NUMBER 52.

Your Liberty Bond.

The United States Government borrowed money from you to finance the War. You hold the Government's promise to pay you back. This promise is called a Liberty Bond or Victory Note. On this Bond is stated the conditions under which the Government borrowed the money from you.

For instance: If you hold a Bond of the Third Liberty Loan, it states that on April 15th and October 15th of each year until maturity, you will receive interest on the amount you paid for the Bond. Other issues bear other rates of interest and other maturity dates, all of which are clearly stated on the Bond.

Now, if you keep your Bond until the date when the Government pays you in full for it, you do not need to worry if, in the meantime, the price is low one day or high the next. You and Uncle Sam are living up to your agreement with each other, and neither will lose by it.

On the other hand, if you sell your Liberty Bond now, you will find that the man you sell it to will not give you a dollar for every dollar you paid for it. The price has been brought down because so many people are offering to sell their Bonds. If the market is flooded with tomatoes, you can buy them cheap, but if everyone is clamoring for tomatoes and there are few to be had, the price goes up. The same is true of Liberty Bonds. Short-sighted people are dumping them on the market, and wise ones are buying them.

The best advice that can be given to the owner of a Liberty Bond is this: Hold the bond you bought during the war; it is as safe and sound as the United States Government itself.

Buy as many more at the present low rate as you can afford. If you hold them to maturity, you are bound to make the difference between what they sell at now and their face value. You will also receive good interest on your investment.

Hold on to your Liberty Bonds and buy more.

Farm Census Begins June 1st.

The Iron county farm census for 1920 will begin on June 1st, conducted by the local assessors who will ask the 24 short questions when taking the assessment.

Each and every farmer, and all folks interested in agriculture will be interested in the 1920 questions of the Missouri farm census. The REGISTER is able to announce this 1920 list today, by courtesy of the Missouri State Board of Agriculture, which is the administrator of this new state law, which is one of the very helpful fingers on the hands of more profitable farming methods. The following questions correspond exactly with the numbers of the columns on each township or county assessor's farm census blank:

1. Corn.
2. Winter and spring wheat.
3. Oats.

Increased Pay For Army And Navy.

The President has signed the bill providing for increased pay for the officers and enlisted personnel of the Army, Navy and Marine Corps. This bill provides for an increase in pay for officers of from \$240.00 to \$340.00 per annum.

The new monthly rates of pay for enlisted personnel in the Navy has been fixed as follows: Chief Petty Officers permanent \$126.00; acting \$99.00; Petty Officers first class, \$84.00; second class, \$72.00; third class \$60.00; non-rated men first class \$54.00; second class \$48.00; third class \$33.00; Fireman first class \$60.00. In addition to the above base pay enlisted men will be entitled to additional pay for service and permanent ad-

tions. The Bill provides for a flat increase of 20 per cent. for the Army and Marine Corps.

The bill provides for the transportation of families of officers and enlisted men ordered to make a permanent change of station and also provides for the payment of reenlistment money to any man who reenlists within one year from date of honorable discharge and within six months after the passage of this bill, this gratuity to be paid at the rate of one month's pay at date of discharge for each year that the man reenlists for. This last provision is a very important one inasmuch as many men who have been out of the service less than one year, but more than four months, can now return and receive a bonus of four months' pay for reenlisting for a period of four years.

Reservists on inactive duty can transfer to the regular Navy to complete the unexpired portion of their enrollment and receive four months pay of their confirmed rating at date of release for so doing and in addition will receive the increase of pay for a man reenlisting and will be granted thirty days leave of absence.

The Navy Recruiting Officer at St. Louis will furnish transportation gratis to any ex-service men in this locality or in the State of Missouri who desires to go to St. Louis for the purpose of returning to the regular Navy if they will make application for it.

To child of children under 16 years of age of such officer or enlistment man in case of death or remarriage of widow the whole pension.

To army nurses civil war, \$30.

No declaration will be required from those now on the roll and mentioned in foregoing clauses.

Declarations will be required in every case for original pension. Where no declaration is required, increase of pension will commence from date of approval of said Act. Payments at the increased rates will be made at the date of the quarterly payment due July 4, August 4, and September 4, 1920, to those then entitled, and thereafter regularly. Earlier payment can not be made on account of necessary labor and changes.

Obituary.

(By George Eyer.)

TATO—P. O. Tato, familiarly known as Spud, was removed from this earthly menu at his boarding house yesterday. The attending physician, Dr. H. Price, said proflitis was the direct cause of his demise, and as he has suffered with tuberculosis for years he was prepared to die. Mr. Tato was of Irish parentage, prominent among rich and poor. High society carried him on a silver platter and the lowly waitress loved to warble his name. He was so kind hearted his best friends skinned him. Mr. P. O. Tato's chips in the game of

life were ever played on the right side, for altho he was sometimes hard boiled, he did his best in the dark of the moon. At banquets and socials he was famous for his mashing, and he usually came home with the gravy. He was often in a peck of trouble, sometimes being served in a straight jacket. His daughter, Seed, and wife Mrs. Sweet Tato, survive. The remains will be taken to the oil fields near El dorado and "spudded in" tomorrow.—Topeka Capital.

From Goodland.

Still we have rain. The ground is too wet to plant corn or garden truck.

The hills are putting on their summer robes and are a delight to the eye. Arthur Wilson and family of Enough are visiting relatives at Goodland.

Mrs. W. H. Smith is still under the weather—the result of "flu."

The prospect for an abundant crop of fruit is good, but the fruit will not be good without sugar. The price of sugar is one of the most outrageous things the American people have ever had to put up with.

(Never end a sentence with a preposition.)

Sunday School at Redmondville every Sunday morning and at Goodland every Sunday afternoon. We have a fair attendance both at Sunday School and also at prayermeeting on Saturday night.

Look well to their record. What they have done many times in years gone by is the best guarantee of future results. Anyone with a bad back; any reader suffering from urinary troubles, from kidney ills, should find comforting words in the following statement.

J. P. Zolman, justice of peace, Division St., Farmington, Mo., says: "I was annoyed by my kidneys acting too frequently, nothing serious, but very annoying. Doan's Kidney Pills cured me and the cure has been permanent."

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.
