Most of Them Want to Come to America—Americans Also Eager to Emigrate.

Washington, D. C., Oct. 10.—Ten million Germans and thousands of Austrians are awaiting opportunity to leave their native countries, according to dispatches presented today to the House Immigration Committee.

The majority wish to come to America, with Argentina, Chile and Peru second choices.

The committee is holding hearings on a bill denying citizenship to aliens who asserted their foreign allegiance to escape military service, and providing for the deportation of those who withdrew their declarations of intentions to become citizens to escape military service.

The Senate committee continued its hearings on the resolution of Senator Phelan of California, proposing investigation as to whether Japan is violating the "gentlemen's agreement" regarding the entry of Japanese into this country.

Commissioner Caminetti of the Immigration Bureau and V. S. McClatchy, publisher of The Sacramento Bee, were the principal witnesses. McClatchy reiterated testimony that the agreement is being "constantly and deliberately violated," while Caminetti told the committee his bureau had not been given sufficient funds to handle the situation.

Senator Phelan said he had prepared a bill which would exclude Japanese the same as Chinese. Senator Gore said the United States made a mistake in debating the immigration question with Japan when it first came up.

It tried to pass a larger car, missed a culvert, went over a ditch and came to a sudden stop in a barbed wire entanglement. Such things were of an every day occurrence before the big dry spell—but the way it is—well, I'll let you come to your own conclusions, since no one was hurt.

House Repeals Canadian Trade Reciprocity Law.

Washington, October 9.—The law which established reciprocity in the trade relations between the United States and Canada, a bitterly fought issue which contributed largely to the defeat of President Taft, was repealed by the House today without a record vote and with practically no debate. Practically every Republican vote was cast in favor of the repeal, with the understanding that it will clear the way for the later repeal of the Underwood tariff act and the enactment by the Republicans of a protective tariff system. There was almost no opposition to the repeal, and the measure passed by a vote of 232 to 10.
