

## TWO BEAUTIFUL WOMEN WHO ESCAPED SPRING CATARRH BY TAKING PE-RU-NA.

Spring Fever is Spring Catarrh--Nothing Robs One of Strength Like Spring Catarrh.

MISS ESTELLE CAMPBELL.

Miss Estelle Campbell, 140 N. High street, Nashville, Tenn., writes:

"Peruna helped me when almost everything else failed. I was run down from overwork, as I had not been able to take a vacation for three years and naturally my nerves were all unstrung and I was greatly in need of rest and a tonic."

"I went away for two months, but did not seem to get my strength back, although I was taking a prescription which the doctor gave me before I went away."

"At the request of my relatives, with whom I was visiting, I began to use Peruna, and you cannot realize how glad I was when within a week I found I was feeling so much better. Inside of a month I was feeling splendidly, ready and able to take up my work again."—Estelle Campbell.

### A Spring Tonic.

Almost everybody needs a tonic in the spring. Something to brace the nerves, invigorate the brain, and cleanse the blood. That Peruna will do this is beyond all question.

We have on file thousands of letters which testify to the curative and preventive value of Peruna in cases of nervous depression and run down conditions of the system. We quote a typical case:

Mr. Frank Williams, 833 8th street, New York City, member First Presbyterian Church and Captain Capitol Golf Club, writes:

"Last spring I suffered with malaria

and run down condition which seemed very difficult to overcome.

"I tried several different tonics but did not seem to get much better until I began using Peruna. My recovery was slow, but I was improving and I was glad to continue using it."

"At the end of two months my health was restored and I looked and felt much better than I had for years. Your remedy is well worthy of a recommendation and I am pleased to give it mine."—Frank Williams.

Peruna never fails to prevent spring catarrh or nervous prostration, if taken in time.

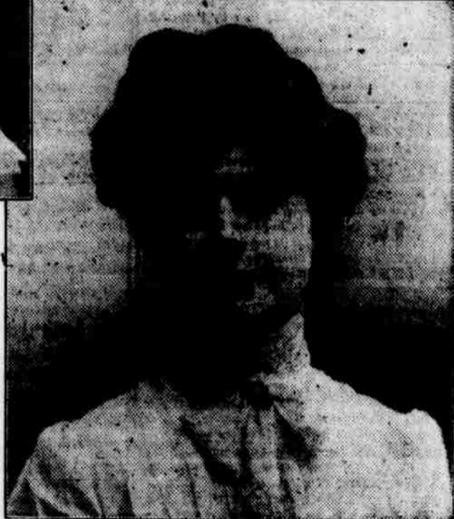

## Pe-ru-na is the Finest Tonic For a Weary Woman.

Miss B. Inez Silvers, 189 W. 136th street, New York City, Grand Recorder Daughters of American Independence, writes:

"Nine years of work, without a vacation, wore out my nervous system. I lost my appetite and felt weak and exhausted nearly all the time."

"Peruna restored me to perfect health in five weeks. It is the finest tonic for a weary woman that I know of. I gladly endorse it."—B. Inez Silvers.

Peruna is the most prompt and permanent cure for all cases of nervous prostration caused by systemic catarrh known to the medical profession.

MISS B. INEZ SILVERS.

### Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature. All correspondence held strictly confidential.

## C. WHITNEY, GRAFTER.

### How a Sleek Stranger Swindled Sedalians.

Charley Whitney, the popular M. K. & T. conductor, was enjoying a home siesta and a quiet pipe Friday afternoon at his Sedalia home, when a delivery wagon drove up and men commenced to unload a big steel range. "How about this," asked Whitney.

"Don't know, sir; ordered to deliver it," was the answer. Mr. Whitney called up the Ilgenfritz Hardware Co., and learned to his surprise that the range had been bought, paid for and ordered to his home.

