

DEATHS

ALBERT PARKHURST formerly of Sweet Springs, died last Sunday in South Dakota. He was a son of Isaac Parkhurst, north of Sweet Springs. We failed to learn particulars.

Her Fall was Fatal

Mrs. Maggie Bingham, of Arrow Rock, who accompanied her son, Rolla, to Kansas City Saturday where he underwent an operation for appendicitis, died as a result of a fall in an elevator Tuesday morning and her remains were brought back to Arrow Rock yesterday for burial.

Mrs. Bingham's death is one of a series of misfortunes to the Bingham family recently. Monday evening at 7:33 she descended in an elevator at the University hospital and we are told the elevator was out of order and came down with a severe jolt. She was badly injured and died at 10 a. m. Tuesday as a result. One of her sons passed through Marshall on the Mo. Pac. yesterday with his mother's remains. The death of this good woman is a sad and unfortunate one.

Uncalled for Letters

Remaining in the Marshall, Mo., postoffice September 6th, 1911. If not called for in 15 days will be sent to the dead letter office at Washington, D. C.

Mesdames Angie Cockrell, Bertha Griffith, S. L. Griffith, Etta Hill, G. Wilson.

Mr. Roy Ballew, H. B. Essington, G. M. Fair, G. D. Owen, Perry Reed, F. A. U. Smith, B. Williams.

Official Endorsement

Jefferson, City, Sept. 2.—The state board of agriculture will decide at a meeting to be held at Sedalia, September 29th which of the three cross-state highway routes has made the best progress in road building, and the route which in their opinion of the board has made the best showing will be dedicated the week of October 15.

At that meeting the state highway engineer, Curtis Hill of Columbia, who was instructed by the board to inspect each route, will make a report. If the central route which was designated the "Cross-State Highway," fails to make the proper showing then the northern, designated the "North Missouri State Highway" or the southern, designated the "Missouri State Road," will formally be opened and dedicated instead of the central.

The southern route advocates meet in Jefferson City, September 6th to formulate further plans for the opening of their road. Governor Hadley has been invited to attend this meeting and to attend a function the next day at Smithton, when a formal start will be made on a permanent rock road across Pettis County.

Governor Hadley gave out the following statement tonight: "The state board of agriculture, or as it should be properly designated under the law which authorized it to act in this matter, State Highway Commission, is proceeding on the theory that the assurances, with reference to the Central route will be satisfactory kept, and upon that assumption tentative arrangements have been made for a formal opening and dedication of that route the week of October 15th."

Defeated Moberly

The Marshall ball team defeated the Moberly boys Sunday afternoon in a score of 4 to 0. The game was played at the fair grounds. Another game on Monday resulted in a score of 10 to 8 in favor of Moberly.

Millinery

Mrs. James DeMoss has a more complete and up-to-date line of millinery than ever before. All the latest dress hats, street hats, fancy ornaments, hats pins and a full and complete line of wings, feathers, birds and plumes. Thanks to her old customers for their past favors. She wishes to solicit the patronage of many new ones for the ensuing years.

C. E. Scott spent Sunday and Monday with his family here.

The Dirt is Flying

Today, Thursday, is "Good Roads Day" in Gilliam. About 100 teams and a large force of men started out this morning to grade and put in order the State Highway between Gilliam and Glasgow. Every available team and hand is being pressed into service, representatives from every business corner in town went out and every man who could not go sent a substitute, these, with the farmers along the route and surrounding country, made a very formidable force and they expect to put this part of the road in excellent condition. The land owners along the line are becoming thoroughly enthused and are going at the work in earnest and expect to have the route in splendid shape by the day of inspection. County Highway Engineer Latimer will be present and superintend the work. State Highway Engineer Curtis Hill is expected, it is intended to make the day one of results to be long remembered as the beginning of better roads in Eastern Saline, which will be followed up by active systematic effort to put other parts of the road in good condition. Saline is fully alive to the situation.—Globe.

Doing Good Work

J. W. Jordan was up from Gilliam Saturday and said 75 teams were put to work on the roads between Gilliam and the bottom last Thursday by the farmers. County Highway Engineer Latimer directed the work. Some of the teams are still at work.

