Next morning his mule was found, and on further search the certificate of deposit and empty pocket-book were also picked up. Various theories are advanced, the one most probable is that Fletcher had been closely watched, and taking advantage of his dissipated condition, he was murdered for his money.

NEW POINT.

The Motive Power.

The most beautiful illustration of pefect mechanism and wonderful strength to be found on the globe is a steam engine. It is the embodiment of conscious power, and will walk away with 30 of 40 heavily laden cars as easily as you would take a pound weight and toss it about, or push a baby carriage down hill. Isn't it a picture to look at as it stands calmly on the rails—every point and band throwing back the rays of the sun like burnished gold, the engineer's cab looking as neat as a lady's parlor? Did you ever think how worthless this grand machine would be without the power to start into life the wonderful cogs and levers? Let us point a moral from this simple sketch and apply it to every day business life? You will see at a glance that the point in this illustrates the grand principle of existence itself—the motive power. You can't start the engine without steam, and a business house wont run successfully without the energy and push of live men to keep it going. The principle is the same in both cases—the steam runs the engine and the live man the business. They would both be valueless without the motive power. We have labored for years to perfect our business machine, we've "tightened the bands, oiled the cogs" and introduced a great many new features We think now that it makes good time on the track and we want you to come and see it work. We have been obliged to get more room and have moved into the store room just east of King & Prouds's drug store, where you can see the finest line of Furniture in Holt county. Nor can my stock of Coffins and undertaking goods be surpassed in Northwest Missouri. The finest hearse in the northwest is also my property.

FROM

COL. L. T. FOSTER.

Youngstown, Ohio, May 10, 1880.

DR. B. J. KENDALL & Co., Gents:—I had a very valuable Humbletonian colt which I prized very highly, he had a very large bone spavin on one joint and a small one on the other which made him very lame. I had him under the charge of two veterinary surgeons, who failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the *Chicago Express*, I determined at once to try it, and got our druggists here to send for it? They ordered three bottles? I took them all and thought I would give it a thorough trial, I used it according to directions and the fourth day the colt ceased to be lame, and the lumps have disappeared. I used but one bottle and the colts limbs are as free from lumps and as smooth as any horse in the State. He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it.

Very Respectfully,
L. T. FOSTER.
