THE TARIFF BILL.

The Conference Report on the Measure Completed.

The Senate Reciprocity Feature Retained, the Sugar Schedule Modified and a Small Duty Placed on Binding Twine.

WASHINGTON, Sept. 27.—The conference report on the Tariff bill, completed yesterday, provides that the new law shall go into effect October 6, 1890. The Senate reciprocity feature is preserved in the bill, but the date for it to go into effect has been changed from July 1, 1891, to January 1, 1892.

The duty on binding twine of all kinds is put at seven-tenths of a cent per pound, and the provision for this article is made to apply to binding twine made in part from istle or tampico fiber, manilla, sisal grass or sunal.

The sugar schedule provides that all sugars not above No. 16, Dutch standard; all tank bottoms, all sugar drainings and sugar sweepings; sirups of cane juice, melada, concentrated melada and concrete, and concentrated molasses, and molasses shall be placed on the free list. This is the House provision, subject, however, to the restrictions of the reciprocity feature, which empowers the President to suspend the free admission of sugar, molasses, coffee, tea and hides under certain conditions.

The conference changed the time for the bonded period to go into effect to February 1, 1891. The provision relative to the bonded period allows merchandise deposited prior to October 1, 1890, to be withdrawn at the present rates of duty before the time the bonded period goes into effect. It is also provided that when duties are based upon the weight of merchandise deposited prior to October 1, the duties shall be levied upon the weight of the merchandise at the time of its withdrawal.

In the internal revenue features of the bill, nearly all the House provisions of the bill are restored. The provision removing all restrictions on farmers and growers of tobacco, in regard to the sale of leaf tobacco are restored and a proviso added that the farmer shall furnish on demand of any internal revenue officer a statement of his sales, etc. A fine of $500 is provided for violation of this provision. The conference committee also struck out Senate amendments providing for a tariff commission.

The tax on smoking and manufactured tobacco and on snuff is placed at 6 cents per pound. Opium manufacturers are taxed $10 per pound upon opium manufactured in the United States for smoking purposes, and only persons who are citizens of the United States are permitted to engage in its manufacture.

The Senate amendment providing that all special internal revenue taxes shall become due July 1, 1891, is rejected.

In the free list a number of changes, most of them of no material interest, were made. Raw and manufactured bristles were stricken from the free list in conference. The House provision placing on the free list American-caught fish, except salmon caught by American vessels, etc., is re-inserted.

The Senate provision concerning pure mineral waters is allowed to remain. The paragraph covering ores of gold, silver and nickel and ickel matte is retained, with a proviso that the duty on the copper contained in them shall be one-half cent per pound.

Among the other Senate amendments that were agreed to by the conference committee are those covering plaster of paris and sulphate of lime, unground potashes, seeds and sulphuric acid of not over one and one three hundred and eighty thousandths specific gravity.

The conference amended a number of the free list provisions, inserting in the bill paragraphs providing for the free admission of feathers and downs for beds; peltries and other usual goods of Indians passing the boundary line of the United States; tin ore, cassiterite and tin in bars, blocks, pigs or granulated, until January 1, 1893, and thereafter as otherwise provided for; works of art by American artists residing temporarily abroad.

The sugar schedule is amended so as grant a bounty of 1¾ cents per pound on sugar testing between 80 and 90 degrees polariscope test and 2 cents on sugar testing not less than 90 degrees, from July 1, 1891, to July 1, 1905.

[The bill as passed by the House and Senate granted a bounty of two cents a pound to sugar testing 80 degrees and over].

The conferees agreed to the Senate amendments extending the bounty to maple sugar and providing that no bounty be paid on less than five hundred pounds. Sugar above No. 16 Dutch Standard is to pay five-tenths of a cent a pound duty and one-tenth of a cent additional if the country exporting or producing it charges an export duty. Machinery for the manufacture of beet sugar is to be admitted free until July 1, 1892, and y duty collected on such machinery imported since January 1, 1890 shall be refunded. Glucose is retained at the House rate—three-fourths of a cent per pound.

The sugar schedule is made to take effect on April 1, 1891, with a proviso that during the month of March sugars may be retained in bond without payment of duty, and transported in bond and sold in bonded warehouses under the provisions of existing laws.

The schedule covering imported tobacco and manufactures of tobacco left as it passed the Senate.

