FARMINGTON MILLING CO.

WHEN EASTER COMES The early advent of Easter means the early arrival of Spring, and Easter comes early this year.

When Nature puts on her garment of green, ambition awakens, and we begin to plan and to anticipate. And how much planning we have to do, and how much pleasure and profit to anticipate. You will observe that we put "pleasure" first—profit comes after, for profit without pleasure is Dead Sea fruit, tastelessly flat and bitter.

An honestly earned dollar and an honestly earned profit brings happiness. We are always happy.

Every living soul craves happiness, and some cannot be happy without harness—good, showy, but still solid and substantial harness. That's the reason we are in the harness business; we enjoy making others happy.

And do you know that animals have a large capacity for solid enjoyment? You have seen horses that were proud of their trappings, and held heads high and stepped proudly because of a softly spoken word and a caressing touch.

No, we wouldn't say that horses have souls, but we do say that they have feelings, ambition and pride of speed and strength.

Treat your horse kindly, humanely, and with consideration of his needs. Give him comfortable, well-fitting harness and collars to suit his load and neck. Use proper bits and safe lines, and feel easy of conscience unafraid of accident.

Among your plannings and anticipations plan for a good saddle, some new harness, some enjoyable riding and driving this spring and summer. Plan to buy these essentials from us—

So that we may anticipate the pleasure of serving you well, and at most reasonable price—

Before, or after Easter comes.

Work on the Court House square is progressing. The old walk is being removed, a new granite walk further out is being put down, and the iron railing removed. A grass plot of about six feet will run around the square outside the walk, and the lawn between the walk and the Court House not now in grass will be sowed, so that when the work is completed Farmington will have one of the prettiest Court House squares of any town in this part of the State.
