CALOMEL MAY TURN ON YOU NEXT TIME

Next Dose You Take May Salivate and Start World of Trouble.

Calomel is mercury; quicksilver. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.—Adv. 64

BAPTIST CHURCH NOTES

Sunday school 10 a. m.
Preaching at 11 a. m., and 7 p. m.
Prayer meeting Wednesday 7 p. m.
Our churches are a valuable asset to our community and we should do all that we can to support them by our attendance, our presence and interest. We can all arrange to attend at least one service on Sunday and should make an effort to do so. All are cordially invited to attend.

WATER WORKS ARE PRACTICALLY COMPLETED

There will be considerable joy spread in Hayti about next Monday when the newly installed water works will be completed. The contractor informs us, that the water will perhaps be turned on at that time and the system tested before the work is accepted by the city. This is an improvement, that we have long looked forward to, and every one, who has had the good fortune to have their house connections made will surely appreciate the many advantages of simply turning a faucet or two instead of the old fashioned method of trying to persuade the family pump to do its duty, especially when "said pump" is not in the notion, and instead of producing the desired commodity, simply does a little wheezing, and then one must use steeper methods and coax the thing to do its utmost. Possibly it meant a trip for some distance from the house, and the weather must be taken into consideration, or the family pump might not be in the notion, and necessitates a trip to the neighbors.

This is only one advantage, but one of the most important advantage will be the protection we will enjoy, in that we can sleep content, with the knowledge, that the fire bug will not have us at his mercy, and we have a weapon with which to fight him.

Get Moisture From ice.
In the Tanana valley, Alaska, though the rainfall is very light, crops draw ample moisture from the melting of subterranean ice for the first few years after the land is first cultivated. Eventually the ice recedes to such a depth that it no longer supplies the plants with water.

C'VILLE TO VOTE BOND ELECTION AGAIN

The citizens of Caruthersville were informed this week, that their bond election recently carried was invalid, due to the fact, that the notice of the election, no mention was made of the maximum interest rate to be paid. There is a new law recently passed by the legislature making his clause of the specification of the rate of interest to be included in the notice. They have been advised by Attorney Chas. Rutherford of St. Louis, a prominent attorney versed in this class of legal phrases, that the matter might be carried to the higher courts, and the election allowed, but as this is a long and slow process, the most economical method would be the holding of another election, re-advertising. This is a hardship on Caruthersville citizens, as they surely do need the protection of improved works, and this will necessarily put off the consummation of this improvement some little time.

ELITE CLUB NOTES

The members of the Elite Club were royally entertained at the home of Mrs. W. E. Robertson last Friday evening by Miss Thelma Robertson and Hattie Gaither.

The pastime of the evening being 500. Mrs. R. N. Brasher was successful in winning the first prize, a white ivory slopper spoon and Miss Sadie Mitchell the second prize, a white ivory pin tray, Mrs. Fred Larson third prize, a white ivory napkin holder. Miss Blanche Greenwell won the guest prize, a blue ribbon pin holder. Those present were: Mesdames Ward Dorris, Henry Byars, F. E. Teaster, W. R. Limbaugh, Guy Barbee, Jas. Walker and R. N. Brasher. Misses Sadie Mitchell, Sallie Brown, Carmel Popham, Mary Blanche Greenwell; Mesdames Fred Larson and Ethel Oates.

Delightful refreshments were served consisting of two kinds of sandwiches, apple salad, banana pie with whipped cream, and coffee. All voted the Misses Thelma Robertson and Hattie Gaither delightful hostesses.

PROBABLY TRUE

An old crow sat on a cornfield fence, and shouted his raucous cry; His remarks were stupid, and void of sense,—even as you or I.

But there he sat, as black as your hat, and tooted his harsh bazoo; That old fool bird jes' had to be heard,—even as you and I.

Pop all I know, that blamed old crow, as he squawked in his feindish glee, was teasin' his folks with his harmless jokes,—even as you and I.

So, here's to the bird that's bound to be heard, no matter how crude his gem; let others inspect, approve or reject,—it's a matter that's up to them.—UNCLE JOHN.

RHODE ISLAND RED ROOSTERS

Times for Gratitude.

There is much greatness of mind in the owing of a good turn as in the doing of it; and we must no more force a requital out of season than be wanting in it.—Seneca.

Christmas in Peru.

