paving.

The letter follows:  
"Bemidji, Minn., April 13th, 1910.  
"Mr. Editor:—Freight trains at any time are unreliable but Uncle Jim's was a way behind Monday coming east on account of rush of business at Bagley, caused by Soo line freight and river driving supplies, hence my absence from council meeting. I wish to take exception from our Honorable Mayor's attack on council in regard to paving the city.  
Several things must be done before we can pave any part of the city.

1st. Every business or private house should be connected either with the sewer or waterworks in the district about to be paved.

2nd. We have only a system of sanitary sewerage, and before we pave we should have a system of storm sewerage to carry off the storm water. Both of these questions have been considered by the old council, who were handicapped last year by lack of funds.

To show you that the President of the Council is on his job would refer him to Extracts on file with Mr. Brooks of the Commercial Club that I have clipped from different papers in regard to paving contracts in Minneapolis, Fargo and Grand Forks. With all due respects to our present Mayor. I remain,  
Yours Respectfully,  
George Kirk,  
President of Council.

### Body Found at Red Lake.

The body of Frank Gordon, who with his father was drowned in Red lake last November, was recovered on the north shore of Upper Red lake, midway between Moose creek and Deer river, two small streams that flow into Red lake from the swampy lands north of the lake.

The body of Joseph Gordon, father of Frank Gordon, was recovered last week and was buried in the Eland cemetery. The body of young Gordon was in a bad state of decomposition, having been tossed about in the waters of Red lake since last November. The body of the young man was also buried in the Eland cemetery yesterday.

Joseph Gordon and his son Frank, who owned claims near Eland post-office, were at Shotley one day last November and determined to return home by going direct on the waters of Red lake from Shotley to the Tamarac river. They got some distance from shore in safety, but the boat was finally capsized and both men were drowned.

All efforts to recover the bodies were fruitless and it was only when the ice in Red lake was thawed out this spring and the wind tossed the waves hither and thither that the bodies were thrown upon the north shore of Red lake.

The elder Gordon is survived by his wife, three daughters and a son, the eldest of whom is aged 20 years and the youngest 10.

### Hr. Axel Maurer Here Saturday Night.

Your birthplace is always dear to your heart. Hence you see thousands of people of every nationality, whose cradle was rocked on the other side of the ocean, make a trip sooner or later to the land, where they saw the first daylight. But only the most fortunate can do that; there are more thousands who would just enjoy the trip but for the inability to meet the expense. They have got to stay where they are, because they cannot afford it.

So far as the Norwegians in this country are concerned this sad feature of it has been remedied to some extent. The Grand Lodge of the Sons of Norway established a lecture bureau 4 years ago for the purpose of securing the services of one of Norway's foremost men in literature, art and science to make a tour of this country and deliver lectures or give concerts in all cities where the Norwegian population would be large enough to get up an audience, thereby bringing a small part of Norway over to us. Last year Captain Angell of the Norwegian Artillery was the man selected.

He delivered lectures on the political situation in 1905-1907 and made a great success of it. In spite of great efforts it was impossible to get him to Bemidji. The man chosen for this season is Hr. Axel

Maurer of Kristiana, the capital city of Norway, a man who has won for himself a name as a man of literature. Through an earnest effort made by the local lodge of the Sons of Norway Hr. Axel Maurer has been booked for Bemidji at the City Opera House on Saturday evening April 16th, at 8:30 in the evening.

No man, woman or child, who can understand either one of the Scandinavian languages should lose the opportunity to hear Hr. Maurer. It will be a treat. Don't forget the date.

### QUARTER BILLION IN ORANGES.

Tremendous Amount of Money Represented by California Fruit Groves.  
In a recent report on the fruit industry in California it was stated that the business today represents an outlay of \$250,000,000. A large share of this belongs to members of the California Fruit Growers' Exchange, cultivators of the famous "Sunkist" brand and having 5,000 groves.

Great care was taken by California fruit growers in this season's crop and a large expenditure was made in producing what is designated as the highest grade of oranges ever placed on sale under the name of "Sunkist."

### NO BOMB IN THE BRYAN LETTER

Nebraskan's Jefferson Day Communication.

### ONE DISTURBING FEATURE

Refers to Taft's Lincoln Day Address at New York as an Endorsement of the Democratic Financial Proposition in 1896—Sees in Recent Events Hope for Success of His Party in Congressional Elections.

Washington, April 14.—The letter of William Jennings Bryan, written from Brazil, to be read at the Jefferson day banquet in this city and in Indianapolis—the letter which caused commotion among the local banquet committees because of what some of them regarded as its unorthodox doctrine—was made public and it proves to be a document that cannot be construed as containing revolutionary utterances. The only portion calculated to all disturb Democrats is a reference to the platform of 1896 being justified, in part, by recent utterances of President Taft. Mr. Bryan's letter, in part, reads as follows:

"In our own country, as well as abroad, Jefferson's principles are triumphant. He taught that the art of government is the art of being honest and each new investigation proves the folly of those who refuse to learn of him.

"He was the foe of monopoly in every form and his name is the one which can with the most propriety be invoked when the trusts are attacked and when a contest is being waged for the application of the principles of popular government.

"I am so far away from home that I am not fully informed as to the recent events, but I have just read of one Jeffersonian victory, namely, the selection of an investigating committee by the house instead of by the speaker, and, better still, each party selected its members of the committee. This establishes an important precedent, which, if followed, will make investigations real and effective.

"Should Accept Democratic Remedy.

"I notice, also, that we seem likely to win a victory against the meat trust. Monopoly prices have at last provoked a popular protest and now that the people are looking for a remedy there is hope that they will accept the Democratic remedy. It is not unnatural that they should use the boycott, even if they punish themselves while they are inflicting punishment on their oppressors; but I am sure they will, in the end, by legislation more satisfactory than abstention from meat, join with the Democrats in declaring a private monopoly—not the meat trust only, but every private monopoly—undefensible and intolerable.

"But there is another item of news which has just come to my attention. President Taft, in his Lincoln speech at New York Feb. 12, attributes the present high prices mainly to the increase in the production of gold, and the consequent enlargement of the volume of money. This unexpected endorsement of our party's proposition in 1896, when we demanded more money as the only remedy for falling prices, is very gratifying. How valuable that admission would have been to us if it had been made during the campaign of that year when the Republican leaders were denying that the volume of money had any influence on prices, and asserting that it did not matter whether we had much money or little, provided it was all good.

"The time is ripe for the return to Jeffersonian principles and I trust the representatives of our party will make a record which will secure us a majority at the coming congressional election. With that advantage gained, the Democrats will have an opportunity to outline a program and, with a program in harmony with Jeffersonian ideas, the Democracy will enter the presidential campaign with promise of suc. ess."

"I can be found. The story of her dying in want is false.

"She has been in Paris about a fortnight and I have received three letters from her, all telling how well she was getting along. I had intended going to her just as soon as my engagements would allow me."

Canadian Anti-Trust Measure.  
Ottawa, Ont., April 14.—The regulation of trusts is the object of a government bill which Makenzie King, minister of labor, has offered for adoption by the Canadian parliament. The bill provides that where complaint is made that a trust or combination is operating unduly to enhance prices or for restraint of trade a commission shall be appointed with power to make a thorough investigation.