In the earthenware and glassware schedule the House conferrees succeeded in retaining nearly all of the House items intact. Fancy glass is made dutiable at 60 per cent. ad valorem, colored glass bottles 1 cent per pound for pints, 1¼ cents for quarters, and 50 cents per gross for bottles holding less than a quarter of a pint.

Most of the House provisions relating to the metal schedule are also retained.

The cutlery schedule remains substantially the same as it passed the House with unimportant Senate amendments. The reduced rates of the Senate on fire-arms are retained, as are also the reduced rates of thSenate on copper.

In the spirit schedule, brandy, cordials, liquors, etc., and spirituous beverages or bitters containing spirits are made dutiable at $2.50 per proof gallon; bay rum $1.50 per gallon; champagne and all other sparkling wines $8 per dozen in quart bottles; ale, porter and beer in bottles 40 cents per gallon.

The rate on undressed flax is fixed at 1 cent per pound; on tow of flax or hemp one-half cent per pound; on cables, cordage and twine, except binding twine composed wholly of manilla or sisal grass, 1¼ cents per pound: on cables and cordage, made of hemp, 2¼ cents per pound; tarred, 3 cents per pound; cotton bagging valued at more than 6 cents per square yard. ne and six-tenths cents; valued at more than 6 cents, one and eight-tenth cents.

Important changes made by the Senate in the wool schedule were allowed to remain. These provide that the duty on woolen and worsted yarns made of wool, worsted, or the hairs of animals, valued at not more than thirty cents per pound, shall be dutiable at two and a half times the duty imposed on unwashed wool of the first class, and in addition thirty-five per cent. ad valorem, and the duty on woolen or worsted cloths of the same standard shall be three times the duty imposed on unwashed wool of the first class.

There is a great deal of feeling among the Southern members about the proposed change in the rate of bounty on sugar between 80 and 90 polariscope test. They claim that it is contrary to the rules of both houses for the conferees to make such a change in an item on which both houses had agreed, and Mr. Carlisle will make this point against the item in the Senate. It is claimed by the Republicans, though, that there was a general disagreement between the two houses on the sugar schedule which warrants the proposed change in bounty; and besides, that the change in the time of putting the bounty system into effect makes the change in rate of bounty germane.

Some anxiety is felt about the attitude of the Western Senators toward the binding-twine amendment. Senator Paddock is much put out by the action of the conferrees, and he stated this afternoon that he will vote against the conference report. It is not know how many of the recalcitrant Senators will stand with him, but the conferrees do not think there will be enough to defeat the report.

Speaker Reed and Messrs. McKinley and Cannon, the Republican members of the committee on rules, had a consultation yesterday afternoon in relation to a programme for the disposition of the conference report on the Tariff bill by the House. No agreement was reached, but it is understood that the committee on rules will bring in an order to-day providing for the immediate consideration of the report.

MONEY AND BUSINESS.

The Week's Business and the General Trade Outlook as Reported by R. G. Dun & Co.

NEW YORK, Sept. 27.—R. G. Dun & Co.'s weekly review of trade says:

Treasury disbursements for bonds and silver and prerayments of into at have reduced balances by nearly $3,000,000, but the enormous supply of currency has not as yet inflated prices at all. The local rate for money on call has declined from 4 to 3 per cent., and an easier market is reported at Boston, Philadelphia and Chicago. But the great foreign banks continue to lose gold, England and France reporting a loss of $4,600,000 for the week. With lower prices, there appears the desired improvement in export of products, and the decrease for the past three weeks is now only four-sevenths per cent. compared with last year. The imports are much enlarged by effort to get goods into the country before a new tariff goes into effect, but the current accounts of such increase are exaggerated; the value of all imports for three weeks has been but 15½ per cent. above last year's record. The reports from cities show a remarkable activity in all branches of legitimate trade. Boston reports more trade with easy money and exceptionally large sales of wool reaching 6,750,000 pounds. At Philadelphia the shoe and leather trades are exceptionally good and the iron trade improves. Chicago notes a heavy decline in grain receipts compared with last year. Cincinnati also reports quite a good trade and fair crops. At Cleveland trade is good, and at Pittsburgh is holds prices firmly, though there is a slight weakening in pig iron. Milwaukee reports trade much in excess of last yaar's, and Detroit also. At Minneapolis lumber has advanced 50 cents. White wheat is unsettled, with receipts of 1,191,000 bushels. Kansas City reports steady trade, and Savannah notes general activity, with firm prices for staples. Though money is very active at most points, and rather stringent at many, the volume of business does not seem to be anywhere curtailed thereby, and the reports as to collections are much more favorable than usual.

