VOLUME XIX.

OREGON, MISSOURI, FRIDAY, OCTOBER 19, 1883.

NUMBER 21.

—Jersey Collars at Kreek & Watson's.

—O. C. Hill will preach at the Union school house next Sunday morning and evening.
—Mr. Albert D. Zook, of Rock Port, is visiting his father, P. M. Zook, of this city.
—Mrs. Emma Hershberger, of Ma'tland, was visiting relatives and friends in this city, Monday.
—The winter term of the White school began last Monday, with Ed. Hrubelack as teacher.
—T. L. Price has for sale, or trade, at a bargain, a Howe Sewing Machine almost new. Call and see.
—Charles Ambrose, representing Schutte & Hovey, St. Joseph, sniled at us on one day last week.
—Charles Soper is clerking in a Chicago railroad office. He is at ending commercial college at night.
—Seymour Callen, of Hattson, New Mexico, is in the city. We understand he will enter our Normal the coming week.

—Virgil Kennon, who has been absent in Wyoming Territory for nearly two years, is at home on a visit to his mother. He will return in January.
—These are certainly prosperous times for farmers. Throughout the county, in all directions, workmen are engaged in building new farm houses, barns, granaries, fences, etc., and a general air of improvement is visible everywhere.
—The Kunkel manufacturing company has in its arrangements with W. Kunkel of this city, to put in a complete roller mill. The capacity will be 125 barrels in twenty-four hours. Employment will be given to a large number of men for several months.
—J. A. Dillon and wife returned from their bridal tour Monday. After a brief visit with the bride's parents, Mr. and Mrs. E. Van Buren, the couple drove to their future home, Severance, May He, who in his wisdom created us all, ever be their guide and protector.
—It looks as though the new postal notes had been wire-worked through congress by the proprietors of the country press, so their delinquents will be able to send in their remittances promptly. It only costs you three cents to send \$4.99, and the average country editor is willing to forego the other cent and call it even money. Try us and see if we do not.
—The moon was partially eclipsed Tuesday morning, the phenomenon being visible through the United States and on the Pacific ocean. The eclipse commenced 11:44, AM., and ended 2:30, AM. As only 28-100 of the moon's diameter was obscured, the eclipse was remarkable for being the only lunar eclipse visible in this latitude during two years.
—One of the noblest deeds of charity we have to chronicle for a long time is the gift of Mrs. John Smail to the relief fund of Sedwick Post, G. A. R. In the name of her dear husband, she has given over several hundred dollars to that Post to be sacredly used for the relief of sick and indigent soldiers. It is indeed a gift worthy of a soldier's wife.
—Maryville Republican.
—A word to our hog raisers: Three bushels of corn well soaked and fed in troughs will do as much good as five bushels thrown on the ground. Here is a suggestion worthy of attention. Our farmers need to economize their food. The profit of any business is easily thrown away by a little waste. If three bushels of corn can be made to go as far as five under the present system of feeding, the profit would be largely increased.
—It will be good fortune to any literary man, to make the acquaintance of Mr. Phelps, St. Joseph, of the firm of Phelps & Brewer, dealers in books, etc. We have never before met a man who was so thoroughly conversant with general literature, as Mr. Phelps. It is enjoyable to converse with him upon books and authors; their merit and character, based upon correct information. A student and scholar finds his acquaintance with this man stimulating. His knowledge of rare books is not excelled in the west. Any one desiring to form a library will be liberally served by conferring with Mr. Phelps. And if he does not give the proper aid and encouragement to this man, she will become one of the leading literary cities in the West—has all the surroundings: the wealth, the beauty, the ambition and the intelligence. One prominent wealthy young lawyer there said to us, that he would guarantee that it would be rare to find a wealthy man in St. Joseph who read a book through in one year; and other illustrations are given, to show that the literary fame of that city is on the wane. Let St. Joseph see to it that such men as Mr. Phelps receive more encouragement and better support.

