Rev. Wm. M. Green, D. D., was unanimously elected Bishop of the Diocese. Dr. Green has for some time been connected with the University of North Carolina as Chaplain and Professor of Rhetoric. His learning, piety and urbanity, will not fail to attract and win for himself the respect and esteem of the members of his church, and all who know him.

—A report has been in circulation here for several days past, of the existence of Cholera at Pontotoc. It was stated that forty cases had occurred there, and six deaths. We are pleased to learn from the delegates from this county who attended the democratic convention, that the report is without foundation. There had been cases of severe dysentery and a few deaths from it, but not a case of Cholera.

—ENORMOUS SNAKE.—An exchange paper says a large black snake was recently captured alive, near Birmingham, Pa., measuring 21 feet 8 inches in length, and 3 feet in circumference. This is hard to beat for a snake-story.

—NATCHEZ AS A SUMMER RESORT.—The Free Trader remarking upon the reprehensible custom too extensively prevailing in the South—of seeking places of summer resort in the free-soil North, advises the migratory citizens of New Orleans and of the coast, to spend the hot season in Natchez, where they will be free from epidemics and scourges of every kind. Natchez is proverbially healthy, and the most beautiful place on the Mississippi, and her citizens are second to none in cleverness and hospitality.

—The only pledge made by Gen. TAYLOR was that he would not turn men out of office for opinion's sake. The fact of an officer being a democrat, is now made a sufficient excuse to decapitate him; and yet, to support such an administration, the democrats are called upon to give their votes. If there be such creatures now as Taylor democrats can they longer hold companionship with their new allies. To do so would be humiliating, disgraceful, mean-spirited. Will they, spaniel-like, lick the hand that smites them?

—The Baptist Chronicle published at Jackson in this State, and the Baptist Chronicle at New Orleans, are now under suspension, owing it is stated, to a want of patronage. These are the papers that unwittingly gave circulation to the attempts to convert the University into a sectarian establishment. We regret the suspension of these papers, but cannot say that we have any tears to shed over their impotency to do mischief to our State Institution.

—CHOLERA.—The Memphis papers inform us that the Cholera is yet prevailing in that city to a considerable extent, though in most instances it readily yields to medical treatment. There has also been a few cases of Cholera in Yazoo City the past week.

—WHIG STATE CONVENTION IN MISSISSIPPI.—SAVE THE MARK.—After all that has been said and done by the whigs in this State against conventions, they are actually at work now getting up a convention to nominate a full whig ticket for State officers. The Aberdeen Independent thinks the delegates to that convention ought not to make any pledges; they are no doubt all getting very tired of pledges! But what is more strange the whigs of Marshall county, are moving towards getting up a county convention, to nominate their county candidates.

—J. W. CAMPBELL, Esq.—We learn that this gentleman has withdrawn from the canvass for District Attorney.

—HON. J. N. McCAMPBELL.—We learn from the Jacksonian, that this gentleman has authorized that paper to say that he is no longer a candidate for Judge. We learn also, from the same paper that Judge TAORER, is not a candidate for Judge nor did not intend to be, unless nominated by the Pontotoc Convention, Judge PRICE, therefore, is the only democratic candidate in the field for Judge of the 7th judicial district.

—REMOVALS AND APPOINTMENTS.—HOW HE NICKS THEM.—We clip the following from a long list of removals and appointments, that our readers may see who are being benched in Mississippi.

William McQuiston, of Mississippi, to be Marshall of the United States for the Northern District of Mississippi, vice John Ray, removed.

Wooden I. Ligon, of Mississippi, to be Attorney of the United States for the Northern District of Mississippi, vice Andrew K. Blythe, removed.

George M. Clayton, of Mississippi, to be Receiver of Public Money at Columbus Mississippi, vice James H. Westbrook, removed.

The following are not announced as official, but are no doubt correct.

Abbott Lawrence of Massachusetts, to London.

Wm. C. Rives, of Virginia, to Paris.

Ex-Senator Graham, of North Carolina to Madrid.

Baillie Peyton, of Louisiana, to Chili.

George H. Marsh, Constantinople or Berlin.

Col. McClung, to New Crenada or Venezuela.

T. L. Crittenden, of Kentucky, Consul to Liverpool.

L. Draper, Consul to Havre.

Ex-Governor Kent, of Maine, Consul to Rio Janeiro.

