

Accuracy and Exactness.

We do not guess about anything in our prescription department. We use accurate weights and measures. We also use exact methods in compounding the various components into the medicine as it is when ready to take. And then we are always precise in checking over the prescription as a final precaution to see for certain that everything is all right.

The men who misappropriated the funds have been indicted and may possibly be sent to prison, but that don't restore the funds, nor does it benefit the order an iota. The first mistake was in having such a fund controlled by a few men. It is only the orders that have reserve funds, thus controlled, that have such troubles. Such funds in such organizations are very much like the legal fictions of "vested rights," "corporations as individuals," and "innocent third parties," were myths when the pinch comes. The one is never there when wanted, the other serves only to cover up, especially, legalize thieving transactions, or rob honest people of their hard earned dollars. —When we came to Rich Hill twenty-one years ago, J. F. Tedford came soon after and opened one of the first grocery stores in the city. He made his first announcement in the first paper started in the city of which the writer was then editor and proprietor. We changed our business some time afterward and so did Tedford. We lumbered into a government office and he got into the lumber business too. We've been lumbering ever since, and so has he. He has departed for the new Eldorado down in the Kiowa country. We'll stay in Rich Hill, up in God's country. Missouri is good enough for us and can only be made better by becoming Republican. Nevertheless our best wishes go with Tedford and we hope he will prosper in his new location. He is a good citizen and will be a valuable acquisition to the new territory.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Rich Hill Excursion 500 Strong
A special train bringing fully five hundred excursionists pulled into the union depot this morning from Rich Hill. The excursion was gotten up by the Presbyterians, Baptist, South Methodist and Christian Sunday Schools of Rich Hill and was a great success, both as to numbers and enjoyment.

United States Revenue Collector Kellogg, of Kansas City, who was a resident of Rich Hill when appointed to office and who still superintends the Presbyterian Sunday School at his old home, was the moving spirit in the matter and to him largely is due its success.—Nevada Post.

The Pilgrim for August.
Begins a thrilling story of love and political conspiracy in Spain, entitled "The Velvet Glove" by Henry Seton Merriman, author of "The Sowers," "The Isle of Unrest," and other successful romances. Byron W. Holt, the statistical expert of the New York Reform Club, writes of the Billion Dollar Steel Trust, Rev. Jenkin Lloyd Jones describes The Congress of Religions and Samuel E. Moffett tells of some interesting incidents in the Strenuous Newspaper Life. The culmination of the yachting season is recognized by a brilliant cover, and a strikingly illustrated article by Duncan Curry. The home departments, short fiction and art features of the number show a distinct advance over its predecessors.

—We are informed that W. T. Atkinson has purchased the Bates County Republican and consolidated it with the Free Press. This does away with one more paper for which there was never any room. It is said that the consolidated paper will be Republican in politics. If this is true, look out for Democratic fun to fly every once in a while in Bates county, for Atkinson knows how to skin'em alive with neatness and dispatch.