The business failures during the last seven days number: For the United States, 191; for Canada, 28; total, 219; as compared with a total of 190 last week, and 193 for the week previous to the last. For the corresponding week of last year the figures were 192 representing 165 in the United States and 27 in Canada.

The Doorkeeper was in the Line of His Duty.

WASHINGTON, Sept. 27.—The House committee on the judiciary, to whom was referred the resolution introduced in the House by Mr. Enloe, of Tennessee, charging the doorkeeper of the House with using violence in trying to stop him leaving the House, yesterday reported it back to the House adversely.

The doorkeeper charged with the offense claims that he simply laid his hand on Mr. Enloe's shoulder and reminded him that it was against the rules to leave the House during a call of that body, and the committee after a careful consideration of the resolution could find no reason for granting it.

The Pension Bureau to be Investigated

WASHINGTON, Sept. 27.—In view of the charges and criticisms that have appeared in the New York Tribune recently concerning the management of the Pension Bureau the House committee, investigating the charges against Commissioner Raum, yesterday decided to make an examination into the source of the charges and upon what grounds they were based, and for this purpose the committee issued subpœnas for M. Seckendorff and Major S. N. Clark, the Washington correspondent of the Tribune. They are requested to be present at the meeting of the committee this morning when they will be examined.

Proposed Monument to Stephen C. Foster.

NEW YORK, Sept. 27.—A movement is on foot to erect a monument to Stephen C. Foster, the composer of "The Old Folks at Home," and many other celebrated American songs. Wm. J. Noble, a former resident of Pittsburgh, is interesting himself in the matter, and has conditionally arranged with D. B. Shehan, the sculptor, to fashion the statue. It is expected that before many months the monument will be erected at Allegheny Park, Pittsburgh.

Seized and Confiscated for Containing a Lottery Advertisement.

CINCINNATI, Sept. 27.—The entire edition of the Cincinnati Weekly Volksfreund of this week's issue has been seized by the post-office authorities here and confiscated on account of containing an advertisement of the Louisiana lottery. The seizure was made on Tuesday, there being some five or six hundred pounds of the papers. The matter has been kept from the public until to-day.

HUMOR OF THE SCHOOL-ROOM.

A SCHOOL-TEACHER asked an Irish boy to describe an island. "Sure, ma'am," said Pat, "it's a place you can't lave widout a boat."

SCHOOL VISITOR (to bad boy)—"My son, what branches do you pursue?" Bad Boy—"I don't pursue any; the teacher does all the chasin'."

A MICHIGAN teacher received in one pupil's grammar papers this illustration of the degrees of comparison: "Positive, first; comparative, next; superlative, last."

SCHOOL-TEACHER (severely)—"You are half an hour late this morning." Little boy (who was "kept in" the day before)—"Yes'm. It was late yesto'day when I got home."

TEACHER (reading)—"'Let down your sable shade, oh night, and hide this sad earth from my sight.' That's poetry. How would you express the same idea in prose? Well, Johnny?" Johnny—"Pull down the blind."

"WHERE is the island of Cuba situated?" asked a school-teacher of a small, rather forlorn-looking boy. "I dunno, sir." "Don't you know where your sugar comes from?" "Yes, sir; we borrows it from our next door neighbor."

TEACHER—"It seems you are never able to answer any of my questions. How is this, my little boy?" "If I knew all the things you asked me, ma'am, father wouldn't go to the trouble of sending me here," replied Johnny.

HERE is an excuse brought one day by a tall, red-haired boy of seventeen to his teacher: "Dere Cir—Pleze to eggeuce Henry for absents yisterday. We made sourkrout and he had to tromp it down. Allso he had to Help bucher 2 pigs. Respeckful yuers, His Pap.

TEACHER—"Bobby Swapples, what is a quadruped?" Bobby—"A quadruped is an animal with four legs." Teacher—"Right; now give me an example of a quadruped." Bobby—"A horse." Teacher—"Right; can you give me another example?" Bobby (enlightened after much thought)—"Another horse."

The Perils of Youth.

