

THE GRENADA GAZETTE.

VOLUME 2. (NUMBER 46.)

GRENADA, MISS., SATURDAY, JULY 2, 1887.

(W. H. LADD, EDITOR AND R. T. PAYNE, MANAGERS.)

ATTENTION, DEMOCRATS!

At a call meeting of the County Democratic Executive Committee, held in Grenada on June 25th, it was ordered that the date for holding the County Convention be changed from Saturday, July 9th, to Monday, July 4th. It was further ordered that no change be made in the date for holding the beat meetings.

On motion the committee adjourned
J. C. CRUMP,
E. L. SANDERSON, Chm. pro tem.
Secretary.
Grenada, Miss., June 25th, 1887.

The biggest piece of artillery ever made by Krupp is a forty-centimetre gun just finished at Essen. The effect of a shot from this gun is said to be the most destructive known. The shot easily pierces the most strongly armored iron-clad at a close distance. It also passes clean through an armor-plate of ninety-seven centimetres thickness at a distance of 8000 feet. Another of Krupp's latest productions, a quick-firing gun on the pivot system, is also very highly spoken of, its performances being such that no torpedo boat could possibly withstand it or escape.

A great cruelty is often inflicted in shutting up hens that want to sit, says one who has had experience. I have heard women say that they had shut them up in a barrel, or some dark place, for five or six days without food or drink. When let out they are so weak they could hardly walk. I have no trouble in "breaking" my hens. As soon as one shows an undue disposition to sit I cover her or fix her nest so that she cannot get it. If that fails she is put into a coop, made of narrow slats, and stuffed with food instead of straw. She will soon be in condition to resume laying.—Western Rural.

An amusing story is going about England with the Archdeacon of Winchester for its hero. A few days since the archdeacon took a party of ladies over the cathedral, and, having entered the sacred edifice, put the key in his archdeaconal pocket. The organ happened to be under repair, and some of the pipes were lying about. The archdeacon is a small man, and his evil genius prompted him to give his friends a practical illustration either of his own smallness or the vast dimensions of the pipes, by crawling into it. But either the archdeacon was bigger than he supposed or the pipe was smaller; for having screwed himself inside, there the reverend gentleman stuck. The key of the church being in his pocket, and the ladies being unable to extract him, the archdeacon had to remain there till the workmen came back from dinner.

Self-Winding Clocks.

It is curious what a revolution in the watch trade self-winding has made, and I have often wondered that no such plan had been adapted to clocks. This has now been done, and I fancy the clock which winds itself up every hour will produce a complete change in the clock trade. The invention is very ingenious. The mechanism eliminates the heavy and costly parts of the clock work, gives the movement one-fiftieth part of the work to do originally entailed on it, and secures greatly increased efficiency and accuracy by the lightness of its action. Old favorites need not be discarded, as, in most cases, while retaining entirely their old appearance they can be converted to the new principle, and no longer need the weekly visit for winding. I went the other day to Queen Victoria St. to see these clocks, where all about them was explained to me, and where I heard the government has already adopted the system for the new post-office building in Manchester.—London Truth.

Gen. F. E. Spinner says that he finds his "hope of salvation" in the fact that he first appointed women to positions in the Treasury Department, Washington. Miss Jennie Douglas was the first one appointed, and she, and others later, were employed on the merely mechanical work of trimming treasury notes with ornaments. A number of women were made clerks in 1866.

District Executive Committee Meeting. The Judicial Committee met pursuant to call of the chairman at Sardis, Panola county, on Tuesday, June 21st, 1877, at 11 o'clock a. m., and the following proceedings were had, to-wit:

The committee was called to order by W. O. Hunter, chairman.

On motion of Gov. Shands, C. R. Boyce, of DeSoto county, was admitted to represent said county in J. P. Walker's stead, and upon motion was also elected secretary.

It was then moved and carried that D. W. Patterson, of Tallahatchie county, be admitted to represent said county, he having been elected by the Executive Committee of his county, instead of Spencer Barley, deceased. It was moved and carried that the representation of the counties composing the district be the same as heretofore, to-wit:

Tunica county—Two votes.
DeSoto county—Four votes.
Tate county—Four votes.
Panola county—Six votes.
Tallahatchie county—Two votes.
Grenada county—Two votes.
Calhoun county—Three votes.

