This is a free country, but it ought not to be so free as to harbor a class of people whose creed is "Death to the Rulers."

What the anarchist expected to accomplish by taking the life of President McKinley's is hard for the people to comprehend.

Another "professor" has come to the front. He has discovered that it is possible to hypnotize a grasshopper. What would the country do without her "professors"?

Judge Ristine of the county court does not propose to sacrifice \$5.00 for the privilege of making a "grand stand play." The court recently adjourned on a Thursday to meet again on the following Saturday. As there was no business on hand to necessitate their meeting on that day Presiding Judge Hickman protested against it, but "old stubbornness" of the western district said yes, and so they met. As there was practically nothing done on that day Judges Hickman and Adkins waived their allowance of \$5.00 as salary for that day. Judge Ristine stated that he had no apologies to make and would draw his "five a day." In other words "that was what he was there for."

The residents of the Malty neighborhood, seem to be somewhat divided as to the most desirable point from which to get their mail—Jasper or Golden City. The question at issue is which town gets the Kansas City papers first. The Kansas City Journal and Times are printed between one and two o'clock in the morning, arrive at Jasper at 7:45 and are delivered in the country during the day. If the Times and Journal are not delivered by the rural carrier from Golden City on the same day they are printed, Jasper has the best of it on that point. However Golden has the route, which is the cause of the contention, and in all probability will keep it. The thing for Jasper to do, if possible, is to map out another route running to the northwest, and send in another application.

Stricken President and Stricken Country.

From Chicago Record-Herald.

The terrible news from Buffalo has made the whole country sick with a common sorrow, in which poignant regret, intense indignation and a certain feeling of dismay are mingled.

It may be said of the President, who was so murderously assaulted, that he had no personal enemies. Like Garfield, who perished by the assassin's hand just twenty years ago, like Lincoln, the earlier martyr, he has ever been the most amiable of men. Gentleness and kindness of heart were a natural endowment, which he has retained unimpaired throughout all the fierce storms of politics.

Like his predecessors whom we have named, he came, too, from the common people, who were exalted by his exaltation. He has been our most popular President since Lincoln, popular in every section of the country, and it is well-nigh incomprehensible how any sane person could have meditated his murder.

But the anger against his assailant and against the ideas and the associations which he represents is at white heat. The nation demands his exemplary punishment and a stricter surveillance over anarchist clubs and all threatening enemies of the government. In this hour the lesson is fearfully enforced that we are much more likely to lose liberty through license than through a calculating tyranny.

It is an appalling thought that the great republic, with all its promises and all its deeds for oppressed humanity, exposes its chief magistrates to more deadly chances than does any empire or kingdom. But seven men regularly elected President in the last thirty-six years, and three of them brought low with the assassin's bullet.

The predominant feeling now, however, is anxious hope for the innocent and much revered sufferer at Buffalo and of no less anxious sympathy for his stricken

A WORTHY SUCCESSOR

Something New Under the Sun.

All doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a treatment which when faithfully used, not only relieves at once but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only medicine known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SUFFLES" the GUARANTEED CATARRH CURE and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD IN HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SUFFLES" the "GUARANTEED CATARRH CURE."

Sent prepaid the United States or Canada on receipt of One Dollar. Address Dept. 1 EDWIN B. GILES & COMPANY, 2329 and 2332 Market Street, Philadelphia.