How few have any material sympathy for youth at that period when

"Standing with reluctant feet
Where the brook and river meet,"

They are urged forward by Nature's stern decree to assume the powers and duties of manhood and womanhood. And yet this is the most critical point in the voyage of human life. Then it is that the danger of a shattered nervous system reaches its crisis and ignorance seizes its opportunity to plant the seed of future ill-health and misery. Then it is the quack secures his victim and his purse. This is the occasion when the hand of experience should take the hand of inexperience and guide its feet to the solid rock upon the farther shore. At the approach of puberty and during the first years of this new order of being, there are weakening tendencies that should be guarded against. A medicine that has the power to strengthen the various parts of the body and to regulate and give control to its various functions is essential at frequent intervals. Such a medicine has the eminent Dr. John Bull, of Louisville, Ky., given to the world. It is known as Dr. Bull's Sarsaparilla. Don't fall into the hands of quacks, but demand this remedy of your druggist. Take no other. It is exactly what is needed and will carry you safely through to strength and robust health.

EVERY mother owns the best boy—the worst boy belongs next door every time.—Texas Siftings.

By Steamer, Train or Boat?

Which of these have you selected as a means of travel? No matter. Whichever it is, recollect that for sea-sickness, disorders of the stomach, liver and bowels, engendered by rough locomotion and bad food or water, and for malarial troubles, Hostetter's Stomach Bitters is the most useful specific you can take with you. It is invaluable also for rheumatism, kidney complaint and nervous trouble.

WE believe it has never been decided whether railroads can grant a re-bate to fishing excursionists. — Washington Hatchet.

Entitled to the Best.

All are entitled to the best that their money will buy, so every family should have at once, a bottle of the best family remedy, Syrup of Figs, to cleanse the system when costive or bilious. For sale in 50c and $1.00 bottles by all leading druggists.

NEVER be in your place of business when a person wants to borrow money of you, because if you are in you will be out, but if you are out you will be in.—Somerville Democrat.

The Great St. Louis Exposition for 1890

With Gilmore's full band and the grandest Electrical display ever made on earth, will be open until October 18th. The Wabash offers the usual low rates to and from St. Louis. Particulars of the nearest Ticket Agent.

THERE is one thing a woman can never do—she can't make a man tell her where he has been.—Atchison Globe.

I HAVE been an invalid since my sixteenth year, until five months ago, I began a use of Dr. Bull's Sarsaparilla. Now at the age of twenty-three I feel myself, for the first time in my life, a man filled with health and ambition. I want you to publish this, although I do not sign my true name.—James Smith, Lexington, Ky.

THE man who proposed at five o'clock in the morning did the business in dew time.—Boston Gazette.

THE *very best way* to know whether or not Dobbins' Electric Soap is as good as it is said to be, is to *try it yourself*. It can't deceive you. Be sure to get no imitation. There are lots of them. Ask your grocer for just one bar.

Beware of Ointments for Catarrh That Contain Mercury;

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally and acts directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure and get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co.

Sold by Druggists, price 75c. per bottle.

ASIAN all, the only way to profit by the experience of others and avoid their troubles is to die young.—Atchison Globe.

A GREAT mistake perhaps was made when Dr. Sheiman named his great remedy PRICKLY ASH BITTERS; but it is presumed that at that time all remedies for the blood, etc., were called Bitters. Had he called it Prickly Ash "Regulator," "Curative," or almost anything but *Bitters*, it undoubtedly would have superseded all other preparations of similar character. The name Bitters is misleading; it is purely a medicine, and cannot be used as a beverage.

ABOUT the first thing that strikes the man who runs away is the scarcity of places to run to.—Atchison Globe.

COMMON sense teaches us that a thorn or splinter in the flesh must be removed before the part can heal. Malaria in the system must be destroyed before health can return. Shallenberger's Antidote for Malaria does this and health returns immediately. There is no other known *Antidote*. Sold by druggists, or sent by mail for one dollar. A. T. Shallenberger & Co., Rochester, Pa.

SO LONG as history repeats itself the school-boy need not commit it to memory.—N. O. Picayune.

THERE'S a new newspaper in Kansas called Ham and Eggs. It should never appear oftener than once a week. Published every Fried day probably.

ALL disorders caused by a bilious state of the system can be cured by using Carter's Little Liver Pills. No pain, griping or discomfort attending their use. Try them.

THERE is a strong resemblance between the friend who pats you on the back in a quarrel and the man who says "Sick 'em" to a dog in a fight.—Atchison Globe.

DELAYS are dangerous. Don't wait for your child to have an epileptic fit. Kill at once the worms that are making her feel so poorly by giving Dr. Bull's Worm Destroyers.

LYING may be wicked, but nobody is going to sit up all night if it is.—Binghamton Leader.