A motion was then made by C. R. Boyce that the District Nominating Convention be held at Hernando, DeSoto county, Miss. Carried. On motion of W. D. Patterson, Wednesday, August 10th, 1887, was selected as the day for holding said convention. Upon motion the chairman of this committee was requested to secure, if possible, reduced rates on railroads for delegates to said convention.

Moved and carried that the secretary of the committee furnish a copy of the proceedings thereof to the Southern Reporter and to the Panolian with the request that the same be published therein and copied by all the other papers in the district.

On motion committee then adjourned to meet on call of chairman.

W. O. HUNTER,
C. R. Boyce, Chairman.
Secretary.

It is a pleasure, indeed, to note the spirit and determination to make a living at home, which has been displayed by the farmers in our county this year. In fact, everybody have put a shoulder to the wheel with an apparent desire to push up the bill of success, and shove off the yoke of credit and mortgage and climb up to a level of independence. This is evidenced by the interest manifested in raising stock, in growing grain and in making cotton a surplus. No doubt many have not lived in luxury in making this step, but the blessings of their efforts will soon be returned to them in ten fold, and by economical management, the farming interest of the South will be the most profitable of all vocations, and, as a class, the most independent and happy. You are on the right road—keep in the middle and go forward.—Houston Free South.

The governor of Texas, by proclamation, makes it an object for the citizens of that state to turn their attention to the enforcement of the law. He offers a reward of \$1000 for each train robber, \$500 for each member of a mob, and \$250 for every person who engages in an unlawful conspiracy of any description. Considering the plentiful supply of this sort of game in that section, it will pay better to hunt with the state authorities than it will to engage in the usual occupations of the frontier.

The Farmers' Alliance is said to have a membership of over 200,000 in Texas, and 25,000 in Louisiana. They have a membership exceeding 6000 in this State. The Relief, which had its origin in this State, is said to be growing rapidly, and now has a membership of 12,000 in Mississippi. The Wheel has a big following in Arkansas and Tennessee, and is growing strong in the northern portion of the State.—Booneville Plaindealer.

Foetians now promise to become a disturbing element in the Wheel and Alliance organizations. It would be better to pull down the hair and let the disturber out than to have the more important objects of the organizations interfered with. Foetians are great buzzards anyway.—Columbian Herald.

Commissioner's Sale.
R. N. & R. H. NASON,
No. 978, ...
ADA BARSES, ET AL.

By avirtue of a decree in the above styled cause, rendered at the March Term, A. D., 1887, thereof, of the Chancery Court of Grenada county, Miss., and to me directed, I will, on

Tuesday, July 5th, 1887,
proceed to sell, at the eastern door of the Court-house, in the town of Grenada, within legal hours, at public outcry, for division, to the highest bidder for cash, the following described lands, to-wit: N e 1/4 of sec. 21, township 22, range 3 east the same lying and being in the county of Grenada, State of Mississippi.

L. B. TURNER,
B. C. ADAMS, Com'r.
Solicitor.
Grenada, Miss., June 5, 1887.

Special Notice to Teachers.
Each teacher of a public free school is now required by law to take the census of all children over five and under twenty-one years of age residing in his school district. Teachers, of course, will confine themselves to children of their own color. This is a matter of grave importance to the school interests, as the amount of money received from the state distribution is determined by the number of educable children in each county. Take the name, age and sex of each and every child in the district, whether an attendant of a free school or not, and report to me by or before August 1st, 1887.
R. T. PAYNE,
June 24, 4t. Co. Supt. Education.

THE HOLIDAY CELEBRATE.

National Holiday, July 4th, 1887.
In accordance with a time-honored custom, the Mississippi & Tennessee Railroad will sell on the 3rd and 4th days of July, round trip tickets between all stations on its line of road at one fare, good to return until and on the 7th day of July, 1887. Extra coaches will be placed on trains to afford ample accommodations for everybody.
A. J. KNAPP,
Gen'l Ticket Agent.

Special Notice to Merchants and Grocers.
The Mississippi & Tennessee Railroad Company offer extraordinary low rates to shippers of vegetable over its line to Memphis, Tenn. Call on agent at depot, who will furnish you copy of tariff.
A. J. KNAPP,
June 17, 187. Gen. Frt. Agt.

ICE

On and after June 1st, call
Miss. & Tenn. Ice Co.
will sell Ice at 90c. per 100 lbs.
Less than 100 lbs. at 1ct. per lb.
Train arrives Wednesday & Saturday.
Wm. Fogarty.
