—On Sunday morning last, as Mr. Brooks, who travels for the wholesale house of R. L. McDonald & Co., of St. Joseph, was waiting for the train at Forest City, he was robbed of his valise containing a lot of clothing. The robbery was not discovered until the arrival of the train, when Mr. Brooks went to get the valise which had been placed on the platform, and found it gone. City Marshal Peare was sent for and at once went to work to find the missing property and thieves. In an hour or so, the valise was found in a box car railed of its contents, and in a short time afterwards the thieves were run in, and were found to be three tramps, who had been hanging about the depot during the day. They gave their names as Walter C. Merline, J. C. Collins, and C. D. Clifton. They are now in jail awaiting preliminary examination which is set for the 18th inst., before Esquire Hoffmann, of this city. As some of Mr. Brooks clothing was found on their person, their chances for the pen may be regarded as good.

IN LIFE'S MORN.
On Monday forenoon last, occurred one of those happy affairs, which some writers have characterized "a poem in real life"—a wedding. It was the celebration of the nuptials of Clark Philbrick, of this city, and Miss Liesette Eiler, the charming step-daughter of Mr. Louis Streckbein, of St. Joseph. The interesting event occurred at the parsonage of the Second Presbyterian Church of St. Joseph, Rev. George Miller, officiating, the ceremony being witnessed only by a few very intimate friends of the contracting parties, after which the newly wedded couple returned to the residence of the bride's parents, to partake of a splendid wedding dinner, such as only Mrs. Streckbein knows how to prepare, and after spending several hours pleasantly, took their departure for this city, their future home.
An elegant wedding supper was spread at the residence of the groom's parents. Mr. and Mrs. Cyrus Philbrick on Monday evening, where a few of the groom's relatives and friends greeted the bridal couple on their arrival.
Like sensible people, the couple immediately go to house-keeping. May they both "live long and prosper." May they meet much of the sunshine and escape the shadows of real life. May all their ways be ways of pleasantness, and all their paths be paths of peace. May perennial flowers and grateful shades and singing birds make life one long glad holiday for them.

The following presents were received:

Handsome stand lamp—Tom Hinde and John Philbrick.

TO CORRESPONDENTS.
"Said Ed to Will, give me a chaw cr tobacco."
ED. SENTINEL: We, the people of Forbes, are quaint and curious about some things. We may be a little fault-finding, but we mean well. Among other luxuries that we like to indulge in, is a good county paper full of interesting items, but when we read an item, we want to learn something, and then pass on to another or else we have wasted our time. Now in the above item we are not only out of the time we spent in reading it for we have not derived the value of an atom of chalk, from reading it, but perplexing questions, in regard to it, keep coming up in our minds.
Who is Ed? and, ditto, Will? From whence came they? and where came they there to do? They are there, I suppose, but how long will they remain? Did Will give Ed the "chaw?" And did Ed bite off more than he could chaw? And lastly, supposing those two lines were of interest to those three persons, at that ratio how many lines would it take to give all the reader of the SENTINEL the same amount?

The correspondent from Craig, who by the way, is an excellent one, will please excuse us for whipping others over his shoulders. This is the first item of his we could use for that purpose, but there are several correspondents, who mix in among items, wily (?) expressions, that are of about as much interest to the mass of readers, at large and their own vicinity, as the above questions I have asked. Give us genuine items of interest correspondents, and don't waste valuable space; and you will please the editors, who are very modest men, and the readers who like things pointed.

VERDENT GREEN.
FORBES, Oct., 8th '83.
