MENTION OF OLLIE JAMES AS TEMPORARY CHAIRMAN STARTS THINGS BUBBLING.

A COMBINATION MAY BE FORMED

Clark Men Seem to Be in Control of Democratic National Committee—An Alliance Between Friends of Other Candidates Expected.

Washington, June 11.—Signs of impending storm blackened the Democratic horizon, following an announcement from national Clark headquarters that Speaker Clark's friends expect Ollie James, of Kentucky, United States senator-elect, an avowed Clark man, to be elected temporary chairman of the Baltimore convention. The election of James has been made the first step in the Clark program for controlling the convention.

Among opponents of Clark the plan to allow James to deliver the "key-note speech" is viewed as an attempt to show Clark's controlling strength at the very outset. A test on the point seems certain to be forced in the Democratic national committee, and possibly in the convention itself, between Clark's forces on the one hand and the supporters of all the remaining presidential candidates on the other hand.

To Combine Against James. Hearing James had been put forward as the Clark candidate, the backers of Gov. Woodrow Wilson strongly expressed a preference for Senator James O'Gorman of New York. Thomas M. Owen, manager of the Underwood headquarters, and the supporters of Representative Underwood generally, refused to discuss the matter, but there is every prospect that the Wilson and Underwood people, together with the Harmon, Marshall and Baldwin elements, and the New York influence, will unite for O'Gorman against James.

Fred T. Dubois, manager of the national Clark headquarters, sponsored the statement that Clark favors James, and Dubois felt confident enough to add the prediction that a majority of the Democratic national committee will propose James' name to the convention.

Will Show Clark's Strength. The committee has the function of tentatively choosing the temporary chairman, subject to the approval of the delegates in the convention. If the committee recommends James the action will be considered as demonstrating Clark's control of that body. Reports are circulated that the New York delegation is likely to back Wilson, and it was noted that Daniels, McGraw and Salsbury all are Wilson men. The Clark people now believe they are powerful enough to designate the temporary chairman.

## WOMEN INDULGE IN FRIENDLY GAME AT CHICAGO

While the Politicians Gamble Over the Presidency Their Wives Seek More Lucrative Returns—The Roof the Limit.

Chicago, June 11.—Several of the wives of the national committeemen and widely known politicians attending the Republican convention organized a little whist game early last week in a quiet room in the Congress hotel and gradually it grew into an auction whist game with stiff stakes. Lately they turned it into old-fashioned poker, taking the limit off and tossing it out into Lake Michigan.

Rumors of a "big game" have run about the lobby of the Congress for several days and Frank Repetto, house detective, has been jumping about watching every suspicious gathering of women when they were perfectly quiet and ordered nothing but ice water.

Took Off the Limit. The absence of the limit means that a woman can play her hand for ten cents or \$1,000 without violating any of the rules of the game.

One woman, a charming society leader in an eastern metropolis and the wife of one of the convention officials, let the whole story out when she handed a bellboy a poker chip instead of a quarter as a tip, and, inasmuch as she played fair and told the whole story, it wouldn't be fair to mention her name.

In attendance at the game were the wives of two western senators, the wife of one of the officials of the national committee, the wives of three western politicians of note—all three of them members of the steam roller crew—and one charming little Chicago woman who has done much toward making the stay of the visitors in Chicago pleasant.

Just a Friendly Game, You Know. "It is just a friendly game, you know," said the woman who told. "Of course there is no limit. If there is a low limit, you know, they always call and one can't bluff. Only one woman lost very much and she can afford it. She had lots of fun."

# STILL TAFT GETS 'EM

CONTESTED DELEGATES FROM KENTUCKY GIVEN TO PRESIDENT TAFT.

NO TIME TO READ AFFIDAVITS

Vote Stood 38 to 11—Night Sessions to Help Committee Finish Work by Time Convention Opens—Taft to Gain More.

Chicago, June 11.—The contest for two places on the delegation at large from Kentucky has been decided for the Taft men by the Republican national committee. The vote was 38 to 11.

The First District contest was decided unanimously for the Taft delegates.

The Taft delegates-at-large seated by the committee are: Senator W. O. Bradley, James Breathitt, W. D. Cochran and J. E. Wood. Only two of the seats at large were contested, the unseated Roosevelt delegates being Ed. C. O'Rear and Leslie Coombs.

Following the precedent already established the Taft members of the committee permitted the Roosevelt contestants to submit affidavits, but they were not read before the vote was taken.

The result in the First Kentucky district foreshadowed the seating of the Taft delegates in the Second and Fourth districts, where the Roosevelt men said similar arguments would be made.

May Hold Night Sessions. The time consumed in the presentation of the Indiana contests before the national committee made it a question whether more than Kentucky contests could be finished at once. Unless the Kentucky and Louisiana cases can be cleared up, it is probable the committee will be forced into night sessions to dispose of the many contests before the convention meets in a week.

The sixteen contested delegates from Kentucky held the right of way when the committee began work. Two delegates-at-large and two each from the First, Second, Fourth, Seventh, Eighth, Tenth and Eleventh districts were concerned in the contests which were to be heard during the day's session. The Taft delegation-at-large was headed by Senator W. O. Bradley.