"This is sure like Christmas," mused Whitney, but I'll be on the safe side." And he ordered the men back with the range. They had hardly got out of sight before a furniture man drove up, and Mr. Whitney found a fine leather covered couch had been bought, paid for and ordered to his house. This was from McLaughlin's furniture store.

Whitney ordered it back, and in a few moments Lodge, Staley & Co.'s furniture man drove up with another big leather couch for Whitney.

Mr. Whitney decided there must be some "funny business" somewhere; so he called up Ilgenfritz again and learned that the man who impersonated him had tendered a check and received \$35 in good money as change. He bought at various stores this way two couches and two ranges, receiving \$35.00 from each. The checks were found to be bogus and the swindler was \$140 to the good and made his "get-away" safely. The strange part of it is there is no better known Sedalian than Conductor Whitney. It is incomprehensible how a swindler assuming his name could operate so successfully among his personal friends and neighbors.—Henry Co. Democrat.

### To Cure a Cold in One Day.

Take LAXATIVE BROMO QUININE Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c

### A Russian Deathbed.

The World's Work.

There is a dreadful tale which I have told before in another place. It was given me as authentic, to illustrate the condition of the priesthood of the Orthodox Church. Let it be a picture. A hut, in which a man lies dying, sodden with fear lest he may pass ere the last sacrament be administered to him. The shaggy, long-robed pope has come, and the gear is laid ready; but ere he will get to his work and unburden the poor soul he will have an enhanced price for it. The wife of the dying man comes from the side of the squalid bed and pleads with him. He hears and is obdurate. Then a son will compel him, and they fight about the room, while the shaking patient stares from his pillow. The priest seizes the bread and tries to break it, for broken bread may not be blessed, while the son of the dying man grasps his arm to save it, and in the wrestle the little loaf crumbles at last, and the sick man closes his eyes with a sigh of despair, awaiting death and damnation.

### Man Writes to Alice Roosevelt For Marriage.

Bloomfield, Ill., June 12.—Secret service men from Washington arrested John Johnson, a Swede, for writing letters to Alice Roosevelt. Johnson said he was sent here from Sweden to marry Miss Roosevelt, and communicated his mission in letters to the President's daughter. The arrest followed. Johnson was at once taken to Jacksonville and recommitted to the asylum. He was a former inmate, but has been out for two years. He is regarded as harmless, and has been working in a grocery store here.

### Girl Mistakes Poison For Water, Drinks it and Dies.

Springfield, Mo., June 10.—Miss Nellie Taylor, 12 years old, who lives at Harold, Greene county, near Springfield, took a glassful of potassium cyanide by mistake this afternoon, and died a few minutes afterward. The parents of the child brought the family to the carnival in this city. It was decided to have the baby's picture taken in a tent where a photographer was operating. Nellie became thirsty stepped behind the curtain, noticed a basin of fluid which she thought was water and drank a large glassful of the deadly poison before her mistake was discovered. Coroner Matthews was called and decided that the child's death was purely accidental.

### Withstood 1-2 Million Volts.

Lynn, Mass., June 10.—To demonstrate his belief that there is little danger in electrical force when properly handled, Prof. Elihu Thompson of this city permitted a current which measured more than 1/2 million volts to pass through his body without displaying the slightest tremor or experiencing the slightest physical discomfort. The demonstration was made last night for the benefit of the members of the Commercial club of Boston. Prof. Thompson adjusted a special apparatus to his body and a high frequency current was used. Suddenly there was a flash from the finger tips and the sparks flew into the air illuminating two incandescent lights that were held two feet from the fingers.

