

Get Ready for the Fair

If you need help we can help you with a Wallis or Moline Tractor. If you want the wheat to grow up out of the ground it should be sowed with a Hoosier or Superior Fertilizer Drill. We have them all come with the heavy wheels to stand the rocks. They sow any kind of fertilizer and put the grain in as you want it.

Vernon Matthews' car upset Friday night on the bad piece of road on the Jefferson Highway below the railroad crossing near Carytown. The rain had made the road very soft and along the edge there is no rock bottom only weeds to hold the gravel. He was driving slowly and feeling his car sinking he shut off the engine and it went over on the side in the ditch filled with water. No one was hurt only they all got soaking wet in cold water. The screams of the three children aroused Isom Wood and Ernest Preston who came immediately to the scene and found the family shivering with cold. They went to Mrs. Wood's house where she was in a critical condition.

Miss Preston was there and helped make them comfortable until John Gaddis arrived with his car and took them to D. Matthews'. Ralph Berry came to take them home but found them gone so he remained to help Vernon with his car. They phoned to Carthage for Mr. Fosdick and with the assistance of him and Mr. Berry, Mr. Gaddis and Mr. Preston the car was raised out of the ditch and found to be all right. So all went home about midnight.

Four cars had previously gone over in the ditch at that place. Mr. Sharp of Schell City being one of them. The road should be made safe there. A bad washout on the base-line east of David Wood's also needs fixing before someone is killed.

Tom Flowers is suffering with blood poison in his right hand.