A midnight mass is generally held the night before Christmas in Peru. Christmas day is generally celebrated by a huge spectacular bull fight, and after this has taken place, a religious procession follows, at the head of which usually is held a statue of the Virgin. When this ceremony is over people are free to enjoy themselves as they choose for the rest of the day.

The First Christmas Card.

The exchange of greeting cards, though now such a recognized part of Christmastide ceremonial, is a custom of quite recent origin. The honor of its invention is claimed for three men, all famous in other connections, Rev. Edward Bradley (better known as Cuthbert Bede, author of "Verdant Green"); J. C. Horsley, R. A., and the late W. C. T. Dobson, R. A. Cuthbert Bede had a card printed from his own design for circulation in 1845, and two years later his printers, a Newcastle firm, put a number of cards on the market. About the same time, in 1846, J. C. Horsley designed a card for Sir Harry Cobe of Summerly's Printing house, Old Bond street. The subject was a typical scene of feasting and jollity. One thousand copies were printed and one of the few survivors sold a few years since for £50. According to some authorities Mr. Dobson was really the first in the field.—Westminster Gazette.

Freshening Rolls.

Frequently muffins, gems, cornbread, branbread etc., are a part of the evening dinner and seldom are all eaten during the evening meal, some being left over. The question comes to the conscientious housewife, "How can I serve them again in their original freshness?" It can easily be done. Grease a piece of brown paper, using plenty of grease. Wrap in it the muffins, bread, etc. Place in hot oven for ten or fifteen minutes, unwrap, serve, and, if you did not know, you would think they were just baked.

He Knew Where, All Right.

"You say your father was wounded in the war?"
"Yes, sir; very bad."
"Was he shot in the ranks?"
"Nossir; in the stomach."

Sherlock Holmes in Love.

"And when I kissed her I smelled tobacco."
"You object to a woman who smokes?"
"No, but she doesn't smoke."

America Succors Russians

Food, clothing and medical relief costing \$700,000 has been provided by the American Red Cross for the thousands of Russian refugees stranded last year in Constantinople and vicinity.

Roof of Washington's Home.

The wood shingle roof on George Washington's home at Mount Vernon was repaired by him in 1785 and was not again repaired until 1865—a life of 75 years, says the American Forestry Magazine of Washington. There have been many instances found where shingle roofs have lasted satisfactorily for 50 years and even 100 years. It is not at all unreasonable to attribute such a lifetime to cedar when we consider that the old sarcophagi in which some of the Egyptian kings were buried 3,000 years ago are still found in fairly sound condition.

Electric Refrigeration.

A brine tank in place of ice, which by means of an electrical instrument keeps a mean temperature in the refrigerator, is growing in popularity in suburban and country places where ice is difficult to obtain. Its advantages are that it does away with the leeman, it gives a dry temperature advantageous for the preservation of food, and there is no slime, dirt or drip as with the use of ice. It is arranged to freeze a little ice for table use when that is desired. It is not an inexpensive luxury, costing about \$400 to install in any refrigerator.

When Art Failed.

This is a true story of an adventure of two lady artists in Sunny Spain. They were walking and arrived at a little country inn, hot, dusty and thirsty. They couldn't talk Spanish, but wanted some milk badly, so one of them drew a most beautiful high-art cow, while the other jingled some coins. The Spaniards looked and a boy was sent off post haste. In half an hour the boy returned, hot and triumphant—with two tickets for a bullfight.—From the London Town Topics.

Billings on Bravery.

True bravery is very easy to detect, for it is as much a part and parcel of a man's every day life as his clothes is. Everything that a truly brave man does is done from principle not impulse, and when no one sees him he is just as heroic as he would be if he was in the eyes of the multitude.—"Josh Billings" (Henry W. Shaw).

Birds and Cyclones.

One naturalist has expressed the opinion that birds habitually make use of storms in traveling from one part of their range to another. He points out that if a bird cannot find shelter, it must be more comfortable on the wing than on the ground during a storm, because in the fiercest gales the air, as a mass, is at rest; that is, the bird is in a moving, supporting medium, like a swimmer in a strongly-flowing river.

Witches in Wales.

Superstitions of the country folk of Wales are discussed in the quarterly report of Dr. Arthur Hughes, medical health officer of the county of Carmarthenshire. Despite the fact that fortune telling and witchcraft are prohibited under the English law large numbers of the Welsh peasants bring their ailing children to the witch doctors rather than to medical practitioners.