—JEFFERSON COLLEGE, ADAMS COUNTY.—We are glad to learn that Professor Hardeman has taken charge as Principal of Jefferson College, at Washington. Professor H. is a graduate of one of the most celebrated Universities of Europe, former Professor of Mathematics and Natural Philosophy of Jefferson College, Pa., of Oxford College, Georgia, and more recently of the University of Mississippi. The Oxford (Lafayette) Organizer has frequently spoken of Professor H. as an eminently successful teacher and accomplished scholar.

—Natchez Free Trader.—Our friend Tebo is slightly at fault in the above. Professor Hardeman was never connected with the University of Mississippi. He was, however, a candidate for one of the Chairs, and exhibited the highest proofs of qualification. We are pleased to learn that the Professor is so well located.

—To the Editor of the Organizer.

SIR:—Permit me through your paper to suggest the name of Capt. Wm. DELAY, as a fit person to supply the vacancy in the Democratic ticket occasioned by the declination of Judge Wm. H. SMITHER to become a candidate for Sheriff of Lafayette county. The selection of Capt. DELAY as a candidate for Sheriff, would, I am satisfied from frequent conversations with the democracy from all parts of the county, give satisfaction and secure the united support of the party. It is high time Mr. Editor, that the party should be aroused to the absolute necessity of placing democrats in every ministerial office within their gift, particularly when it can be done by men every way qualified. From his earliest settlement amongst us, Capt. DELAY has been a consistent democrat, and one that for a series of years have rendered valuable services to the party, both at the hustings and on the tented fields. His election would prove highly grateful to a large circle of friends, and be but a meed due.

—A DEMOCRAT FROM PRINCIPLE.

—HENRY CLAY.—REQUEST TO RESIGN.—A late Cincinnati Enquirer says: "at a meeting of the citizens of Trimble county, Kentucky, held on the 25th ult., at the Court House, in the town of Bedford, without any distinction of party, the following resolutions offered by John Robert, Esq., a Whig, were adopted: Be it further Resolved, That the doctrines published to the world by the Hon. Henry Clay, in relation to emancipation, are calculated, if carried out, not only to violate the constitutional rights of this Commonwealth, but greatly to injure the condition of the slaves, by corrupting them. Be it further Resolved, As the sense of this meeting, that with the opinions of the said Henry Clay, now made manifest, upon the subject of abolition or emancipation, that he is no longer deemed a fit instrument to carry out the wishes and defend the rights of the good people of this Commonwealth in the Senate of the United States, and therefore, as the first act of the next Legislature of Kentucky, he, the said Henry Clay, should be formally requested to resign his seat in the Senate of the United States.

—Now mark the difference.—Whilst the sentiments of Mr. Clay are thus bitterly denounced by all parties, whigs as well as democrats, in his own State, we have seen but one whig press in Tennessee find fault with his late emancipation letter. The Eagle published in this place spoke in high terms of the style of the letter, but offered no objection, if we rightly remember, to its sentiments; sentiments which the good people of Trimble County, Ky., say "not only violated the constitutional rights of this Commonwealth, but greatly injure the condition of the slaves, by corrupting them." And for which they say he should "be formally requested" by the Legislature of Kentucky "to resign his seat in the Senate of the United States." What a withering rebuke is the factious spirit of whigery as it exists in our midst; and which would sacrifice not only the South, but the constitution and union to a fell and slavish devotion to party!—Memphis Appeal.

—Tobacco in Cholera.—Dr. John W. Moore states, in a Mobile paper, that he cured one hundred or more extreme cases of cholera, not losing one, by the use of tobacco. He administered it in the form of an enema, the strength of one dram to a pint. He first tried it upon a negro

whose pulse was gone, his tongue cold, and his muscles so rigid that he rested on his head and heels. In five minutes he was relieved, and the cure was perfected by drinking a decoction of senna. In his own case, Dr. Moore took into his stomach a spoonful of tobacco decoction with perfect relief from cramp and diarrhoea.

—John Ferris has been appointed postmaster at Lawrenceburg, Indiana, vice Wallace C. Law, removed. Mr. Law served his country bravely in the war with Mexico, and LOST ONE OF HIS ARMS BY A CANNON BALL AT THE BATTLE OF BUENA VISTA. Of course this disqualifies him—takes away the "essential pre-requisites."

