Kneipp Malt-Coffee

Makes Rosy Cheeks

The Original Coffee Substitute

Father Kneipp's most famous achievement was the invention of Kneipp Malt Coffee which surpasses any coffee or substitute for coffee in richness, flavor and health-giving qualities. By this wonderful secret process, using the finest barley scientifically malted and caramelized, he produced his world-renowned, health drink, possessing the true, rich, coffee flavor and all the tonic qualities of a malted cereal as well. No other cereal coffee equals the best bean coffee in flavor and richness of aroma. Drink Kneipp Malt Coffee as a tonic food and away goes the danger of coffee poisoning—coffee nerves. Avoid imitations.

If your grocer will not supply it, write us and we will send you a trial package (makes 10 cups) FREE.
