

New Laws Cut Hunting Season

Bag Limit Now Includes Birds Killed by Persons Assisting the Hunters.

AIRPLANE SHOOTING BARRED

Tendency to Tighten Restrictions on Hunting of Birds and Big Game is Shown in Federal and State Laws for 1921.

Washington.—A tendency to tighten the restrictions on the hunting of birds and big game is noted in the game laws for 1921, a summary of which, both federal and state, has been compiled by the federal biological survey. Among the notable changes made during the present year was the amending of the migratory bird treaty act regulations with respect to bag limits.

This amendment provides that the daily bag limit of any person shall now include "all birds taken by any other person who for hire accompanies or assists him in taking migratory birds." This will put an end to the abuse of privileges under the regulations regarding the prescribed daily bag limits by persons who claim that birds were killed by guides accompanying them.

Waterfowl Season.

The federal waterfowl season for California was fixed from October 1 to January 15, replacing the old season of October 16 to January 31, the season now being the same under both federal and state laws. Regulation 9, governing the issuance of federal scientific permits, was amended to permit the issuance of limited and special permits.

State legislation harmonized federal and state laws on waterfowl and shore birds in Kansas and Oregon, and on waterfowl in Pennsylvania and Rhode Island; Washington prescribed a statewide open season on all migratory game birds from October 1 to January 15, thus deviating from the federal regulations, which supersede the state law, east of the Cascade mountains, where it will now be possible to hunt migratory game birds only from October 1 to December 31, without violating either federal or state law; in Idaho the open season on migratory game birds has been shortened under state law two weeks by opening October 1, instead of September 15, and extending to December 31.

Idaho, Kansas, Montana, Nebraska, Oregon and Washington enacted legislation similar to the federal regulation prohibiting hunting from airplanes. Colorado reduced the bag limit on ducks from 20 to 15 a day,

while Kansas increased the limit from 20 to 25. In New Jersey woodbirds were protected at all times by being placed in the nongame class. The open season for woodcock was shortened 25 days in Michigan, two weeks in New York and one month in Vermont. Doves were protected until 1924 in Colorado, and in Kansas an open season on them was provided from September 1 to October 15.

In general, seasons on big game were shortened and hunting further restricted. Buck laws were enacted in Michigan, Montana, Nevada, North Dakota, South Dakota, Vermont and in Washington east of the Cascades. Maine protected spike bucks and prescribed that one of the two deer allowed in the eight northern counties must be an antlered buck, and provided that in two of the counties only residents may hunt deer during the last two weeks of the open season. Bull moose were protected for five years in Maine.

Seek Mystery of Cahokia Mound

Prof. W. K. Moorehead to Open Illinois Relic of Prehistoric Inhabitants.

WORK SIMILAR TO THE AZTECS

Exploration May Develop Information of Surprising Interest to Archaeologists—Greatest Structure of Kind in World.

East St. Louis, Ill.—Probing of the mysteries of the great Cahokia mound, near this city has been begun by Prof. Warren K. Moorehead of Andover, Mass., upon the suggestion of the Smithsonian institution, universities and scientific associations. With a corps of experienced assistants he will open Cahokia and the chain of 72 other mounds in Madison and St. Clair counties which furnish the most remarkable memorials of North American. Exploration may develop information of surprising interest and value to archaeologists.

Covering 16 acres, the Cahokia mound, which is 100 feet in height, is the greatest structure of its kind in the world. It was supposedly a religious temple. Archaeologists estimate that the settlement of the mound

Mother Says Her Lot Justifies Profanity

Arraigned on a charge of profanity, Mrs. Agnes White of Columbus, O., thirty-seven years old, and the mother of 14 children, said:

"Judge, anybody that had to live as hard a life as I do, would curse."

Mrs. White testified that she was forced to take in washing and other work to support herself and her children. The judge dismissed her, after telling her to go and curse no more.

Home Gardening Beats Golf.

Detroit, Mich.—Thousands of Detroiters who acquired the gardening habit during the war have continued the practice of making and tending patches of vegetables and small fruits until it has become a hobby with a large proportion of men here. More interest is being taken in gardening than in golf, baseball or other sports during the summer months, according to those who have made a study of the situation.

builders numbered not less than 150,000 inhabitants at the height of its prosperity.