—P. M. Zook, the photographer, is now prepared to make you as good pictures and as cheap, as you can get in St. Joseph. He also has a large stock of picture frames for sale cheap.
—Miss Eunice Turpin living with her parents near Bigelow, one evening last week, was lying in bed reading. A lighted lamp was sitting on a chair near her head and by some means upset, lighting the bed clothing. Miss Eunice succeeded in extinguishing the bed clothing, and in her excitement, took the lamp and threw it down stairs. Of course the ignited oil soon read over the floor, and everything indicated a first class conflagration, but Mr. Turpin, who was at home at the time, and who is one of those inexorable creatures, took a lot of clothing and cloths, which were handy, and throwing them over the flames, soon succeeded in putting out the fire.

—William Kaucher last week, completed the work of remodeling the Corning elevator for F. W. Walter. It is now one of the most complete establishments of the kind in the northwest.
—John C. Hendricks, of Mound City, gave us a call Monday. He is canvassing for "Twenty Years of Congress," by James G. Blaine. It is a work worthy a place in every library in Holt county. Not since the publication of "Thirty Years in the Senate" by Thos. H. Benton has there been a work of such political value, been published.
—When corn begins to dent, it may safely be gathered for seed. Then dry it thoroughly in an open house in which a stove can be placed or if a smoke house can be used, it would be still better; the smoke itself being beneficial. The above method is a sure way of obtaining good sound seed corn, and it seems as if the experience of the farmers last spring was sufficient to teach them that too much care can not be bestowed upon procuring a good supply for the next spring's planting. However good the season may prove, a large crop can not be grown if it has to be replanted.
—Quite a serious accident happened to Mrs. Jennie Sloan, of White Cloud, Kansas, on Wednesday evening of last week. She has been an invalid for a number of years, having to be lifted about in her chair. While she was preparing to attend a wedding, and completing her toilet, she took a position by a stand that had a lighted lamp upon it; her arm in some manner hit the lamp, and it fell in her lap, setting her clothing on fire. Being alone in the room and helpless, she threw herself upon the floor, screaming for help. Those down stairs heard her cries, and hurried to her aid, finding both beds in the room on fire and the room full of smoke, while the flames were leaping high above her. They managed to get her out, but not until she had been badly burned, although not fatally. Mrs. Sloan has many warm friends in Oregon, who deeply sympathize with her and hope for her speedy recovery. THE SENTINEL extends its sympathy and hopes to see Mrs. Sloan among her many friends in Oregon, soon.

—John Rowland has sold his farm in Bigelow township, to Robert Asher. Mr. R. has gone to Denver, Colorado, by train.
—W. A. Gardner will preach at Mound City next Sunday morning and evening and at Union church six miles northeast of Mound City, at 3 o'clock in the afternoon.
—When Howard wrote: "I find a pity hangs upon his breast," the fellow had evidently a cold and had not yet been informed that Dr. Bull's Cough Syrup was the only safe remedy.
—The little daughter of the editor of the Tiffin, O. Daily Star was immediately and permanently relieved of a severe cough by three doses of Dr. Bull's Cough Syrup. A twenty-five cent bottle of this valuable remedy will cure the worst cough.
—Some two months ago we made mention of Charles Foster fracturing his thigh by a horse falling upon him. For a few weeks he has been able to be out with the assistance of a crutch. On Monday last he took dinner at the Foster house, and in getting up from the table his crutch slipped throwing him upon his wounded limb, straining it badly, from which he is suffering greatly.

MOUND CITY.

MOUND CITY, Mo., Oct. 17, 1883.
EDITOR SENTINEL:—Evidently the author of "Tramp, Tramp, Tramp," intends to revolutionize times and things generally, according to his opinions. He wants the brass put on to all social gatherings; no more soldiers' reunions, no more old settlers' reunions, no more church gatherings, no more conference dinners are not to meet hereafter for the benefit of the human race; all general gatherings to be stopped with an air brake; even the glorious old Fourth of July is to fall a victim to "my policy." But one excuse can be offered for the appearance of his obituary on remembrance in the Press, is the extreme narrowness of the soul of the writer.
A READER OF THE PRESS.
P. S.—Did one of the editors of this distinguished revolutionary sheet, wear a Hayes & Wheeler uniform in 1876?
