There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. FROM BELLAMY.

BELLAMY, MISSOURI. ESTON THURSTON—When harvest is a thing of the past and the bar-vest is about completed. The wheat yield is going to be much lighter than was hoped for. A great deal of it blasted and some of the grains look as if they had been scalded. Too much rain at the wrong time. The rust struck the oats about the time they began to ripen and those that were not cut in good season became badly strawbroken and beside being light, much of it was wasted because the machines could not gather it up. A few patches were not bound at all, but were mowed as for hay.

The Bishop drill is ready for business except their boiler, which is still at Sheldon. From some cause or other they failed to get the wheels that belong to it and they undertook to haul it out on a common wagon, but it has broken down two wagons within a quarter of a mile of the starting point. And not such wonder, as it weighs four and one-half tons. Their derrick was completed last Saturday evening and the builders left for their homes Sunday morning.

No other drill has showed up yet and these two will have it their own way for awhile.