## TOO MANY LIFEBOATS IN THE WAY

Sailors Testimony in Titanic Case Upheld Company—Searchlights and Binoculars Not Needed.

London, June 11.—The lookout in the crew's nest in the Titanic when it struck an iceberg and went down with 1,500 persons was not provided with binoculars because White Star line officials did not believe them necessary. That was the testimony given at the board of trade inquiry by Captain Bartlett, the line's superintendent.

Bartlett said that he considered glasses for lookouts unnecessary; that he believed searchlights at sea would be useless and that too many lifeboats on a liner's decks would hamper and confuse rescue work. Captain Bertram, a White Star commander, said he never reduced speed because of wireless ice warnings unless the weather was not clear.

## 200 BOY SCOUTS HAVE OUTING

Their tents are equipped for ten days' camp life, the time to be devoted to rowing, swimming, fishing, other outdoor sports and Bible study. Captains from the Salina Y. M. C. A. are in charge.

## Hadley Goes to Chicago.

Jefferson City, June 11.—Gov. Hadley was indignant when he learned by telegraph of the substance of the grounds upon which the contest over delegates-at-large from this state to the Republican national convention are based. He left immediately for Chicago, where he will appear before the national committee in support of the Roosevelt delegates.

Louisiana Representative Killed. Washington, June 11.—Robert C. Wickliffe, representative of Louisiana, was run down and killed on the tracks of the Southern railway in Potomac park. He had left the capital to be away on a fishing trip, and evidently was walking back. The engineer said he saw the congressman too late to avoid the accident.

I. W. W. Leader in Trouble. Fostoria, O., June 11.—An attempt was made to lynch Organizer O'Connor of the Industrial Workers of the World. The timely arrival of officers saved him while delivering a speech on the street. When he charged that Christ was simply a hobo carpenter and denounced all ministers and priests, there were cries of "String him up!" "Hang him!"

## SOUTH TO MAKE A STUDY OF PELLAGRA

Disease is Increasing—2,000 Cases in South Carolina Last Year—Special Commission Is Acting—\$15,000 Appropriated.

New York, June 11.—Equipped with a full field laboratory the Thompson-McFadden Pellagra commission will spend six months at Spartanburg, S. C., to study the puzzling disease which is increasing alarmingly in the Southern states.

An arrangement has also been made whereby patients will be brought to a hospital here throughout the summer for curative purposes and incidentally research work as to the course of treatment to which the disease best responds.

The personnel of the commission makes medical men await its report with the highest expectations. It includes Dr. Joseph F. Siler, captain medical corps, United States army, and Dr. Philip E. Garrison, past assistant surgeon, United States navy.

The expedition is made under the direction of the division of tropical medicines of the post-graduate laboratories. The \$15,000 necessary for expenses has been furnished by Col. Robert M. Thompson of this city, and John H. MacFadden of Philadelphia.

In South Carolina, last year, there were 2,000 cases of the disease reported, and there is every reason to believe that this number includes but a small percentage of the actual cases, due to the fact that reporting of cases is not compulsory upon physicians.

## Why the Farmers are for Major.

Because he is a Democrat.  
Because he does things.  
Because he can win next November.  
Because he is against the single tax.  
Because he did win in 1908—by odds.  
Because he is unincumbered, unattached and has no alliances.  
Because his official record is an open book and reads right.  
Because he prevented the trebling of the tax on every farm and city home in the state.  
Because he has done more for the people than any other Attorney-General Missouri has had.  
Because he enforced the Stamp Act and sustained it in the Supreme Court of the United States, and placed \$100,000.00 in the State Treasury to the credit of the good road fund.  
Because he saved the producers of grain \$500,000.00 annually by enforcing and sustaining the Full Weight Statute in the Supreme Court of the United States.  
Because he sustained, in the Supreme Court of the United States, the validity of the Initiative and Referendum, or the right of the people to legislate.  
Because he prosecuted and convicted the Harvester Trust securing a fine of \$25,000.00 and an order to dissolve.  
Because he is successfully prosecuting the Lumber Trust and Beef Trust.

Because he is one of the best known men in Missouri and is fully conversant with the State's fiscal affairs.

Because on account of his record he is without question the most available Democrat to lead the party to victory.

## WOMEN SHOULD BE PROTECTED

Against So Many Surgical Operations. How Mrs. Bethune and Mrs. Moore Escaped.

Sikeston, Mo.—"For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I cramped and had backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as any ordinary woman, any day in the month. I wish I could talk to every suffering woman and girl."—Mrs. DEBA BETHUNE, Sikeston, Mo.

Murrayville, Ill.—"I have taken Lydia E. Pinkham's Vegetable Compound for a very bad case of female trouble and it made me a well woman. My health was all broken down, the doctors said I must have an operation, and I was ready to go to the hospital, but I decided that I began taking your Compound. I got along so well that I gave up the doctors, and was saved from the operation."—Mrs. CHARLES MOORE, R. R. No. 3, Murrayville, Ill.