—EX-PRESIDENT POLK.—The following in relation to the illness of this gentleman, we clip from the Nashville Union of the 8th inst.:

In our paper yesterday, we stated that Mr. Polk was thought to be out of danger. This paragraph was written at two o'clock and the information which we received was more flattering than his situation would justify. We are pained to be compelled to announce that since that time he has been much worse, and he still lies in a precarious situation, though his physician, at four o'clock yesterday evening, thought his symptoms slightly better. His complaint is not cholera, but diarrhoea, to which he has been subject for many years.

—N. S. PRICE.—This gentleman is now the only Democratic candidate for Judge of this Judicial District. The Democratic party throughout the District we hope will unite and elect him. He served a short time as Judge some years since, and gave general satisfaction. The union of the Democrats can be effected, if the proper course is pursued. With union, his success is certain by a large majority.—Jacksonian.

—A RICH STATE.—The assessed cash value of real and personal property in the State of Ohio, for the year 1848, was \$421,067,991. This valuation gives \$200 to each living soul; or \$1,000 to each family.

—FOR THE CURE OF INFLAMMATORY RHEUMATISM.—Half an ounce of alum, half an ounce of pulverized salt petre, put in half a pint of sweet oil. Bathe the parts affected, when a cure will be speedily effected.

—At Fanny Kemble's last reading in the Masonic Temple, at Boston, the daughter of a wealthy man asked her husband who Shakespeare was. He replied without hesitation, "that he was the man who wrote the New Testament."

—One hundred thousand of the little dollar pieces have already been coined at the mint in Philadelphia.

—J. PORTER has become joint owner and publisher of the "Columbus Democrat."

—The whole number of houses destroyed in St. Louis by the late disastrous fire is given as four hundred and eighteen; the number of steamboats, twenty-five. The entire loss of property is estimated now at two millions of dollars.

SNOW CREEK SPRINGS.

—Orrin Beck, Proprietor. THESE Springs are located in a beautiful beach grove, a short distance from the junction of Snow Creek and Tiptah river, in the county of Tiptah, about 15 miles east of Holly Springs, and 10 miles south of Salem, Mississippi. There are several springs within a few yards of each other, differing materially in their properties, Sulphur predominating in some, and Iron in others.

—THE MEDICAL VIRTUES of the Water are believed, from the statements of hundreds of invalids who tried them, to be equal to those of any other mineral waters. A specimen from one of the principal Springs was, some two years since, submitted to Professor TROOST, of Nashville, whose reputation is so well known, and he returned the following Analysis:

—20 Fluid Ounces.—Sulphuretted Hydrogen 7 cubic inches. And then adds:—"Now, as it is my opinion that the most essential medical ingredient in the sulphuretted mineral waters, is the Sulphuretted Hydrogen, so I believe that yours will be found as beneficial as any of the more complicated waters."

—There is also a pure free-stone spring on the grounds. The adjacent streams afford an abundant supply of Fish, and the broken pine hills which surround the premises, abound with Game; whilst other sources of amusement have been provided for those who prefer them to the angle of the gun.

—The Proprietor, grateful for past patronage, has, since the last season, incurred much trouble and expense in fitting up the establishment, and will be prepared during the season to

Accommodate 150 or 200 Visitors.

—Baths have been fitted up, so that the applicant can be furnished with any kind which may be desired; a TEN-PIN ALLY erected; a well furnished CONFECTIONARY will be connected with the establishment; and DANCING provided for those who wish to

—Tip the light fantastic toe! A COTTILLION PARTY will be given once a week, the music to be furnished by Professor KENDALL.

—The TABLE will be supplied with the best the country affords; and the most ample arrangements have been made for Stabling Horses.

—Arrangements have been made with Messrs. Holland & Eppes, of Holly Springs, by which visitors who reach that place from any direction, can be conveyed to the Springs in carriages or buggies in three hours time; and as there will be a daily communication between the two points, letters and papers can at any time be obtained from the post-office at Holly Springs.

—In short, the Proprietor will spare no effort to make his establishment a pleasant retreat to all who may visit it in search of either health or amusement, or as a refuge from the approach of cholera.

