Sausage, ribs, back bones and such like! Does that sound like a hungry fellow? We have some delinquent subscribers we feel sure will think of our interest when they read this. Turkey, dressing, cranberries and sauce! That sounds a little bigoted, don't it? We are rapidly reaching the climax now, when your sympathy will know no bounds. Pound cake, not layer cake—but regular old pound cake—boiled custard, pies and potato custard with spice in 'em! Now, ain't that talking some! Ain't your own mouth gone to watering? Stand back and just let us get to 'em! We just want to illustrate the question of parity. It makes a fellow think of cows, of wheat fields, of poultry yards, of potato farms, of sugar cane fields, hog raising, and everything else that indirectly produces indigestion. Now, come up with your subscription and we'll have another thought coming! Yes, bless your souls!

My time, Energy and Effort are Devoted Exclusively to the Eyes.

We know that if we relieve eye strain, any bodily disturbance that may have been caused by such strain will be relieved; also strain produces fatigue, nervousness, headache and many other troubles. It is a barrier to the student and workman—then the enjoyment you get out of life depends on the way you see things of life.

The Best is the Cheapest.

We believe in quality in everything, because it is an absence of quality of service and goods that make the bargain counter glasses dangerous. You get quality in service—quality in goods when you visit us, and the price is no more.