At First Agriculturists.

The size of the settlement site, as it can be imagined from the ruins, the agricultural type of much of the work in dirt, such as the great spades and hoes almost peculiar to that vicinity, and the rich alluvial bottomland combine to show that the Cahokians were probably at first agriculturists. They probably fished and hunted to some extent, but they, doubtless, depended for their subsistence upon their labor in the field and their staple food was unquestionably corn.

It is believed that the appearance of the blism resulted in the abandonment of agriculture and the development of the chase, with the result that the community became nomadic and gradually crumbled and dispersed to the four quarters of the continent.

Believed to Have Come From Mexico.

The preponderance of evidence so far discovered is that the people of Cahokia were worshippers of the sun. There is so much about Cahokia that is similar to the works of the Aztecs that the conviction is forced upon the student that it was from Mexico that these people came to the Mississippi valley, bringing their religion, their priesthood, their corn, their mode of life and their middle order of primitive civilization.

Even if the exploration of the Cahokia mound is not followed by any important discoveries, it is certain that the control by the state will be given greater momentum when the people of Illinois are brought to a realization of its archaeological value.

Up to the present time the Cahokia and other table-like mounds in the group have not been explored much more deeply than the plow and spade can work.

HOLDS HEART, PATIENT DIES

Surgeon at Clinic in Switzerland Criticized by Students for Unusual Act.

Geneva, Switzerland.—The cantonal government has ordered an inquiry into an extraordinary operation performed by the chief surgeon at a hospital, who extracted the heart from a man named Pasche.

Pasche shot himself, the bullet piercing his heart. The surgeon spoke for 20 minutes to the horrified students with the live heart in his hands.

At the end of the lecture, when the man was dead, the students protested to the surgeons, who dismissed their objections with the remark that the patient would have died anyhow within a few hours.

Authorities are not satisfied with this explanation, while the victim's relatives think of bringing a civil action for damages.

KING BARS CREAM HORSES

Famous British Hackneys Grow Too Small, Owing to Inbreeding.

London.—The famous six cream ponies, which were formerly part of the state pageantry of London, will never appear again drawing the royal coach through the London streets, as, owing to inbreeding, the stock has grown too small for ceremonial purposes and their places have been taken by the "royal blacks."

The stock of cream horses, however, will not be allowed to die out altogether, for the king has presented them to the army council, and in future they will be used as cavalry drum horses.

O. K. Barnyard Golf Sunday.

Lincoln, Neb.—Sitting as a court, the Lincoln city council decided the game of horseshoes on Sunday is not a desecration of the Sabbath and is lawful. The action followed the arrest and fining of boys indulging in the game on Sunday at the suburban town of University Place.

625,000 BOTTLES SOLD IN NEW YORK

Biggest Thing of Kind Ever Seen in That State, Declares Big Wholesaler.

The fact that 625,000 bottles of Bayer Aspirin have been sold in the state of New York since its introduction there less than one year ago, is a big business item, that will attract unusual attention throughout the entire East, for nothing like it has ever happened before. It breaks all records.

Mr. George B. Evans, manager of the Gibson-Snow Company, the well-known wholesale druggists, with branches in Albany, Buffalo, Rochester and Syracuse, recently announced that the preparation was now selling in their trade territories alone at the phenomenal rate of approximately 500,000 bottles a year.

"If the present rate continues," said Mr. Evans, "this rate alone will probably require considerably over 750,000 bottles a year. This is a tremendous figure, but I am really conservative in making this statement."

Aspirin is sold by leading druggists everywhere.—Advertisement.

Catch of Cod in Norway.

The catch of cod in Norway for the season just ended is greater than in any one of the preceding four years. However, the value of the catch was about 22,000,000 crowns, as compared with a value of 45,000,000 crowns for the 1920 season. The total number of fish caught in 1921 was 33,000,000; the 1920 catch totaled 38,000,000. The selling price is considerably lower and the high cost of equipment and oils makes the profit less than average. The operating expenses were at the same level as during the war.

CATARRAL DEAFNESS

is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood, thus reducing the inflammation and assisting Nature in restoring normal conditions.

"SHOWING OFF" THE COLONEL

Storekeeper Had Eye for Business in Keeping Good-Looking Customer Waiting for Attention.