For twenty-five cents you can get Carter's Little Liver Pills—the best liver regulator in the world. Don't forget this. One pill a dose.

A PILL manufacturer advertised on the label: "You take the pills; we do the rest."—West Shore.

SCROFULA, BRONCHITIS, COUGHS AND COLDS, AND ALL FORMS OF WASTING DISEASES. *AS PALATABLE AS MILK.*

Be sure you get the genuine as there are poor imitations.

PRICKLY ASH BITTERS

One of the most important organs of the human body is the LIVER. When it fails to properly perform its functions the entire system becomes deranged. The BRAIN, KIDNEYS, STOMACH, BOWELS, all refuse to perform their work. DYSPEPSIA, CONSTIPATION, RHEUMATISM, KIDNEY DISEASE, etc., are the results, unless something is done to assist Nature in throwing off the impurities caused by the inaction of a TORPID LIVER. This assistance so necessary will be found in

Prickly Ash Bitters!

It acts directly on the LIVER, STOMACH and KIDNEYS, and by its mild and cathartic effect and general tonic qualities restores these organs to a sound, healthy condition, and cures all diseases arising from these causes. It PURIFIES THE BLOOD, tones up the system, and restores perfect health. If your druggist does not keep it ask him to order it for you. Send 2c stamp for copy of "THE HORSE TRAINER," published by us.

PATENTS For INVENTORS. 48-page BOOK FREE. Address W. T. Fitzgerald, Attorney at Law, Washington, D. C.

There are some patent medicines that are more marvellous than a dozen doctors' prescriptions, but they're not those that profess to cure *everything*.

Everybody, now and then, feels "run down," "played out." They've the will, but no power to generate vitality. They're not sick enough to call a doctor, but just too sick to be well. That's where the right kind of a patent medicine comes in, and does for a dollar what the doctor wouldn't do for less than five or ten.

We put in our claim for Dr. Pierce's Golden Medical Discovery.

We claim it to be an unequaled remedy to purify the blood and invigorate the liver. We claim it to be lasting in its effects, creating an appetite, purifying the blood, and preventing Bilious, Typhoid and Malarial fevers *if taken in time*. The time to take it is when you first feel the signs of *weariness* and *weakness*. The time to take it, on general principles, is NOW.

LIFE'S HISTORY:

Its Smiles and Tears. Such is the course of life, made up of sunshine and gloom, gladness and sorrow, riches and poverty, health and disease. We may dispel the gloom, banish the sorrow and gain riches; but sickness will overtake us, sooner or later. Yet, happily, that enemy can be vanquished; pains and aches can be relieved; there is a balm for every wound, and science has placed it within the reach of all. There is no discovery that has proven so great a blessing as Dr. Tutt's Liver Pills. In malarial regions, where Fever and Ague, Bilious Diseases and ailments incident to a deranged liver prevail, they have proven an inestimable boon, as a hundred thousand living witnesses testify.

Tutt's Liver Pills
SURE ANTIDOTE TO MALARIA.

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

Made simply with boiling water or milk. Sold only in half-pound tins, by grocers, labelled thus: JAMES EPPS & CO., Homœopathic Chemists, London, England.

GOLD MEDAL, PARIS, 1878.

W. BAKER & CO.'S Breakfast Cocoa

Is absolutely pure and it is soluble.

No Chemicals

are used in its preparation. It has more than three times the strength of Cocoa mixed with Starch, Arrowroot or Sugar, and is therefore far more economical, costing less than one cent a cup. It is delicious, nourishing, strengthening, EASILY DIGESTED, and admirably adapted for invalids as well as for persons in health.

Sold by Grocers everywhere.

W. BAKER & CO., Dorchester, Mass.

HAVE A CAB?

When you are addressed as above, your first impulse is to look at the driver. If the day be stormy and the driver is a wise man, you will find that he wears a "Fish Brand Slicker," and he will tell you that he is as comfortable on the box as his passenger in the cab, and that for his business this coat is invaluable. When you get upon inside a "Fish Brand Slicker," there's no such thing as weather for you. It doesn't make the smallest difference whether it rains, hails, sleets, snows, or blows. You are absolutely and solidly comfortable. Get one at once. No danger of your not liking it afterwards. It is a waste of money to buy any other waterproof coat. They are worthless after a few weeks of hard usage. Beware of worthless imitations, every garment stamped with the "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. Particulars and illustrated catalogue free.