PROSPECTUS OF THE UNION;

A Daily, Semi-Weekly, and Weekly Newspaper. PUBLISHED AT WASHINGTON, D. C., And devoted to Politics, Literature, and General Intelligence.

—On and after the 1st day of June next, the "UNION" will be published under the joint management and control of the subscribers. As both of the undersigned have been before the public in different stations—one of us for nearly half a century, and the other for several years—we believe it will not be deemed arrogant in us to suppose that anything more than a general declaration of our principles, and the course which we intend to pursue, will be necessary at this time.

—The political character of the "UNION" will remain unchanged. As it has hitherto done from the date of its publication to the present time, it will continue to advocate the great principles of the democratic party as expounded by its illustrious founder, Thomas Jefferson, and carried into successful practice in the administration of the government by subsequent democratic Presidents; principles which have secured for our beloved country an expansion, progress, and glory, unexampled in the history of ancient and cotemporary empires, and elevated it to the first rank among the nations of the earth. These principles have been more fully developed in the original Prospectus which was published at the commencement of the publication of the "Union," and republished in its columns, a few days ago. They demand a renovation of AMERICAN AND EUROPEAN SOCIETY, and for the purpose of giving them their true and proper effect, and for the purpose of economy in the expenditure of the public money, the separation of the

—Such are, in general, the principles which the "Union" will advocate, and in performing the duties which they have jointly assumed, the undersigned are aware that, in the present crisis, it will devolve upon them to discuss the policy and measures of the party in power with freedom and perhaps, on some occasions, with severity. But, in executing their high functions as conductors of the public press, they will not forget the dignity nor the amenities due to their position, while they perform their duty to the people with the firmness and fidelity which the occasion may demand.

—Aware that the "Union" is the sole organ at the seat of government, of the great democratic party, which represents the people of the United States not only in principles and sentiments, but also in numbers, the undersigned will endeavor to conduct it in that liberal and catholic spirit which the true interests of their country and party demand at their hands. They are not blind to the fact that in a republic so extensive as this, and embracing such a wide range of latitude and climate, different institutions must spring up apparently conflicting with each other, but, in reality, each contributing to the advancement of the whole. This apparent conflict of interests and institutions, of course, gives rise to sentiments and opinions as apparently diverse, but which, rightly understood, and under just restraint, can do no injury to each other. With regard to these conflicting sentiments and opinions growing out of local causes and institutions, it will be the object of the undersigned not to interfere, except to inculcate concession and forbearance on all sides and to secure to each the just protection which the constitution promises to all.

—Our endeavors will be to unite all the elements of the democratic party in support of its common principles, and in an effort to regain its ascendancy, which has been lost by the mistaken trust and confidence which some of its members have reposed in a man, now occupying the presidency, who had gained high military honors in a noble and patriotic cause, and who, in order to attain the highest civic honors, made promises and pledges which he has, from incapacity to fulfil his high duties, or from intentional design, grossly violated, thus betraying to the enemy those who confided in him, and bringing disgrace upon the Presidential office.

—In carrying out these purposes and intentions, the undersigned feel that they shall stand in need of the active and energetic co-operation and support of the undivided democracy of the country. The party in power has secured its ascendancy by a fraud upon the people, and has most shamefully violated all the pledges which it made to attain power. It will endeavor to maintain its ascendancy by the same unscrupulous means. It is the party representing the foreign sentiments and principles now too openly prevalent in this country, and which are at war with the principles of our government and with popular liberty. It is the party which always allies itself with every foreign enemy with which our country may happen to be at variance. It is the party that espoused the cause of Great Britain in the war of 1812, and league with Mexico in the war of 1845. Sound political morality, fidelity to republican principles, and that spirit of true patriotism which ever burns upon treachery to one's country, require that this party shall be expelled from the power which it has gained by such reprehensible means, and is now exercising for such unjustifiable ends. And in this great work we invoke the energetic and untiring aid of every patriot and every friend to popular liberty and free government, assuring them that we shall endeavor not to be wanting in honest efforts to accomplish that part of the work of reform which may devolve on us.

—But, while the "Union" will be mainly devoted to politics, it will not overlook the demands of the domestic circle. It will contain all the important news of the day, and devote a reasonable portion of its columns to matters of interest relating to science, the art, and general literature. THOMAS RITCHIE, EDMUND BURKE.
