

JOURNAL AND UNION.

THURSDAY, APRIL 8, 1852.

The Hannibal and New London Plank Road and Bridge Company has let the contract for building the Bridge over Salt River to Mr. G. HARRISON, at \$13,500.

Political Whirligig. I would rather sit in council with the six thousand dead, who died of cholera in St. Louis, than with such a gang of Scamps and Rottens.

I am personally and politically the friend of Col. Benton; I am opposed to the Jackson resolutions; I denounce those Democrats who voted for Geyer; I approve the Resolution on the Right of Instruction, as drawn up by the Franklin county Benton Democracy.

We received yesterday a private letter, which, as is the case generally, when ladies write, is much taken up with gossip about the fashions. We don't know anything about these matters, and therefore take the liberty of publishing extracts from it, for the entertainment of our female friends, to whom we are sure it will be interesting.

I have concluded, among other things to write you a letter, to assist me in getting through the day, (it being a rainy one as usual) but do not flatter yourself it is for your amusement. I see your paper weekly, and read it with much interest, and among other contributors find "Crux" one of the best, and as he gives you all the public news and gossip of our city, I, for your own private use, that you may render yourself as agreeable as possible to your lady acquaintances, will enter into the difficult but important explanation of our summer fashions, that you know, being as interesting a subject to us, as a horrible murder, or an eloquent among the upper-tendon would be to you.

IMPORTANT ORDINANCES.

Below we give a synopsis of several important Ordinances, passed by our City Council and approved last week.

An Ordinance to prevent the erection of wooden buildings on the space between Rock and Church street, and between the river and Fourth street. The penalty for violation of this ordinance is fixed at not less than \$50 or more than \$150.

An Ordinance authorizing the Mayor to purchase four hundred shares in the Hannibal and New London Plank Road and Bridge Company.

An Ordinance to levy a special tax of one-fourth of one per cent. on the real estate of the city of Hannibal, for the purpose of subscribing to and improving roads leading into the city.

An Ordinance making it the duty of the City Engineer to let out contracts for improving, grading, curbing or paving, as may be directed by the city council, and after the work shall have been completed, to apportion the costs among the owners of the lots bordering upon the street, lane, avenue or alley, so improved.

An Ordinance to provide for removing the obstructions in Palmyra Avenue.

An Ordinance to provide for the guttering, curbing, grading and paving of the west side of Fourth street, between Hill street and Palmyra Avenue.

The Democratic State Convention met at 10 o'clock, A. M., at the Capitol. About sixty counties represented at the convention, organized temporarily by the appointment of McDearmon, from Cooper county, as President, and Graves as Secretary.

From the St. Louis Intelligence. Hurrah for Kennett and Improvement Whig Ticket Triumphant!!! We have the great satisfaction to announce this morning, the triumphant success of our city ticket, with one single exception.

The Council, it will be seen, is equally divided in both branches. Although this is a com-

what to be regretted, yet the great principle involved in the late contest is conclusively settled in the handsome and decided majority given to Mr. KENNETT. The city is now fully committed, by the votes of her citizens, to the wise and beneficent system of improvements with which the name of her chief executive officer is identified.

We regret to add, that Mr. Recorder DAVENPORT is evidently defeated. A meritorious officer has been omitted from the list of the successful candidates; for what reason, we are totally unable to say.

The work of destruction was not confined to the Glencoe. The after upper works of the fataract, which lay close by, taking in the whole of the boiler's cabin, was destroyed. Other boats nearby were visited, but to a less extent by the calamity.

The cabin forward of the wheel house was gone. A portion of it had been thrown on the freight piled at the fore-castle, this mass rising as high as the after hurricane deck.

One or two poor fellows who had been scalded and afterwards caught in the falling timbers, were seen motioning and heard crying wildly for assistance, as the flames reached and enveloped them.

The body of a lady, so horribly mangled that it scarcely held together, was taken from all the ruins of the fataract's ladies' cabin. She was not, of course, identified. It was thought that she had been blown from the ill-fated Glencoe.
