has been rather too much during the past week; especially in Greenville.

Thermometer, 95
Barometer, 30.2
Wind, 1.50 inches

NOTES.—In our article on the "special train," in issue 25th, the amount in Manufacturers was unduly stated; and should have been \$200,000 instead of \$200,000. It is omitted in the list to in-foundry and boiler making and one steam boiler. These corrections are in our extra edition of the Greenville Times, which is circulated chiefly in the Delta.

There is now the advantage of the "special train," in those already provided. It leaves at 3 p. m. connects with train No. 15 to New Orleans; arrives at 7:15 p. m. Leaves at 6 a. m. The Burn train, or No. 13, leaves at 5:15 p. m., in 30 p. m.; and connects with No. 20 for Hunt-

PHILHARMONIC CLUB.

Prepare yourself for the fun at the Opera House on July 19th.

TRIAL BY JURY.

A Comic Opera, in two acts, will be given with the assistance of Mrs. Bella McLeod Smith and a very strong cast. The new arrangements and the ludicrous situations will surely keep the audience in a continuous roar of laughter.

Our little friend Emanuel Goldstein, who has been at school in Cincinnati for the past 10 months, has returned to gratify his parents with the record of good work as a student. His diligence and proficiency have entitled him to advancement from the intermediate to the high school. For the preparation which has enabled him to secure such early entrance to the higher branches of the school, he feels indebted to the careful culture of his Greenville teacher, Mr. Wm. M. Green.

The Greenville packet company has chartered the Morning Star, a fleet clipper built propeller, which has been in the mail service for some time between Baton Rouge and Bayou Sara, where she has made a good record. She arrived here at 11 o'clock last night and departed for Greenville at 6 o'clock this morning with Capt. Edgington in command. She will make one trip a week and the Phil. Armour will make two trips a week.—Vicksburg Democrat.

Now is the time to make every dollar count; and it is an act of simple kindness to the public to tell them that at the HARD CASH HOUSE of Hal T. Bucks you can get everything in the provision line at prices that cannot be undersold, where down weight and full measure are considered in the business. He keeps his stock fresh by constant renewals, and guarantees all goods that leave his house. [June 11]

Mrs. Nathan Goldstein returned from Cooper's Wells on Wednesday, and has been greatly benefited by the use of its health restoring waters. Mr. Goldstein speaks in the most flattering terms of the admirable hotel at the famed Wells, the elegance of its table, and the restful comfort of its large and thoroughly ventilated bedrooms. It is especially a place of rest and restoration for invalids. Under the prohibition laws of Hinds county not a drop of any liquid stronger than water is kept (in sight) at the hotel.

A man will be out of fashion on the 4th of July if he does not wear one of B. Wolf & Co's thirty-five cent Dusters.

Mr. Ben Rocks, who is so well and so favorably known, will be found hereafter at the grocery house of Head & Co., where he will be pleased to meet his old friends. Ben has been so long in the grocery business that its every department is as familiar to him as his a b c's, and his integrity is so well established that any article he recommends needs no further endorsement. To unfinishing reliability he adds the unvarying courtesy of a gentleman, and in securing his services the house of Head & Co. has got the most desirable stock in their business.

Generous Gift.

Mrs. H. B. Theobald has presented \$1000 to the Grenada Female College; one of the most deserving in the State. We have been informed that it is a cause of regret to this venerable and estimable lady that Greenville has no educational institution worthy of her benevolence. We hope it will not long be thus.

The Georgia Pacific Extension.

[Special to Commercial Herald.] Columbus, Miss., June 28.—Mr. J. C. Motley, in charge of the Georgia Pacific corps of engineers, left here this morning, leaving the line west to Greenwood, Miss., beginning the survey at this point, instead of at Starkville, as previously stated. The line will cross the Mobile & Ohio Railroad at Mayhew.

The foregoing is gratifying assurance to our citizens of the probable early realization of their fondest dreams. The completion of the Georgia Pacific, East and West, through the Delta touching the river at Greenville. Now if the River Commission will order the work ahead on our low ford, our 6000 population will reach 10,000 in the next census report.

There has been in Greenville for the past week an orchestra combination giving musical exhibitions. There is only one musician but he plays on two violins, a base viol and a clarinet simultaneously. He is blind too and makes good music. He is aided and abetted by a complicated looking mechanical contrivance consisting of wheels, belts, cranks, and treadles, which he works with his feet, knees and elbows. He designed and made the entire outfit of mechanism; and says it took him 15 years to complete and adapt it.

A negro man named Jim Brown died on Thursday morning from an attack of cholera morbus. Before his death he charged a woman with having poisoned him with some food she had given him. To determine the matter, the health officer, Dr. Wm. Ball, made a post mortem examination, took out the man's stomach, and upon its chemical analysis by Mr. Wm. Toy, of Finlay's drug store, no trace of poison was discovered.

Jackson, Miss., June 30.—Hon. B. W. Banks, Collector of Internal Revenue, is to day transferring the records of his office to E. T. Shields, Collector of the District of Louisiana, under the recent consolidation which abolishes the office here and attaches the State of Mississippi to Louisiana. From this date, all persons in this State wanting revenue stamps, must apply to Collector Shields at New Orleans.

RENEWS HER YOUTH.

Mrs. Phoebe Chealey, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 72 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and lameness, and am able to do all my own housework. I owe my thanks to Kleeve's Kidney Pills for having renewed my youth and restored completely all disease and pain." Try a bottle, and you will be convinced. Sold by B. Wolf & Co., Greenville, S. C.

More Honors for Washington County Students.

[Times-Democrat.] At the commencement exercises of St. George Hall, Baltimore, Md., Tuesday, a gold medal was awarded G. M. Urquhart, of Mississippi, for superior scholarship. A gold medal for scholarship was awarded to J. M. Urquhart, of the same State.

We congratulate Mrs. Urquhart on this honorable distinction won by her sons.

"The greatest of these is charity;" and in that charity which is expressed in liberal giving to the needy this community is almost unparalleled. A family came here a short time since with means to live upon until its head could obtain employment. But sickness assailed them, and soon the little store gave out. Pride prevented revelation of their condition until the death of one of the children made known the fact that they were destitute. That was enough to stir the hearts and open the hands of our citizens. A gentleman who loves a kindly deed set out at once on a mission of charity, and all he met claimed the privilege to give, and in less than an hour he had enough to put comfort into that bereaved and suffering household. And the pitying angels of heaven! well, we believe anyhow that the man who did this was rewarded in his deed, and that they who gave were richer for the gift.