### Ptomaine Poisoning in Berries Caused Death.

Carthage, Mo., June 10.—Ptomaine poisoning from eating strawberries caused the death of Mrs. George G. Buckwell of this city. This is the verdict of the Coroner announced today. Mrs. Buckwell, who was a prominent society woman here, died very suddenly about ten days ago. Her case was of particular interest to local scientists in that while she seemed to have suffered strychnine poisoning there was none of the drug to be found in the stomach. A post-mortem was held and the stomach was removed and sent to Jersey City for analysis. The Coroner's verdict is in accordance with the finding of the New Jersey scientists who say that effects of ptomaine poisoning from eating strawberries are very similar to those attending death from strychnine. A thorough chilling of the berries removes the possibility of poisoning.

### Deported Miners Ask Colorado to Pay \$400,000.

Denver, Colo., June 10.—Claims for damages amounting to \$400,000 were filed to-day with State Auditor Bent by Attorney John H. Murphy, counsel for the Western federation of miners, on behalf of sixty-seven men who were deported last year from the Cripple Creek, Telluride, and Las Animas mining districts. Each claim is accompanied by an affidavit reciting the great suffering undergone by the men, who were taken from their homes and run out of the state by troops under command of Adj. Gen. Sherman Bell.

### St. Petersburg Centers All Hope in Roosevelt.

St. Petersburg, June 10.—President Roosevelt, striking with excellent prospects of success to end the bloody war, is now the central figure of the world's stage. One of the main obstacles, it seems will be overcome, once both Japan and Russia have agreed to accept his good offices for the arrangement of the preliminaries. The belligerents are expected to be able to arrange the peace terms direct. The President is believed to share with Emperor William the view that the belligerents should be allowed to settle the actual terms without outside interference. Exactly what is transpiring at Washington is being carefully guarded. The diplomats here are still greatly at sea, not being able to do more than venture a guess. If Japan proves moderate in her demands peace seems at last to be close ahead. An armistice probably will be the first evidence that the world will have that the two powers have agreed to shake hands.

### Missouri Pacific's Problem.

"What will we do with the engines?" is a question that is confronting the Missouri Pacific railway officials. A consignment of fifteen Moguls has just been received by the road at St. Louis, and the engines are too high to pass through the tunnels along the Missouri river front near Jefferson City. "They can be wiggled through," said a trainman "but they can't do any bouncing on the rails. It's either trim out the tunnels or trim down the engines. They're idle now."

## MAN ATTEMPTS TO SHOOT FAIRBANKS.

### Blacksmith Tries to Kill Vice President Before Vast Michigan Throng.

### MAN TO BE INVESTIGATED.

Flint, Mich., June 9.—Vice President Fairbanks was addressing an enthusiastic assemblage of 2000 persons in the public square to-day, when James McConnell, 32 years old attempted to shoot him.

Mr. Fairbanks had been speaking for nearly twenty minutes, when McConnell, who had been slowly making his way through the crowd, made a bold effort to reach the side of the speaker. His right hand was placed on a rusty revolver in his hip pocket as he surveyed Fairbanks and then made a quick movement as if to attack the vice president. In the struggle with four detectives, McConnell had to be choked into submission. As he was placed in a patrol wagon he maintained that his time would come soon; that he would yet be able to carry out his purpose and assassinate the vice president.

Following the patrol wagon closely through the streets was an infuriated mob, mostly strangers, who were determined to take the law into their own hands. Cries of "Lynch him, lynch," by privates from Ft. Wayne, Michigan, who had taken part in the parade, seemed to meet with approval from sightseers.

McConnell implored the officers to protect him. Once inside the station McConnell's brazen air asserted itself. He declared that he was sorely disappointed at his unsuccessful effort. His pockets were filled with clippings from Chicago newspapers. The police believe that McConnell had planned to commit the deed in Chicago. He is a blacksmith. A doctor will examine McConnell to ascertain his sanity.

The vice president was not alarmed, and his speech was interrupted only for a short moment. The vice president and party left for home to-night.

### Millions of Dollars Disbursed By Japan In the United States.

San Francisco, June 9.—The Call says: "L. T. Egan of New York, now registered at a local hotel, has been in the city for several months, off and on directing the shipments of munitions of war to Japan. It has been learned that he had charge of the secret shipment to Japan of a fleet of submarine boats that performed such invaluable service in the great naval battle in the Sea of Japan."