Our Feed Yards

Nothing has added more to the beauty and convenience of our city than our splendid feed yards. We are told that people have quit coming to town. If you believe this visit the four yards and you may be surprised. Saturday we made the rounds and were astonished. There were more rigs than we had ever seen except on show days, and they were not scattered over town either.

The Chautauqua a Big Success

Best Program Ever Presented. Review of Attractions.

In spite of the drouth this summer and some pessimistic predictions the Chautauqua Thursday opened with a big attendance and every session has been well patronized. Marshall last year was the banner chautauqua town for the Redpath-Vawter system and it won't miss it far this year we predict. The fact that the country is getting full of autos is a great help as visitors are coming in goodly numbers from a big distance in the cars.

The program opened Thursday afternoon with the Dunbar Sisters, a singing orchestra, followed by an address by Dr. Mansell on "The Other Fellow." Both were splendid attractions.

In the evening Thomas McClary "the man with the joy face" gave a most interesting humorous talk.

Friday afternoon's program was opened by the Weatherwax Quartette and Miss Kearney in a talk on "Dixie Land." The quartette proved itself one of the best. Miss Kearney made a very acceptable talk, especially pleasing to our Southern people, yet in no way objectionable to anyone. She is a fine speaker. That night the musical program by the Weatherwax quartette was followed by a lecture by James Francis O'Donnell, on the "Sign of the Cross," with Rome as the scene.

The lecture by Thomas Brooks Fletcher Saturday afternoon was a masterpiece. His subject: "The Martyrdom of Fools" touched on the practices of men and women in all walks of life and he handed out thought food with much rapidity that brought out all the "sins" of life clearly before you. There was an unusual disturbance of old fogy notions and pet follies in his address.

Saturday evening the Clarke-Bowers company entertained the large audience very delightfully for one hour, after which Hon. Arthur K. Peck gave his illustrated lecture on "Storm Heroes of our Coasts." The pictures were most magnificent. The features of the superb motion pictures showing storms at sea, ships in distress with sailors lashed to the rigging, rescues of near drowned sailors by means of the breeches buoy and other scenes of the coast.

Sunday afternoon Dr. William Edgar Geil gave his interesting address on "A Giant in Pygmy Land." Dr. Geil is one of the world's foremost explorers. His lecture dealt with his explorations in Africa, and he had a happy and clear-cut way of expressing himself which made his lecture a double delight to the audience. He is a fine specimen of mankind, and brought out the need of many men and womanly women in his lecture.

The big treat of the week, to which everyone looked forward with anxiety, was the lecture by Hon. Francis J. Heney which took place Sunday evening. Mr. Heney led the great fight against corruption in San Francisco until he was shot through the head by a corruptionist as he was conducting a trial against a notorious boodle politician. He showed very clearly and in a very interesting way the hundreds of corrupt ways by which elections are won and lost in large cities and suggested remedies for the evils. Mr. Heney is a good example of that spirit of political reform and municipal house-cleaning which is sweeping across the country.

Monday was band day, and the largest attendance of the week was reported. The band was composed of some thirty artists and their entertainments both in the afternoon and evening was one of the most delightful of the week. They were repeatedly coaxed on by deafening applause. The grand opera singers in the evening were grand, though many did not seem to appreciate this feature of the evening so well as the band. It was the finest of the kind ever heard here.

The Helmerdingers gave a musical program Tuesday afternoon and evening. They are very pleasing young ladies. The trained animals were unusually good and were a delight to the younger folks.

The address Tuesday night by Ex-Gov. E. W. Hoch, on the subject "A Message from Kansas," was a "stem-winder." Mr. Hoch talked straight from the shoulder. He is a good orator and combined with the facts he gave made his talk almost sensational. Of course many in the audience didn't agree with all his views but all admitted his talk out of the ordinary.

Notes

Tuesday was a day of special pleasure for the Barron boys, as I. Barron says they lived in Marion, Kansas, from 1885 to 1888 and in those years attended the Methodist Sunday School of which Gov. Hoch was superintendent. Of course they gave him the glad hand.

