

physicians accounted searched vainly for the of Life, or the knowledge whereby life might be prolonged We now know that there is no such thing as an Elixir of Life. But we have learned that life may be prolonged by those who take the right measures.

Any man or woman who will take care of health and take the right remedies for ill health, may live to a ripe old age. When a man feels out of sorts, when he gets up in the morning tired out after a restless night, and goes home in the evening completely knocked out with his day's work, without appetite or ambition, he is a sick man. If he does not take the right remedy he will soon be in the grasp of consump-tion, nervous prostration, malaria, or some other serious malady.

A man in this condition should at once resort to Dr. Pierce's Golden Medical Dis-covery. It is the best of all medicines for hard-working men and women. It makes the appetite keen and hearty. It gives sound and refreshing sleep. It tones and strengthens the whole system. It invigorates the heart and nerves. It makes digestion perfect, the liver active and the blood pure. It cures 98 per cent. of all cases of consumption. It strengthens weak lungs, and cures bronchitis, spitting of blood and obstinate coughs. It is the great blood-maker and flesh-builder. It does not make flabby flesh like cod liver oil, but firm, healthy, muscular tissue. It does not make corpulent people more corpulent. Thousands have testified to its marvelous merits. Sold by all medicine dealers.

You know what you want. It is not a dealer's business to tell you.

Send to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of the "People's Common Sense Medical Adviser. For paper-covered copy enclose 21 one-cent stamps to cover mailing only. Cloth-bound 31 stamps.

For Our Farmer Readers.

The comb of the hen is a pretty good index of the health of the hen.

To prevent pigs from getting the thumps compel them to take plenty of active exercise. The busy-pig seldom gets sick.

rotation it would be well to have it divided so that a part of it could be has a grand future, and there never treated to manure and grass seed while the other part is being used.

a good time in the near future, as the of good horses and the strong demand, farmers are waking up to the fact that both foreign and domestic, surely only by buying good stallious can they mean high prices and a stronger deexpect to breed horses that will make mand than was ever known before. their mark in the markets of the world.

Do not turn the cattle onto the pasture too early. It is better to allow the grass to get a good start, so that it will be less easy for the cattle remedies. Deafness is caused by an to eat it down to the roots, it is far better to feed them for some days longer in the stable.

A new use for corn, it is claimed, has been discovered which will, if true. greatly increase the consumption of this grain. By a process of vulcaniz- will be destroyed forever; nine cases that a product superior to that of the South American rubber tree results, more resilient and lasting than the latter. The corn plant can certainly be stretched to meet many purposes,

The farmer who feeds his pigs all corn should remember how quickly he tires of one kind of food. He should further remember that the digestive organs of the pig are more similar to his own than those of any other animal. If he will appreciate finger nails, and observe the inflecthis and feed the pigs something as tions of his voice. For his tastes, he feeds himself, he will get rewarded study the color of his ties, the pattern with many grunts of satisfaction and more money in his pocket.

The effect of good breeding will show up more quickly in swine than in any other kind of live stock. Hence the farmer can better afford to pay for good brood sows and a pure-bred boar such prices as are high, in proportion to the market value of the offspring when ready for sale. With hardy sire and dam the litter, properly cared for, will make the money invested bring early and profitable returns.

In the New York markets the white egg commands the highest price. In Boston the Brown egg sells the best, and yet the color of the shell has nothing to do with the inside! Neith- his hair grows. There are other er has the breed anything to do with the richness of the inside, but the food consumed has a great deal to do with it. Feed onions to the fowls and the eggs will taste of them. Any kind of filth that the hens may eat will have ed by expert pharmacists. Ely Bros. an influence on the contents of the offer a 10-cent trial size. Ask your

Every swine breeder should know Warren street, New York City. that a sow costive at farrowing time is likely to make trouble of various kinds. Almost invariable it is costive sews that eat their pigs. This trouble torments them so much at that time that they are ready to eat almost any.

Cream Balm and to all appearances and all diseases of the Thioat, Cream Balm and to all appearances am cured by the forments them so much at that time that they are ready to eat almost any.

thing that is eatable that happens to be in reach. A pound of linseed meal a day with her other food for a month or more before farrowing will obviate this difficulty. If one cannot get this meal, or whole flaxseed to boil into jelly to feed her, he can, at least, feed wheat brand enough to accomplish the purpose. Also give her salt and ashes, and charred corn

Wherever it is intended to let the seeding lie more than two years betore plowing, some grass seed should always be sown with clover. In fact, we think some grass seed ought to be sown anyway, as failure to get a seeding somewhere else may make it necessary to keep the field in grass a year longer than is intended. The only question is, what grass seed shall be sown? Timothy is the universal standby. But it is not ready to cut when the clover is, and it also runs out after a few years, unless annually top dressed. Orchard grass is more permanent, but it requires three or four years to fully cover the surface. If clover and timothy and orchard grass are sown together, they will cover the land in the same alternation we have named .- American Cultivator.

