More Silica Roads.

We did not have time this week to give the "silica roads" proposition the write up we intend to, but the following from the Twice-a-Week Democrat will show the position of the county court in the matter:

"At its Monday session county court ordered that \$6000 be set aside from the Swamp Land Fund and placed to the credit of the road fund. This money will be used to purchase silica for the public roads of the county. The silica will be used as follows: Concord and Hayti road, 2 1/2 miles, and Caruthersville and Braggadocio, 2 1/2 miles. The people of the county are commencing to appreciate good roads, and while the court only ordered five miles built, it is the prediction of the Democrat that within the next five years there will be at least 50 miles of silica roads in this county.