The Chautauqua committee of this city—Dr. Ed Sharp, Chairman; F. W. Miles, John W. Rose, L. F. Loyke, G. A. Radford and A. L. Proston was re-elected by a big vote Sunday afternoon. A vote of thanks was also tendered them by our people for their faithful efforts.

A great deal of feeling was evident Monday afternoon over the question of license or no license, the sides being about evenly divided apparently. The Chautauqua management was asked to pay a license of \$15.00. Dr. G. E. C. Sharp referred to this matter in his speech saying that this is the only city in Missouri which required this of them. Mr. W. L. Evans representing the Chautauqua said they would not complain of this even though they were classed with cheap shows and street fakers.

Harvey Tucker, for the city, explained that he didn't know what the other cities did, that he and his fellow councilmen were here to run our affairs as best they knew how and if didn't suit our people they could get some one else to do it. Marshall is a rather expensive show town but the hearty support given public entertainments, shows, etc., make up for this extra expense. The report that the Eagles had the free use of our streets is not correct.

Mr. and Mrs. Keith Vawter, of Cedar Rapids, Iowa, were here several days last week at our Chautauqua. Mr. Vawter is at the head of this great chautauqua system. He praised Marshall highly and said he would very much enjoy living in our city. Right he is. Marshall has its draw-backs but as a whole is one of the very best cities of the state to reside in.

We regret very much that we must omit from this article an extended notice of the morning lectures by Edwin Alonzo Blake, of New York. He is an able and pleasant gentleman. The lectures were a treat to those able to attend them regularly.

Roberts-Wodetzky

Rev. W. F. Roberts, pastor of the First Baptist church in Slater, and Miss Clara Maud Wodetzky, of Lincoln, Ill., were united in marriage at the home of the bride last Monday evening at 8 o'clock. Rev. H. J. Ballentine, a college chum of the groom officiating.

The bride and bridegroom arrived here Tuesday morning and are now at home to their friends in the Baptist parsonage, which was recently repaired and fitted up by the Baptist congregation in anticipation of this home-coming.

Rev. Roberts has only been with us a short time, but his modesty coupled with an easy dignified manner and ability in the pulpit has won him many friends and admirers who will extend to him and his wife a hearty welcome.—Rustler.

Accidents.

C. H. Scandelan, the C. & A. agent at Norton fell from a freight car last week and was seriously injured. He was taken to a hospital in Kansas City.

While Frank Campbell and Down Jackson were driving to Blue Lick last Thursday morning the latter had two fingers thrown out of joint and his hand bruised when the horses gave a sudden lunge. Dr. A. C. Putnam looked after the injuries.

Frank Hodges, col. while baling hay at One Deal's, near Mt. Leonard Friday morning fell upon the sickle bar of a mower and cut his right arm badly. Mr. Deal took him to Mt. Leonard in an auto at once where Dr. Tuttle dressed his injuries.

Hurt in a Runaway

Mrs. Chas. Castle of near Shackelford, while on her way to church Sunday morning, August 27, with her three children, met with a terrible experience. In passing a herd of sheep being driven on the highway, their horse shied and turned sharply to one side and upset the buggy. Two of the children were badly bruised but the little boy escaped. In trying to hold on to the horse, which continued to plunge, Mrs. Castle was struck by one of the wheels on the side of her head, causing a serious wound and fracturing her skull.

A Bad Accident

Rosa, the 4-year-old daughter of Mr. and Mrs. Sam Fore, of South Lafayette, near the greenhouse, met with a serious accident Friday evening. She pulled a safe over on to herself and the top struck her in the face, breaking the bridge of her nose. Her left arm was also broken. Dr. A. C. Putnam was called and reports her doing nicely. She may carry some marks through life though.

Jas. G. Linegar, the popular new proprietor of the Ruff Hotel, was heralded by one of our papers when he came as an eligible young bachelor. It has recently been discovered that Mr. Linegar has been married over a year, although few of his friends knew it as he kept his secret well. Mrs. Linegar though is in evidence at the hotel. The sad part of this story is that the young ladies who have been keeping a list of "eligibles" will have to mark off Mr. Linegar's name.