There is no question that there is going to be a shortage in the supply of horses for a few years to come. There has hardly been any colts raised since 1894, and we have not begun to feel the effect of these short crops of colts as we will in a few years or more. We believe the best quality of horses in one or two years will be as high as they ever were. There is great export demand upon us, and it is increasing every day as business increases and it will not be long be-If the pasture cannot be put into fore this class of horses will be extremely high. The horse business was a time when it offered so great inducements for breeding and raising The breeders of good horses expect as at the present time. The scarcity

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional inflamed condition of the mucous lin ing of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing ing the oil of corn the chemists say out of ten are caused by catarrh, which is nothing but an inflamed condition of hood. the mucous surfaces.

> We will give \$100 for any case o deafness (caused by catarrh) than cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sold by druggists, 75c. Picking Out a Husband.

A contemporary gives the following advice to its fair readers: "For a man's birth, look to his linen and and hang of his trousers, his friends and his rings-if any For his propensities, walk round and look carefully at the back of his head. A symmetrical cerrebellum, with well trimmed hair, is an indication of self-control and energy. If you want a successful man, see that he, has a nea foot; he will move quicker, get over obstacles faster, than a man who falls over his own toes and trips up other folks with 'em, too. For his breeding, talk sentiment to him when he is starving and ask him to carry a bandbox down the public street when you have just had a row. To test his temper, tell him nose is just a little on one side and you don't like the way ways which will suggest themselves naturally to a bright woman.

It is not a remedy put up by any Tom, Dick or Harry; it is compounddruggist. Full size Cream Balm 50 cents. We mail it. ELY BROS., 56

Since 1861 I have been a great sufferer from catarrh. I tried Ely's

Coral is Coming.

Coral is coming into favor again. The pale pink coral is especially liked as a beading for the low, oval- very well? shaped combs that are now displacing the high-back comb in favor.

A unique comb, wider than it high, of amber tortoise shell, has heading an inch wide, formed of diamond-shaped medallions of pale pink coral beads.

Another shows the coral interwoven with a delicate lacework of the amber shell. In other ornaments shaded long obituary notice? coral is used as a mosaic work, set

down into the shell facing. Belts are shown made of tortoise shell, in the dark variety, and an inch or more in width, having the clasp

fastening made entirely of coral. The tortoise shell panels thus manipulated are laid on some elastic substance, and the quality of coral used in the buckle is rare enough to be worthy of the unique combination.

The lighter tints of coral combine best with the amber shell. It is introduced sometimes in the inexpensive silver gilt appointments, and again in the handsome dead gold ornaments of noses?

There is no commodity used by iewelers that differs more in price and grade than coral. It can be had very cheap, not only in cost, but appearance; and, then again, only a small trimming of it causes the price of the article to go into the hundreds.

The vivid red coral is usually placed in conjunction with ebony, onyx and other dark, richly-tinted surfaces that display it to advantage, while the pale pink is used with delicate enameling married? and with backgrounds light in color .-St. Louis Republic.

Are You Superstitious?

An English authority is responsible for the assertion that a man's destiny depends upon the month of his birth.

A man born in January will be hard worker, a lover of good wine, a fine singer and a great manager. woman born in that month will be afwill be capable of great endurance.

A man born in February will love money much, but women more. He will be stingy at home, but prodigal abroad. The woman will be an affectionate wife and a good mother.

The man born in March will be handsome, honest and prudent; yet he will die poor. The woman will be tall and stout and witty.

amiability and all other desirable with the scalawag, leaving more love

small stature and very fond of women bosom, and from that time on she is and children. The woman will be his to command under all circumstanflighty and a high liver, but will repent and sober down at forty.

good fellow withal. The woman will mashed on some other woman can pout and be handsome.

The man born in August will be Brenham Banner. ambitious and courageous. The woman will be what Americans call capable. She will be equal to running a farm or editing a newspaper.

The man born in September will be strong and wise; he will make few mistakes and live and die rich. The woman will be loved by her friends, have many suitors and die an old

The man born in October will write poetry when young; then he will dabble in politics, and wind up as a reformer. The woman will be pretty, and late in life an apostle of total

The man born in November will have a fine face, great address and if not careful he will be a gay Lothario. The woman will be large, liberalminded and fond of novels.

The man born in December wil have a passionate temper, yet he will be the first to forgive. The woman will be a friend to the deserving poor, but a terror to tramps and the wilfully unemployed.
