WHY A DIRTY FIGHT ON THE NEGRO PHYSICIANS?

It seems that the supporters of the various Negro candidates on both sides are throwing mud. This should not have ever been entered into so long as the Negro physicians who gets it shall be expected to represent us in that capacity as assistant city physician, the two leading candidates for the position, Dr. J. L. Dibble and Dr. J. E. Perry, stand so high in the community that it doesn't look well for the supporters of either side to be throwing mud at the other candidates. The job only pays \$50.00 per month which is not enough money to kill either man's business by the dirty fight which has been raging. Dr. Perry, one of the leading candidates, has a very good practice in this city, in fact his practice is so large that it wouldn't warrant him in having the other faction to make a fight on him that would injure his business. In fact we think that he has rotten out of the race for he doesn't care for all this fighting, and furthermore we do not think he is a party to the dirty fight that is being carried on against the other candidate and again we do not believe in Dr. Dibble is in favor of those dirty charges which are going to be filed against Dr. Perry. Let the two men fight on their merits and let their friends support them and then see who will get the nomination. Merit wins and party-regularity counts. The Son will investigate the matter and go to the bottom of the charges, and furthermore we will support the man whom we believe is being imposed upon. We believe that the mayor of the city will believe in a small measure what we have to say. Let the fight go on. Watch our next issue.

By men who have attended the Missouri State convention in the past, say that the 31st annual convention held at Fulton Oct. 10-13, the most successful in the state's history. Seven of the two hundred or more delegates were colored, representing the schools of Sedalia and Jefferson City, and the city associations of Kansas City and St. Louis. Among the interesting, helpful and inspiring conditions noted by the delegates, was the progressiveness and culture of the colored people of Fulton.