"Egan is the representative of a Japanese firm in New York, which has been the medium through which Japan has been purchasing her material for warfare."

"The firm not only operated at this port but has shipped tons of war material from Seattle and Victoria, and its only failure was the refusal of the local customs authorities to clear the liner Adato with her contraband of shell. The firm is said to have handled millions of dollars for the Tokio Government, and disbursed the greater part of this money in this country."

### For Five Miles of Railway.

Jefferson City, June 12.—A charter was issued by the secretary of state, Mr. Swanger, to the Richmond & Henrietta Railroad company of Richmond with a capital stock of \$50,000. The road is to extend from Richmond to Henrietta, a distance of five miles. The incorporators are J. L. Farris, W. P. Hughes, William Deneal and others.

**Garden Truck**  
can be raised profitably only in soil containing plenty of Potash. All vegetables require a fertilizer containing at least 10 per cent. actual Potash.

Without Potash no fertilizer is complete, and failure will follow its use. Every farmer should have our valuable books on fertilization—they are not advertising matter bearing any special fertilizer, but honest and reliable information that means large profits to the farmer. Sent free for the asking.

St. Louis, Mo.—4th and Olive Sts.

### Four Year Terms.

The Nevada Mall says: "In Bates county one term for a four-year county office has become an unwritten law, and it is held sacred by the almost unanimous consent of voters. Long lease of official life, Bates county voters contend, breeds contempt among the holders and has a tendency to corruption in high places. Besides, it keeps good, competent, deserving men out of official place, to which they are in every way as much entitled as those who are regarding themselves with official gain. Rotation in office has worked well in Bates county. It has stopped deep seated greed for the best offices of the county, honored more men with place, strengthened the Democratic party, and, because of more frequent final settlements, has protected the county against loss by defalcations."

### Has Stood The Test 25 Years.

The old, original GROVE'S Tasteless chill tonic. You know what you are taking. It is iron and buaine in a tasteless form. No cure, no pay. 50c

### A Prison Record Broken.

Leavenworth, Kan., June 10.—The board of directors of the Kansas penitentiary met in monthly session today and awarded a contract to put in a water purifying plant. The legislature voted an appropriation of \$3,000 for this purpose. A plant to both purify and soften the water to the amount of 125,000 gallons a day is to be installed for \$2,850.

The reports of prison officials show that 1,206 prisoners are now confined in the Kansas penitentiary. This is the largest number of prisoners ever in the penitentiary. Of this number 410 are from Oklahoma.

### A Frightened Horse.

Running like mad down the street dumping the occupants, or a hundred other accidents, are every day occurrences. It behooves everybody to have a reliable Salve handy and there's none as good as Bucklen's Arnica Salve. Burns, cuts, sores, Eczema and piles disappear quickly under its soothing effect. 25c at Frank T. Clay's Drug Store.

### Cigarette Smoking No Crime.

Indianapolis, June 12.—Judge Leathers, of the Madison County Superior Court, decided in the case of the State vs. W. W. Lowry, indicted for smoking a cigarette, that the anti cigarette law is constitutional, except wherein it may conflict with the interstate commerce law. Smokers may import cigarettes from other states and smoke them, but it is held unlawful to sell or give them away. Lowry was discharged. The State will appeal to test the law.

### No Kimberley Will Fight.

Chicago, June 10.—Mrs. Elizabeth V. Asay, in whose apartments Peter L. Kimberley, the millionaire steel mill man, lived for five years before his death, last Sunday, will receive the \$500,000 bequeathed her by the millionaire without a contest. The will probated in Sharon, Pa., disposes of an estate of \$8,000,000. The heirs are Amos C. Kimberley of West Liberty, Ia., and his son, Sam'l C. Kimberley.