A woman in a small town asked her husband, Colonel Blank, to call in at the dairy when passing to order some new-laid eggs. After making a brief detour the colonel yielded. A little later he called at the shop in question, quite a small and unimportant establishment on a back street.

Two or three minutes passed; then, as no one came to serve him, the colonel gave a gentle knock on the counter. This had no effect; so a smart double tap was given. Then a curly-headed youngster put his head around the door and announced, "Father's a-cum'm!"

By the time the father arrived the colored was boiling with rage.

"What do you mean by keeping me waiting all this time?" he roared.

"Very sorry, sir," said the man, "but you see it's like this. You're the very first good-looking man that I've had in my shop, and as there weren't no other good-looking ones I thought what a good advertisement you was standing there."—Philadelphia Public Ledger.

MARITAL LIFE ONE OF SURPRISES

His Nuptial Race Not "for Maidens" but "Previous Winners."

Instead of Getting Widow With One Child, Got Woman With Seven Children and Two Husbands.

New York.—Meyer Mauer's marital life was just one surprise after another.

He told the Supreme court about it when he asked for an annulment of the match and recited the list of unexpected events that came to him after he was duly wed.

When he married Becky Mauer, he says, she represented herself as a widow with one child. Surprise No. 1—Another child came to the home, calling his wife "mamma."

Surprise No. 2—Second child came along later, also child of wife.

"How come?" asked Meyer. "Thought you only had one child?"

"Oh, I merely forgot to tell you about this one," said his wife.

Surprise No. 3—Third child, also added starter, comes along to live with mother.

Surprise No. 4—Fourth unheralded infant adds itself to home circle.

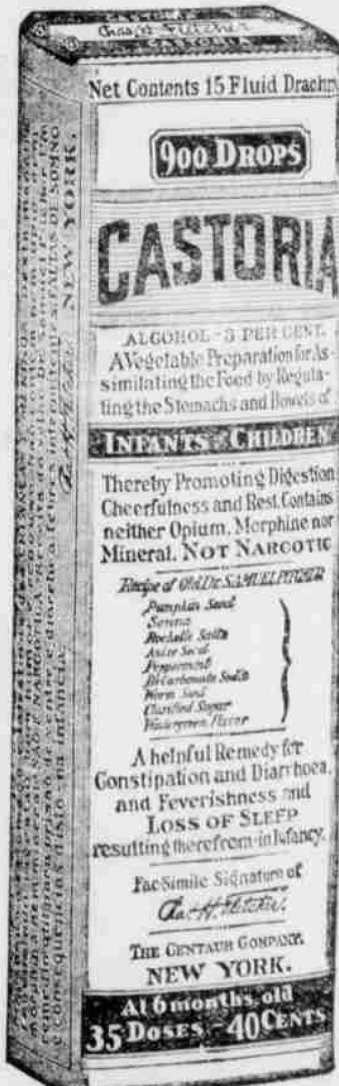

"How much of a family have I?" asked Meyer.

Surprise No. 5—"There are two more," said the missus, and the family grew from the one listed child to seven.

Surprise No. 6—Meyer discovered that Mrs. Mauer had two other living husbands and then he decided to let the Supreme court put an end to his family surprise party.

"It is a case of fraud and misrepresentation," he said in asking annulment. "Here I thought I was getting a widow with one child and I find that I got a woman with seven children and two husbands."

The word reverend occurs only once in the Old Testament.

Children Cry For

Fletcher's CASTORIA

Are You Prepared?

A doctor in the house all the time would be a good idea. Yet you can't afford to keep a doctor in the family to keep baby well or prevent sickness. But you can do almost the same thing by having at hand a bottle of Fletcher's Castoria, because it is a wonderful remedy for indigestion, colic, feverishness, fretfulness and all the other disorders that result from common ailments that babies have.

Fletcher's Castoria is perfectly safe to use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Children cry for Fletcher's Castoria, and mothers recommend it because they have found it a comfort to children and a mother's friend.

If you love your baby, you know how sweet it is to be able to help baby when trouble comes. You cannot always call upon a doctor. But doctors have nothing but good to say of Fletcher's Castoria, because they know that it can only do good—that it can't do any harm—and they wouldn't want you to use for baby a remedy that you would use for yourself.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

Some More Truths.

WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you: Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge.
